## **Pawned Sovereignty:**

**Sovereign Evolution** Ezra Aharon, 2008 From emancipation to segregation to integration African Americans exist today by virtue of a continuum of political evolutions each of which is built upon prior legacies and achievements In advancing our political progression Sovereign Evolution re declares freedom and equality in 21st century terms using sovereign principles and standards Whether the issue concerns Katrina and Jena or being underrepresented in Congress and overrepresented in penitentiaries the common thread as Ezra Aharon demonstrates is that African Americans are an Un Sovereign People who pay varying degrees of Un Sovereign Consequences Thus in a very methodical manner he circumscribes sovereignty in a universal and historical context that confers African Americans with just as much integrity and authority as any other people to espouse and employ sovereign aspirations The ideological framework herein self applies and legitimizes the concept of sovereignty in ways that no other work has succinctly captured in politically relatable terms specific for African Americans Realizing that not all African Americans will embrace sovereign values Aharon uniquely specifies how a Sovereign Evolution can mutually advance the best interests of us all without conflict or compromise to core beliefs of anyone Accordingly the book sets a platform to infuse sovereign discourse into mainstream domains that reach from street corners of the hoods to Black universities to church congregations to the halls of Congress The advent of President Barack Obama indicates a necessary and long awaited political shift in time and history which also conveys veiled implications of our sovereign potentials as a people What once seemed politically improbable has proven to be politically achievable Our only political limitations exist within the limits of our vision and courage To this end Ezra Aharon factually sculpts the sociopolitical substance of our historical experience into a sovereign consciousness and political language to initiate a Manifest Destiny from Civil Rights to Sovereign Rights     The Sovereign Psyche Ezra Aharon, 2016-04-30 The Sovereign Psyche is not just the title of the book More importantly The Sovereign Psyche is the motivating consciousness intellect and willpower that is necessary to materialize what the book defines as Self Authentic Freedom as opposed to Chattel Freedom Chattel freedom is when the value of a people is predicated upon the extent to which they serve the interests and institutions of others As such this work asserts that there is no such thing as intellectual or institutional equality and that Black African people have been unknowingly thrust into an intellectual and institutional war where second place finishers either experience varying degrees of chattel freedom or they could end up dead Regardless of the issue genuine solutions entail what we as Black African people intellectually and institutionally do for ourselves If Black Lives Matter we must channel the end uses of our intellect and the resources of our institutions to not only prove and enforce it but also leverage powers to penalize and or repudiate violators Although this work centers upon Black African people the sovereign functions and frameworks herein are universal in application being that today's world rotates upon systems of sovereignty and power not beliefs in democracy or equality In this context the sovereign concepts and criteria presented are

far more rational than radical The central question is to what extent will Black African people harness the willpower and employ the intellect of The Sovereign Psyche to actualize our own systems and institutions of self authentic freedom government and development without apology or permission This work offers the ideological apparatus to make this possible just as others are doing all around the globe      **Raise Your Brown Black Fist** Kevin Alberto Sabio,2010-03 The digital sensation that set fire to the cyber world now invades the real world Much has been said of the supposed rift between the Black and Brown communities with accusatory fingers being pointed at both sides The combined literary efforts in Raise Your Brown Black Fist seeks to dispel the rhetoric and spit the truth Whether breaking it down in layman s terms or spitting the truth using Hip Hop vernacular this is a must read that can help in bridging the gap between the two communities

**Scattered Assets** Baruti I. M. Katembo,2012-02-25 Scattered Assets seeks to be a conduit for facilitating a much needed and provocative dialogue on optimal 21st Century Pan African development through understanding the leverage and power of resource use a selected 8 work anthology of the author s speeches and writings from the vantage points of human capital sociotechnology culture and economics is used to discuss empowerment The notion of African Americans and the African continent becoming mutual resources is a major recurring and explained theme Also the book offers a fresh perspective and analysis and thus a new conversation on empowering African people and associated interests through prudent use of existing tools and assets      *Micronations and the Search for Sovereignty* Harry Hobbs,George Williams,2022-01-06 Political disagreement is a fact of life It can prompt people to stand for public office and agitate for political change Others take a different route they start their own nation Micronations and the Search for Sovereignty is the first comprehensive examination of the phenomenon of people purporting to secede and create their own country It analyses why micronations are not states for the purposes of international law considers the factors that motivate individuals to separate and found their own nation examines the legal justifications that they offer and explores the responses of recognised sovereign states In doing so this book develops a rich body of material through which to reflect on conventional understandings of statehood sovereignty and legitimate authority Authored in a lively and accessible style Micronations and the Search for Sovereignty will be valuable reading for scholars and general audiences      **Imperial Inequalities** Gurminder K. Bhambra,Julia McClure,2022-11-29 Imperial Inequalities takes Western European empires and their legacies as the explicit starting point for discussion of issues of taxation and welfare In doing so it addresses the institutional and fiscal processes involved in modes of extraction taxation and the hierarchies of welfare distribution across Europe s global empires The idea of imperial inequalities provides a conceptual frame for thinking about the long standing colonial histories that are responsible at least in part for the shape of present inequalities This wide ranging volume challenges existing historiographical accounts that present states and empires as separate categories Instead it views them as co constitutive units by focusing upon the politics of economic governance across imperial spaces Authors examine the fiscal innovations that enabled European empires to

finance their expansion the politics of redistribution that were important to constructing the veneer of legitimacy of taxation and the fiscal mechanisms that were established to ensure that the imperial contours of inequality continued to define the postcolonial world These diverse contributions provide new resources for how we think about issues of taxation and welfare across the longue durée This book is relevant to United Nations Sustainable Development Goal 10 Reduced inequalities

**Cat's Pawn** Leslie Gadallah, 2023-11-28 Book 1 in Leslie Gadallah's trilogy of interstellar intrigue The Empire of Kaz The Kazi Empire is slowly inexorably expanding up the arm of the Galaxy Only the Oriani see the danger and only Ambassador Talan recognizes the need to include humans in the alliance to oppose the Kaz Unfortunately in the chess of interstellar diplomacy humans make terrible pawns **Parliamentary Debates. Parliament, 1965 **Pawned Sovereignty** Ezra Aharone, 2003-12-01 Pawned Sovereignty will be a collector's item alongside Welsing's Isis Papers and Woodson's Mis Education of the Negro Rolling Out Magazine Aharone's bold blueprint for black sovereignty sounds more like a long overdue prescription than an incendiary manifesto Lloyd Kam Williams Syndicated Writer The themes of Ezra Aharone's political book Pawned Sovereignty revolve around Black America being a free but not a sovereign people The book however does not promote a sovereign movement but rather a sovereign consciousness and evolutionary outlooks Since sovereignty not civil rights is the pinnacle of all freedoms the book provides Black America with solutions and insightful viewpoints based on sovereign minded frames of reference This approach pierces the core of mainstream body politics and leads to redefined ideals and worldviews which better serve Black African interests According to Aharone Such outlooks also help bridge the political and philosophical gap that now separates Hip Hop from the Civil Rights Black Power generation A central premise of Pawned Sovereignty concerns what he calls different Concepts of Freedom According to Aharone Black America's concept of freedom has historically been limited to Civil Rights Integration and Citizenship However freedom for White America entails nothing less than Sovereignty Independence and Statehood Aharone says This conceptual distinction is arguably the most consequential yet most unrecognized source of racial disharmony and inequities As a result certain sociopolitical conditions that Whites would never tolerate have become normalized within the Black Experience Aharone surgically dissects and separates the flaws and misperceptions from the realities of American democracy while drawing political distinctions between the character of America and the image of America In prototype fashion he reconfigures today's sociopolitical landscape as he expounds on 55 original topics Among other things Aharone asserts that whether the issue is international terrorism domestic crime and homicides or inadequate numbers of Blacks in government the solution does not lie within America's current Brand of democracy Pawned Sovereignty addresses the root causes of such issues while offering prescriptions to remedy both the human and systemic failures of American democracy The blueprint he outlines will undoubtedly enhance or make you rethink your worldviews **An**
