Paying the Price Bethan Emmett, 2005 Main part of this report was written by Arabella Fraser Bethan Emmett wrote Part 4 Ack The Price of Precaution and the Ethics of Risk Christian Munthe, 2011-05-19 Christian Munthe undertakes an innovative in depth philosophical analysis of what the idea of a precautionary principle is and should be about A novel theory of the ethics of imposing risks is developed and used as a foundation for defending the idea of precaution in environmental and technological policy making against its critics while at the same time avoiding a number of identified flaws The theory is shown to have far reaching practical conclusions for areas such as bio information and nuclear technology and global environmental policy in areas such as climate change The author argues that while the price we pay for precaution must not be too high we have to be prepared to pay it in order to act ethically defensible A number of practical suggestions for precautionary regulation and policy making are made on the basis of this and some challenges to basic ethical theory as well as consumerist societies the global political order and liberal democracy are identified Munthe s book is a well argued contribution to the PP debate putting neglected justificatory and methodological questions at the forefront His many discussions of alternative accounts as well as his drawing out the consequences of his own suggestion in practical cases give the reader a thorough holistic sense of what justification of PP amounts to Munthe s main case his argumentation for the requirement of precaution as a moral norm is convincing and puts a strong pressure on too narrow alternative suggestions on how it should be perceived and justified and he launches a plausible defence of its practical usability My Revision Notes: AQA GCSE Citizenship Studies Mike Mitchell, 2012-05-18 Unlock your full potential with this revision guide which focuses on the key content and skills you need to know for AQA GCSE Citizenship Studies My Revision Notes AQA GCSE Citizenship Studies has been designed to thoroughly prepare you for the AQA GCSE Citizenship Studies short and full course examinations It covers each theme in the specification Community Action and Active Citizenship Being a Citizenship in the UK Democracy and Identity Fairness and Justice Global Issues and Making a Difference Helps you to revise the essential information you need to know for the exam Improves your exam skills with practice questions and accompanying model answers online Tests your knowledge and understanding with activities and online quick quizzes The Oxford Handbook of Modern Diplomacy Andrew F. network diplomacy The former is based on a small number of players a highly hierarchical structure based largely on written communication and on low transparency the latter is based on a much larger number of players particularly of civil society a flatter structure a more significant oral component and greater transparency The Oxford Handbook of Modern Diplomacy is an authoritative reference tool for those studying and practicing modern diplomacy It provides an up to date compendium of the latest developments in the field Written by practitioners and scholars the Handbook describes the elements of constancy and continuity and the changes that are affecting diplomacy The Handbook goes further and gives insight to where the profession is headed in the future Co edited by three distinguished academics and former practitioners the Handbook provides comprehensive analysis and description of the state of diplomacy in the 21st Century and is an essential resource for diplomats practitioners and academics
