Peace Operations: Yugoslavia* Bertrand G. Ramcharan,2011-08-11 This unique book one of the first of its kind discusses how human rights actually featured in UN peace operations in the deadly conflicts in the former Yugoslavia between 1992 and 1996 It is based on original materials in the possession of the author who was Director of the International Conference on the Former Yugoslava from 1992 to 1996 and also served as Director of the Office of the UN Special Representative in charge of all peacemaking peacekeeping and humanitarian operations in the region The book brings out the strategic centrality of human rights in the wide ranging humanitarian operations It shows how the peacekeepers built in a human rights dimension for the first time in the history of UN peacekeeping And it shows how the peace negotiators sought to build their peace proposals on the foundations of human rights It shows the peacemakers advocating justice for the victims while proceeding with their negotiating efforts The great value of this book is that the author who was personally involved in all of the activities he writes about shows how human rights were instilled in practice in UN peace operations over a period of some four years and it also reveals for the first time some innovative ideas advanced that might be helpful in future peace operations *Historical*

Determinants of Success in UN Peacekeeping Operations Jacques L. Koko, Essoh J. M. C. Essis, 2012-06-16 This book examines forty six UN peacekeeping operations initiated from 1956 through 2006 to manage cases of intrastate and interstate conflicts to identify the most significant factors that could help to explain the success or lack of success of such operations Factor analysis is used to exploit the correlations between independent variables in order to regroup them into a smaller set of factors explaining the success or failure of these operations The results show that the success of a UN peacekeeping operation can be explained by factors that are related to four categories of variables i the scope of resources invested in peacekeeping ii the duration and intensity of conflict and time of preparation for peacekeeping intervention iii the political support for peacekeeping from the UN Security Council and iv the type of conflict
