Peace Technology:

Future Peace Robert H. Latiff, 2022-03-01 *Future Peace* urges extreme caution in the adoption of new weapons technology and is an impassioned plea for peace from an individual who spent decades preparing for war. Today's militaries are increasingly reliant on highly networked autonomous systems, artificial intelligence, and advanced weapons that were previously the domain of science fiction writers. In a world where these complex technologies clash with escalating international tensions, what can we do to decrease the chances of war? In *Future Peace*, the eagerly awaited sequel to *Future War*, Robert H. Latiff questions our overreliance on technology and examines the pressure cooker scenario created by the growing animosity between the United States and its adversaries, our globally deployed and thinly stretched military, the capacity for advanced technology to catalyze violence, and the American public's lack of familiarity with these topics. *Future Peace* describes the many provocations to violence and how technologies are abetting those urges, and it explores what can be done to mitigate not only dangerous human behaviors but also dangerous technical behaviors. Latiff concludes that peace is possible but will require intense cooperative efforts on the part of technologists, military leaders, diplomats, politicians, and citizens. *Future Peace* amplifies some well-known ideas about how to address the issues and provides far, mid, and short-term recommendations for actions that are necessary to reverse the apparent headlong rush into conflict. This compelling and timely book will captivate general readers, students, and scholars of global affairs, international security, arms control, and military ethics.

Peace Time Fani Bhusan Das, 2009-12 The book is about a dream of mankind: the dream to live in peacetime. After many conflicts and wars, in 1901 the humans initiated actions to materialize the dream. But unfortunately, the dream is still a dream after more than one hundred years. Time is nothing but realizing things in succession and is a condition and cause of conditions. Peace time is a mental phenomenon, and its measuring system is derived from the functioning of the solar system and cosmological units. The dream is to promulgate a 28-day, 13-month moon civil calendar, which is a perfect, rational, uniform, regular, and harmonious time calendar. This provides appropriate impulses to human minds for peaceful responses and to create a peace-time culture. The book designs the Peace Calendar with names of 13 months of the year, each month promoting different moral values as components of Peace to mould the human minds towards peacetime. The book also highlights the present problem of violence, terror, and meltdowns in economic, social, and environmental sectors in each of the 13 months. The UN is urged upon to take quick decision for fulfillment of the dream to save the humanity from large-scale destruction and to switch over from the present miserable time to peace time by 2012-13, the cut-off year for the beginning of holocaust in human civilization.

Total Peace not Total War David Hoicka, 2024-07-13 Imagine a world where the full force of human ingenuity and resources are marshaled not for destruction but for the cultivation of lasting peace A world where societies are as deeply committed to preventing violence as they have been at times to perfecting violence This is the audacious vision of Total Peace that this book addresses and contrasts with the grim realities of total war that have shaped so much of human history Total war brought unimaginable suffering It also warped humanity's very conception of conflict War was increasingly seen not as a limited contest between professional armies but an existential struggle between countries demanding every sacrifice The purpose of my book Total Peace not Total War is to explore the transformative potential of shifting from a mindset of total war to one of Total Peace At its core this book is about the choices before us as a civilization will we remain captive to cycles of trauma dehumanization and escalating violence Or bring Peace Happiness and Prosperity to our Homelands To ensure broad accessibility this book is priced affordably It is my sincere hope that by making this resource widely available it can have a meaningful positive impact If my book Total Peace not Total War How to have Peace Happiness Prosperity not War and Death in your Homeland can save even one life or bring a measure of happiness to a single individual I will feel a deep sense of fulfillment and happiness myself I will be grateful to be able to make a difference through this work
