

A person is silhouetted against a bright, hazy sky at sunset or sunrise, holding a large American flag high above their head. The flag is waving in the wind. The person is standing on a dark, grassy hill. The overall mood is patriotic and inspiring.

Those who make peaceful
revolution impossible will make
violent revolution inevitable.

Peaceful Revolution:

Dreaming of Nirvana or The Next Peaceful Revolution Wilhelm Haberkorn, 2021-12-02 Your country needs your help not physically or monetarily but intellectually The attacks of 9 11 required the physical volunteering of many young concerned citizens to defend the nation And volunteering they did even though many of them returned in body bags and as mutilated bodies in huge numbers Now we have a different threat a threat that destroys our country from the inside out Now it's your turn to help and heal the country and decrease the race religion and national origin biases So everybody can be part of it But more so you can help define and provide solutions to our nation's problems If you are like most US citizens you must be concerned about our country's direction We spend trillions of dollars on questionable public initiatives and expect future generations to pay the bills We have college graduates with thousands of dollars in debt and virtually no job prospects We have structural budget deficits and trade deficits We collect record tax revenues but are unable to cover our expenses And the list goes on and on We have a political establishment on both sides of the aisle that fights for power and not for the people who elected them That said if you are a conservative or progressive young or old gay or straight Black or White male or female or any other classification you might fall into the book Dreaming of Nirvana or the Next Peaceful Revolution is for you It addresses the nation's most pressing problems and offers viable solutions as a starting point for a nationwide discussion You can be part of it by contributing your ideas and bringing our country back to sanity The website www.thenextpeacefulrevolution.com is for collecting all your input and feedback for subsequent republishing **The Nature of Revolution** United States. Congress. Senate. Committee on Foreign Relations, 1968 Analyzes stages of various national and social revolutions from the 17th through the 20th centuries **The Japanese Communist Movement 1920-19667**,

Martin Buber and Eastern Wisdom Teachings Hune Margulies, 2022-02-28 This book is an in depth conversation between philosophies of Dialogue particularly as espoused by Martin Buber and teachings from the wisdom traditions of the East particularly Zen Buddhism and its Pure Land School It argues that God is the between of I and Thou Writings from Sufism Hasidism Hinduism and other spiritual traditions are excerpted as well as they all draw their teachings from similar primordial moments of deep poetic insight Dialogical philosophy articulates the principle of relationship which is discussed throughout the book in its various contexts and different modalities **Brazil - An Interpretation** Gilberto Freyre, 2013-01-04 A series of lectures on the ethnic and social fusion that makes Brazil the country it is today Many of the earliest books particularly those dating back to the 1900s and before are now extremely scarce and increasingly expensive We are republishing these classic works in affordable high quality modern editions using the original text and artwork **An Ethical Evaluation of Lethal Functions in Autoregulative Weapons Systems** Nicole Kunkel, 2024-12-30 This book connects two of the most pressing ethical topics of our time questions of peace and technology materialized in so called autonomous weapons systems which can operate without human control and intervention in real time The author however

criticizes the term autonomy as too anthropomorphic and therefore misleading She consequently proposes using the term autoregulation in its place Taking a contingent pacifist stance this book addresses the question of whether such technological means help or hinder peace processes The argument is tripartite First it is demonstrated that the risk of harm to nonparticipants is very likely to increase Second and with respect to responsibility it is indicated that a human machine system can only be operated responsibly if a human is in control Finally this idea is transferred into theological thought through reference to Bonhoeffer s idea of incurring guilt in acting responsibly In that context autoregulative technology might pose the possibility of shying away from responsibility and therefore becoming guilty This book is among the first ethical considerations of lethal autoregulative weaponry from a contingent pacifist stance and brings together peace ethical thinking and theories from various backgrounds

Not All Quiet Before the Storm: A Political Study of the West Peter J. Sandys, 2023-02-03 Not All Quiet Before the Storm A Political Study of the West offers a comprehensive political and philosophical critique concerning the increasing popularity of socialism among liberal intellectuals leftist generations of the young and even Christian democrats The author presents a series of extensive analyses on ideological cultural and generational wars moral and identity issues and the challenges facing the Western world in the twenty first century The reader is to receive a severe but frank stricture upon liberal democracy a condemnation of the globalizing elite and the Western world s current political climate and culture The tone of the work is politically incorrect describing the decline and socialist transformation of the West The Left has changed the entire political and cultural landscape of the Western world The breakdown of civil society was caused by individual rights not being paired with personal responsibility and the growing culture of entitlements has convinced the people that failure is not their fault but results from the political economic system s transgressions Westerners have abandoned the ethical basis for society believing that all problems are solvable by good government The book offers recommendations on solving the readily apparent impasse It outlines an alternative system termed the New West

The Final Siege: Berlin 1945 Pasquale De Marco, 2025-07-11 The Final Siege Berlin 1945 is a riveting exploration of the Battle of Berlin in 1945 a pivotal moment that marked the end of World War II in Europe With meticulous research and captivating storytelling Pasquale De Marco delves into the strategic significance of Berlin the fierce fighting that ensued and the profound impact it left on the course of history In the heart of Nazi Germany Berlin stood as a symbol of unwavering resistance its defenses fortified to repel any invading force As the Soviet Red Army relentlessly pushed westward the city became the last bastion of Hitler s crumbling regime The ensuing battle was a brutal urban conflict with every street building and alley transformed into a battlefield Pasquale De Marco vividly portrays the human toll of the battle capturing the desperation and resilience of the soldiers and civilians caught in the crossfire The stories of individual soldiers their courage and sacrifices are interwoven

with the grand narrative of the battle creating a deeply moving and immersive experience for the reader Beyond the military engagements The Final Siege Berlin 1945 also explores the political and ideological dimensions of the Battle of Berlin The clash between the Soviet Union and the Western Allies over the future of postwar Europe set the stage for the Cold War shaping the geopolitical landscape for decades to come With its comprehensive analysis and gripping narrative The Final Siege Berlin 1945 is an essential read for anyone seeking a deeper understanding of this pivotal event It is a stark reminder of the horrors of war and the indomitable spirit of those who lived through it If you like this book write a review *Germany from Peace to Power?* James D. Bindenagel, 2020-08-10 A surge of political trends and upheavals all over the world confronts German foreign policy with a world that is dramatically different from Berlin Republic unification in 1990 Brexit American de commitment to Europe and the rise of isolationist populist forces within Germany as well as in other European countries and the U S have undermined the foundations of Germany s foreign policy Germany is suddenly faced with another historical shift that is starting to shake the bedrock of its foreign policy A council of experts for strategic foresight can address Germany s strategic cultural deficit its civilian power fixation its resorts principle of ministerial independence and its coalition governance conflicts **Mark Twain in the Margins** Joe B. Fulton, 2000 By redefining Twain s aesthetic Fulton reinvigorates current debates about what constitutes literary realism Jacket **Unjust Authority** Robert Jubb, 2024-12-16 Unjust Authority addresses a systematic weakness in contemporary political theory and philosophy Most contemporary political theorists and philosophers are unable to explain vindicate or justify the authority of the liberal democratic institutions that they live under Instead they endorse moralist accounts of the right to rule which require governments to meet impossibly high standards to avoid condemnation as illegitimate usurpers This is true not just of the dominant Rawlsian mainstream but of many of its radical critics whose membership of more critical traditions leaves them sceptical of the value of existing institutions even where they provide stable decent rule The book instead provides a realist account of the authority of liberal democratic rule focused on impersonal rule and regulated democratic competition It uses groundbreaking work in political economy to explain how at least reasonably favourable conditions these two mechanisms can be expected to combine to generate a growing surplus whose fruits will be made widely available The prosperity and protection provided by liberal democratic rule to most of those it governs forms the basis of its authority even though the hierarchies and exclusions that remain leave liberal democratic societies a long way from justice Understanding liberal democratic authority in this way allows us to reassess challenges to it While anger and even violence may then be acceptable and even appropriate even peaceful attempts to remove the winners of democratic elections must be condemned **Envisioning Eastern Europe** Michael D.
