Pavlich, 2002-09-11 Suppose you have a dispute with your neighbour and wish to secure redress for losses incurred How might the issue be resolved Is it worth the cost and time delay to take the issue to court Or is there some other approach Over the past few decades a range of alternative dispute resolution programmes have emerged to settle conflicts informally outside the courtroom Drawing on real life experiences of community mediation

practices in British Columbia Canada the author explores informal justice as an event rendered possible by the fragmentation of justice under postmodern conditions He develops some of Foucault's ideas on governmentality to erect an analytical framework that does not view community mediation as necessarily empowering or an inevitable expansion of state control The analysis identifies how one might engage with current versions of community justice and yet avoid the political apathy that too often accompanies such criticism

Mediators in the Leading Role - Understanding and Actively Managing Mediation Andrea Hartmann-Piraudeau, 2022-02-25 This book is intended for readers interested in mediation negotiation and other methods of conflict resolution The use of mediation is widespread but research into its impact is still in its infancy If mediation is a way of resolving conflicts of our time then mediators have a responsibility on a small scale in resolving acute conflicts and on a large scale in shaping and establishing a new form of social dialogue They should know what they are doing They should know which interventions to use and when and what effect they have With its research results this book helps to strengthen the relevant field of mediation through scientific findings and to derive recommendations for action for mediators from the results This book is a translation of the original German 1st edition *Mediatoren in der Hauptrolle Mediation verstehen und aktiv steuern* by Andrea Hartmann Piraudeau published by Springer Fachmedien Wiesbaden GmbH part of Springer Nature in 2020 The translation was done with the help of artificial intelligence machine translation by the service DeepL.com A subsequent human revision was done primarily in terms of content so that the book will read stylistically differently from a conventional translation Springer Nature works continuously to further the development of tools for the production of books and on the related technologies to support the authors
