Samson Daft Donnet's Management is a robust foundation text providing a balance of broad theoretical content with an engaging easy to understand writing style It covers the four key management functions planning organising leading and controlling conveying to students the elements of a manager's working day Along with current management theory and practice the authors integrate coverage of innovation entrepreneurship agile workplaces social media and new technology throughout This sixth edition features a new author on the team and contains updates to content based on recent research Real life local and international examples showcase the ongoing changes in the management world Focusing on a skills approach they bring concepts to life for students supporting motivation confidence and mastery Each part concludes with a contemporary continuing case study focusing on car company Toyota as it faces managerial challenges and opportunities in the region *Biofeedback for the Brain* Paul G. Swingle,2008 Neurofeedback is a cutting edge drug free therapeutic

technique used by over a thousand licensed therapists in North America to treat a range of conditions from attention deficit and hyperactivity disorders to epilepsy stroke anxiety migraine and depression First popularized in the 1970s this naturalistic method is based on the idea that we can control our brain activity and that through training the brain can learn to modify its own electrical patterns for more efficient processing or to overcome various states of dysfunction In Biofeedback for the Brain Dr Paul G Swingle describes in clear and coherent language how these procedures work With numerous actual case examples readers follow the progress of clients from the initial brain map that shows the location and severity of the neurological abnormalities to the various stages of treatment Conditions often considered untreatable by conventional health practitioners respond positively to neurotherapeutic treatment and Swingle describes many of these remarkable recoveries Other chapters describe the use of neurotherapy for a variety of surprising purposes including performance training for elite athletes of which the most famous example is the Italian soccer team who considered the technique to be their secret weapon in attaining a World Cup victory Despite wide ranging success stories and the endorsement of the American Psychological Association many health care practitioners remain skeptical of neurofeedback and the procedures are still not well known by the public or conventional health care providers This book provides a thorough definitive and highly readable presentation of this remarkable health care alternative that offers millions of individuals a chance for healing
