Griffin,Roy Jones,Iain J. M. Robertson,2019-03-01 This book offers the first systematic study of how elite conservation schemes and policies define once customary and vernacular forms of managing common resources as banditry and how the bandits fight back Drawing inspiration from Karl Jacoby s seminal Crimes against Nature this book takes Jacoby s moral ecology and extends the concept beyond the founding of American national parks From eighteenth century Europe through settler colonialism in Africa Australia and the Americas to postcolonial Asia and Australia Moral Ecologies takes a global stance and a deep temporal perspective examining how the language and practices of conservation often dispossess Indigenous peoples and settlers and how those groups resist in everyday ways Drawing together archaeologists anthropologists geographers and historians this is a methodologically diverse and conceptually innovative study that will appeal to anyone interested in the politics of conservation protest and environmental history      The 11,000ers of the Canadian Rockies Bill Corbett,2009-01-15 Winner of the Canadian Rockies Award at the 2005 Banff Mountain Book Festival this comprehensive climber s guide and history of the 54 11 000 foot peaks in the Canadian Rockies celebrates in words and images these breathtaking summits and the wilderness settings over which they tower This book uniquely captures and distills the lively and frequently forgotten accounts of the pioneering climbers and their various routes Each entry provides a vivid description of the peak an extensive history of the early ascents of it and a detailed description of moderate to intermediate routes including access and approach information Now extensively updated the text is liberally illustrated with route and climbing photos both contemporary and historical and includes detailed area maps      **Fuss That Never Ended** Deborah Gare,Geoffrey Bolton,Stuart Macintyre,Tom Stannage,2013-04-18 It is time to reassess the work of Geoffrey Blainey and consider his role in Australian history politics and public life Geoffrey Blainey has steered Australian history into the nation s conversation No one would dispute that he is

a courageous public intellectual a writer of rare grace and a master storyteller And he has indeed provoked a rare fuss both public and professional with some of his comments on Asian immigration and Aboriginal land rights Blainey has challenged the academic history profession not only with his ideas but also by his practice A brilliant student he looked set for Oxford but chose instead the austere west coast of Tasmania for his postgraduate research For the next decade he earned a living with his pen And instead of political history in the traditional academic mould he wrote corporate histories that dispensed with footnotes Always probing and speculative Blainey has dislodged many of the keystones in our understandings of Australia's past He was one of the first to write about the expansive social history of this land before 1788 he questioned whether Botany Bay was founded primarily as a convict colony he argued that the Eureka uprising had economic rather than political causes and he identified sport as a neglected key to the Australian character His controversial views earned such newspaper headlines as Brave Man Set Upon by Thugs for Telling Truth In The Fuss That Never Ended a lively and distinguished assembly of fellow historians of various ages interests and political stances take a fresh look at Blainey's remarkable and sometimes controversial career Giblin's Platoon William Coleman, Selwyn Cornish, Alf Hagger, 2006-04-01
