This book provides students with an understanding of the motives behind the Japanese attack on Pearl Harbor and the consequences of this action on Japan, on the United States, and on the outcome of World War II. This essential reference guide is devoted to one of the most important military events in American history: the Pearl Harbor attack of December 7, 1941, the day of infamy. Distinguished military historian Spencer C. Tucker is the editor of this thorough study of the Japanese attack that contains reference entries as well as primary documents and oral histories describing the circumstances that led up to the attack, the event itself, and its immediate aftermath and consequences, thereby providing readers with the necessary context to understand all aspects of the attack on Pearl Harbor. Readers will understand why Japanese leaders decided to go to war with the United States, what they expected to accomplish in attacking Pearl Harbor, why this key American base was not better defended, and what the aftereffects of the attack were for the outcome of the war. Biographies on major players in the crisis, such as Franklin Roosevelt, Chester Nimitz, Isoroku Yamamoto, and Hideki Tojo, will provide insight into the individuals who played key roles in the events before, during, and after December 7, 1941. **World War II in Literature for Youth** Patricia Hachten Wee, Robert James Wee, 2004. This comprehensive volume provides a wealth of information with annotated listings of more than 3,500 titles, a broad sampling of books on the war years 1939-1945. Includes both fiction and nonfiction works about all aspects of the war. Professional resources for educators aligned to the educational standards for social studies, technical references, periodicals, and electronic resources, a directory of WWII museums, memorials, and other institutions, and topics for exploration complement this excellent library and classroom resource. **American Propaganda from the Spanish-American War to Iraq** Steven R. Brydon, 2021-11-01. In this book, Steven R. Brydon analyzes American war propaganda spanning from the Spanish-American War through the wars in Afghanistan and Iraq. Brydon argues that many of these wars were fought based on false or misleading narratives, beginning with blaming Spain for the sinking of the Maine and continuing most recently with charges that Saddam Hussein had weapons of mass destruction and was involved in the terrorist attacks of September 11. Research has shown that well-told stories can affect the public's beliefs, attitudes, and actions, and Brydon has identified some of these recurring stories that have been told to support and sustain each war during this time period. Using Fisher's narrative paradigm, Brydon critically evaluates these war stories to determine if they possessed narrative coherence and fidelity that provided good reasons to go to war rather than simply the appearance of these qualities. The responsibility Brydon stresses is on the media and on academics to view future war narratives through a critical lens in order to best inform the American people. Scholars of media studies, history, military studies, American studies, and international relations will find this book particularly useful. **Best Little Stories from World War II** C.
