**Peasant Dreams and Market Politics** Jeffrey Burds, 2012-02-15 Examines how peasant migration the movement of males to cities for wage labor affected villages before the Bolshevik revolution New Russian sources are utilized **The Russian Peasantry 1600-1930** David Moon, 2014-07-16 This impressive work set to become the standard history on the subject offers a definitive survey of peasant society in Russia from the consolidation of serfdom and tsarist autocracy in the 17th century through to the destruction of the peasant's traditional world under Stalin Over three quarters of Russian society were peasants in these years and David Moon explores all aspects of their life xxx including the rural economy peasant households village communities xxx and their political role including protest against the landowning elites In the process he presents a fresh perspective on the history of Russia itself A big book in every way xxx and compellingly readable Russian Masculinities in History and Culture B. Clements, R. Friedman, D. Healey, 2001-12-18 From the romantic liaisons of Peter the Great to the birth of the Russian queen this collection of essays presents recent research from the new field of Russian masculinity studies Peasant patriarchs aristocratic dandies anxious young bureaucrats workers in search of father figures heroic warriors promiscuous bathhouse attendants and vodka soaked athletic stars populate this volume Its essays take as a starting point the notion that masculinity like femininity has a history *Crime, Cultural Conflict, and Justice in Rural Russia, 1856-1914* Stephen P. Frank, 2023-12-22 This book is the first to explore the largely unknown world of rural crime and justice in post emancipation Imperial Russia Drawing upon previously untapped provincial archives and a wealth of other neglected primary material Stephen P Frank offers a major reassessment of the interactions between peasantry and the state in the decades leading up to World War I Viewing crime and punishment as contested metaphors about social order his revisionist study documents the varied understandings of criminality and justice that underlay deep conflicts in Russian society and it contrasts official and elite representations of rural criminality and of peasants with the realities of everyday crime at the village level This book is the first to explore the largely unknown world of rural crime and justice in post emancipation Imperial Russia Drawing upon previously untapped provincial archives and a wealth of other neglected primary material Stephen P Frank offers a m For the Common Good and Their Own Well-being Alison Karen Smith, 2014 Every subject of the Russian Empire had an official legal place in society marked by his or her social estate or soslovie This book looks at the many ways that soslovie affected individual lives and traces its legislation and administration from the early eighteenth through to the early twentieth century **All Russia Is Burning!** Cathy A. Frierson, 2012-11-10 Rural fires were an even more persistent scourge than famine in late imperial Russia as Cathy Frierson shows in this first comprehensive study Destroying almost three billion rubles worth of property in European Russia between 1860 and 1904 accidental and arson fires acted as a brake on Russia's economic development while subjecting peasants to perennial shocks to their physical and emotional condition The fire question captured the attention of educated progressive Russians who came to

perceived it as a key obstacle to Russia's becoming a modern society in the European model. Using sources ranging from literary representations and newspaper articles to statistical tables and court records, Frierson demonstrates the many meanings fire held for both peasants and the educated elite. To peasants it was an essential source of light and warmth as well as a destructive force that regularly ignited their cramped villages of wooden thatch-roofed huts. Absent the rule of law, they often used arson to gain justice or revenge or to exert social control over those who would violate village norms. Frierson shows that the vast majority of arson cases in European Russia were not peasant against gentry acts of protest but peasant against peasant acts of self-help, law or plain spite. Both the state and individual progressives set out to resolve the fire question and to educate, cajole or coerce the peasantry into the modern world. Fire insurance, building codes, scientific village layouts and volunteer firefighting brigades reduced the average number of buildings consumed in each blaze, but none of these measures succeeded in curbing the number of fires each year. More than anything else, this history of fire and arson in rural European Russia is a history of their cultural meanings in the late imperial campaign for modernity. Frierson shows the special associations of women with fire in rural life and in elite understanding of fire in the Russian countryside. Her study of the fire question demonstrates both peasant agency in fighting fire and educated Russians hardening conviction that peasants stood in the way of Russia's advent into the company of prosperous, rational, civilized nations.

**Marriage, Household and Home in Modern Russia** Barbara Alpern Engel, 2021-08-12. Barbara Alpern Engel's *Marriage, Household and Home in Modern Russia* is the first book to explore the intricacies of domestic life in Russia across the modern period. Surveying the period from 1700 right up to the present day, the book explores the marital and domestic arrangements of Russians at multiple levels of society and the impact of broader historical developments, including war and revolution, upon them. It also traces the evolution of marriage, household and home as institutions over three centuries, whilst also highlighting the inter-relationship between public policy and private life in what is a wholly original historical assessment of domesticity in modern Russia. In the process, the author expertly synthesizes the key works, arguments and discussions in the field, mapping out the historiographical landscape of this compelling aspect of Russian social history. *Marriage, Household and Home in Modern Russia* is crucial reading for any student or scholar of modern Russian history.

**Melancholy Order** Adam M. McKeown, 2008. As Adam M. McKeown demonstrates, the push for increased border control and identity documentation is the continuation of more than 150 years of globalization. Modern passports and national borders are not only inseparable from the rise of global mobility; they are also tied to the emergence

of individuals and nations as the primary sites of global power and identity McKeown's history links the practices of border control to attempts to control Asian migration around the Pacific in the 1880s New policies to control mobility had to be justified in the context of contemporary liberal ideas of freedom and mobility generating such principles as the belief that migration control is a sovereign right of receiving nations and that it should occur at a country's borders McKeown shows how the enforcement of these border controls required migrants to be extracted from social networks of identity and reconstructed as isolated individuals within centralized filing systems Methods originally created to exclude Asians from full participation in the family of civilized nations are now the norm between all nations and have helped to institutionalize global cultural and economic divisions such as East West and First and Third World designations The Cambridge History of Russia: Volume 3, The Twentieth Century Maureen Perrie, Ronald Grigor Suny, 2006-11-02 A major history of twentieth century Russia by leading scholars in the field **Russian Provincial Society** Juri Plusnin, 2022-06-21 This book presents a unique analysis of modern Russian provincial society Based on detailed empirical evidence it develops a theoretical model of Russian provincial society in the late 20th century and the early 21st century The book explains how under the conditions of catastrophic changes Russian provincial societies have undergone a structural transformation It further sheds light on the transformation of the economic behavior of the population and households with regard to economic practices crafts and revived archaic forms of labor behavior Summarizing the extensive empirical evidence the book puts forward the concept of complementarity of two social structures at the local level a ground soft communal structure and a tightening with an iron hoop estate state structure Next it discusses the stability and resistance of the local social structure to external political disturbances Based on the presented analysis the book introduces several independent criteria on the basis of which it establishes the typology of all empirically observed forms of societies Subsequently the book identifies six main types of Russian provincial societies It explains how depending on the type the different societies either adapt to political and economic changes in different ways stay unchanged or transform their structure The book will appeal to students scholars and researchers of economics political science sociology and anthropology interested in a better understanding of transformation studies population and household economics provincial societies as well as Russian societal structures
