## **Peasant Labour And Colonial Capital:**

*Peasant Labour and Colonial Capital* Sugata Bose, 2008 A critical work of synthesis and interpretation of agrarian change in India over the long term      *Peasant Labour and Colonial Capital* Sugata Bose, 2007-02-01 This book is a critical work of synthesis and interpretation on one of the central themes in modern Indian history agrarian change under British colonial rule Sugata Bose analyses the relationships between demography commercialization class structure and peasant resistance unfolding over the long term between 1770 and more recent times By integrating the histories of land and capital he examines the relationship between capitalist development of the wider economy under colonial rule and agrarian continuity and change Drawing most of his empirical evidence from rural Bengal the author makes comparisons with regional agrarian histories of other parts of South Asia Thus this study stands on its own in the field of modern Indian social and economic history in its chronological sweep and comparative context and makes the complex subject of India s peasantry accessible to students and the interested non specialist      **Jute and empire** Gordon T Stewart, 2017-03-01 Dundee had an interesting

role to play in the jute trade but the main player in the story of jute was Calcutta This book follows the relationship of jute to empire and discusses the rivalry between the Scottish and Indian cities from the 1840s to the 1950s and reveals the architecture of jute s place in the British Empire The book adopts significant fresh approaches to imperial history and explores the economic and cultural landscapes of the British Empire Jute had been grown spun and woven in Bengal for centuries before it made its appearance as a factory manufactured product in world markets in the late 1830s The book discusses the profits made in Calcutta during the rise of jute between the 1880s and 1920s the profits reached extraordinary levels during and after World War I The Calcutta jute industry entered a crisis period even before it was pummeled by the depression of the 1930s The looming crisis stemmed from the potential of the Calcutta mills to outproduce world demand many times over The St Andrew s Day rituals in Calcutta begun three years before the founding of the Indian Jute Mills Association The ceremonial occasion helps the reader to understand what the jute wallahs meant when they said they were in Calcutta for the greater glory of Scotland The book sheds some light on the contentious issues surrounding the problematic if ever intriguing phenomenon of British Empire The jute wallahs were inextricably bound up in the cultural self images generated by British imperial ideology      *The Political Economy of Indigo in India, 1580-1930* Ghulam A. Nadri, 2016-07-11

In *The Political Economy of Indigo in India 1580 1930 A Global Perspective* Ghulam A Nadri explores the dynamics of the indigo industry and trade from a long term perspective and examines the local and global forces that affected the potentialities of production in India and elsewhere and caused periods of boom and slump in the industry Using the commodity chains conceptual framework he examines the stages in the trajectory of indigo from production to consumption Nadri shows convincingly that the growth or decline in indigo production and trade in India was a part of the global processes of production trade and consumption and that indigo as a global commodity was embedded in the politics of

empire and colonial expansion      **The Oxford Handbook of Commodity History** Jonathan Curry-Machado, Jean Stubbs, William Gervase Clarence-Smith, Jelmer Vos, 2024 The Oxford Handbook of Commodity History features contributions from scholars involved in the field's development across a range of countries and linguistic regions Each of the handbook's thirty one chapters focuses on an important theme within commodity history essential approaches global histories modes of production people and land environmental impact consumption and new methodologies      *Indian and Chinese Immigrant Communities* Jayati Bhattacharya, Coonoor Kripalani, 2015-03 This interdisciplinary collection of essays offers a window onto the overseas Indian and Chinese communities in Asia Contributors discuss the interactive role of the cultural and religious other the diasporic absorption of local beliefs and customs and the practical business networks and operational mechanisms unique to these communities Growing out of an international workshop organized by the Institute of Southeast Asian Studies in Singapore and the Centre of Asian Studies at the University of Hong Kong this volume explores material cultural and imaginative features of the immigrant communities and brings together these two important communities within a comparative framework      *Colonial Modernities* Peter Scriver, Vikramaditya Prakash, 2007-03-12 International experts present an illustrated collection of essays exploring the societal impact of colonial architecture and engineering on the colonized and the colonizers      **The Peasant Production of Opium in Nineteenth-Century India** Rolf Bauer, 2019-04-09 Winner of the 2019 Michael Mitterauer Prize for best monograph The Peasant Production of Opium in Nineteenth Century India is a pioneering work about the more than one million peasants who produced opium for the colonial state in nineteenth century India Based on a profound empirical analysis Rolf Bauer not only shows that the peasants cultivated poppy against a substantial loss but he also reveals how they were coerced into the production of this drug By dissecting the economic and social power relations on a local level this study explains how a triangle of debt the colonial state's power and social dependencies in the village formed the coercive mechanisms that transformed the peasants into opium producers The result is a book that adds to our understanding of peasant economies in a colonial context      British Imperialism Rob Johnson, 2017-03-14 What was British imperialism and was it an important element of modern globalization Were economic political or military factors paramount in imperial expansion Do post colonial theories assist or mislead historians How have histories of imperialism changed and are current analyses satisfactory Robert Johnson's invaluable guide offers a succinct easy to follow introduction to the key issues and historiography of British imperialism from its origins to the conversion to the Commonwealth British Imperialism Provides concise introductions to key questions and debates Takes a question based approach to analysis of the material Offers an assessment of the significance of economic military and political factors in imperial expansion and decolonization Presents critical appraisals of the most recent controversies including neo colonialism cultural imperialism post colonial theory and gender and imperialism Includes a useful guide to further reading Using vivid examples Johnson clearly explains the nature of British imperialism and enables the reader to understand the causes course

and immediate consequences of the British colonial encounter on a world wide scale His book is an essential starting point for all those new to the subject and a helpful introduction to more recent debates      Tensions of Social History Alessandro Stanziani,2022-12-15 This book seeks to overcome the tension between western and non western categories and tools in the study of global history showing how most western approaches to the social sciences and history have developed through transnational and colonial interactions Offering a transnational and global history of the main tools we have to understand the word and its transformations over the last three centuries Tensions of Social History explores the construction of archives and historical memory the making of statistics and their use in politics the identification of social actors and the emergence of key social theories Providing key insights into how to write history and develop social sciences in the global era while avoiding eurocentrism and cultural exceptionalism this ambitious book shows how global history is made of encounters rather than confrontations between civilizations      *History of Indian Economy* Mr. Rohit Manglik,2023-11-23 In this book we will study about the evolution of the Indian economy from ancient trade systems through colonial exploitation to post independence planning and liberalization      Liberalism in Empire Andrew Stephen Sartori,2014-07-03 While the need for a history of liberalism that goes beyond its conventional European limits is well recognized the agrarian backwaters of the British Empire might seem an unlikely place to start Yet specifically liberal preoccupations with property and freedom evolved as central to agrarian policy and politics in colonial Bengal Liberalism in Empire explores the generative crisis in understanding property s role in the constitution of a liberal polity which intersected in Bengal with a new politics of peasant independence based on practices of commodity exchange Thus the conditions for a new kind of vernacular liberalism were created Andrew Sartori s examination shows the workings of a section of liberal policy makers and agrarian leaders who insisted that norms governing agrarian social relations be premised on the property constituting powers of labor which opened a new conceptual space for appeals to both political economy and the normative significance of property It is conventional to see liberalism as traveling through the space of empire with the extension of colonial institutions and intellectual networks Sartori s focus on the Lockeanism of agrarian discourses of property however allows readers to grasp how liberalism could serve as a normative framework for both a triumphant colonial capitalism and a critique of capitalism from the standpoint of peasant property      Hindu Wife, Hindu Nation Tanika Sarkar,2001 What are the major Hindu ideas and traditions of India that have shaped dominant conceptions of womanhood domesticity wifeliness and mothering and of India as a Hindu nation Tanika Sarkar analyzes literary and social traditions the elite voices and popular culture that helped create the lived reality of north India today She explores the proto nationalist novels of Bankimchandra Chattopadhyaya as well as scandal literature rumors women s memoirs and the popular press of colonial times for the subaltern ideas that have shaped contemporary India Sarkar also examines the way earlier Indian religious traditions of saintliness sacrifice heroism and warfare are being subverted or transformed by militant and fundamentalist forms of Hinduism      *Transformations on*

*the Bengal Frontier* Subhajyoti Ray, 2013-12-16 An analysis of the socio economic changes brought about by colonial rule in a frontier area of Bengal Jalpaiguri Challenging long established debates focused around the powers of dominant groups over a settled peasantry this book broadens our perspective on the 18th century promoting a deeper understanding of the change over from the pre colonial to the colonial era      **Pieces of Earth** Peer Ghulam Nabi Suhail, 2018-02-16 Resource

exploitation in the form of land grabbing has become a major debate worldwide Based on extensive field research conducted at the India Pakistan border using Kishanganga Hydroelectric Project as a case study this book on corporate land grabbing in Kashmir explains how capital is at play in a conflict zone The author explains how different actors village elites government officers politicians civil society coalitions peasants and the states of India and Pakistan mobilize support to legitimize their respective claims It captures how the tensions between developmentalism environmentalism and national interest on one hand and universal rights national sovereignty subnational identity and resistance on the other facilitate and challenge these corporate resource grabs simultaneously The author argues that the patterns and scale of land and resource grabbing has led to depeasantization dispossession displacement loss of livelihoods forced commoditization of the local peasantry and damages to the local ecology at large The book thus combines the literature in violence and development and dispossession studies by addressing the socio political conflict in land and resource grabbing in conflict zones      Legalizing the Revolution

Sandipto Dasgupta, 2024-10-24 Theorizes the project of instituting a postcolonial order following decolonization through an account of the Indian constitution      **Caste and Equality in India** Akio Tanabe, 2021-07-29 This book presents an alternative view of caste in Indian society by analysing caste structure and change in local communities in Orissa from historical and anthropological perspectives Focusing on the agricultural society in the Khurda district of Orissa between the eighteenth century and 2019 the book links discussions on the current transformation of society and politics in India with analyses of long term historical transformations The author suggests that beyond status and power there is another value which is important in Indian society namely ontological equality which functions as the politico ethical ground for asserting respect and concern for the life of others The book argues that the value of ontological equality has played an important role in creating and affirming the diverse society which characterises India It further contends that the movement towards vernacular democracy which has become conspicuous since the second half of the 1990s is a historically groundbreaking event which opens a path beyond the postcolonial predicament supported by the affirmation of diversity by subalterns based on the value of ontological equality This important contribution to the study of Indian society will be of interest to academics working on the social political and economic history sociology anthropology and political science of South Asia as well as to those interested in social and political theory      Approaches to History Sabyasachi Bhattacharya, 2011 History as a social science is arguably more self reflective than associated disciplines in that family Other social scientists seem to see little reason to look beyond the paradigm they are developing in the present times Historians on the other hand tend to depend on

the cumulative process of the development of their craft and the fund of accumulated knowledge Yet while this is acknowledged in the practice of research Historiography in itself as a subject of study has rarely found its place in the syllabi of Indian universities Knowledge of Historiography is taken for granted when a scholar plunges into research In an attempt to address this lacuna the Indian Council of Historical Research ICHR has planned a series of volumes on Historiography comprising articles by subject specialists commissioned by the ICHR The first volume in the series Approaches to History Essays in Indian Historiography brings to the readers the first fruits of that endeavour While the essays encompass areas of research presently at the frontiers of new research scholars will also find the bibliographies accompanying the essays of significant appeal

*F.D. Ascoli: A Revenue History of the Sundarbans* Ananda Bhattacharya, 2019-12-09 Frank David Ascoli's Revenue History of Sundarbans during the Period 1870 1920 looks at the area bounded on the north by the limits of Permanent Settlement in 24 Parganas Khulna and Bakarganj districts and on the south by the sea face stretching from the Hughli estuary to the mouth of the Meghna River A quarter of this large area consisted of water out of 19 501 sq km For administrative purposes the Division was grouped in three circles known as the Bagerhat Khulna and Satkhira Revenue stations were established at all the principal points of egress from the Sundarbans and purchasers proceed to the forests and take their requirements from any locality they choose The process of land formation appears to have been followed by the growth of different vegetation and plants which turned into forest it left uncleared The entire Sundarban tract is managed by the Forest Department which has operated a yearly auction for cutting rights for many decades In this way the Sundarbans emerged between the Bay of Bengal and the fringes of the Bengal delta The revenue history of the Sundarbans is distinct from that of the rest of the district that presents several peculiar features so that a separate account of it is necessary It is apparent that some of the most forbidding remnants of Sundarbans jungle were transformed into fertile rice fields schools dispensaries post offices markets and cooperative societies Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh and Sri Lanka
