This collection of new essays examines the long standing question of apocalyptic expectations around the turn of the first millennium Including works by scholars of medieval history literature and religion this book argues that apocalyptic expectations did exist around the year 1000 It provides a more balanced and nuanced approach to the issue than the traditional views that either identify a time of fear the terrors of the year 1000 or deny that awareness of the millennium existed This book instead recognizes that there were a variety of responses to the eschatological years 1000 and 1033 and that these responses contributed to the broader social and religious developments associated with the birth of European civilization      **"The" Academy** ,1888      History of the Christian Church Wilhelm Ernst Möller,1900      History of the Christian Church: A.D. 1517-1648, Reformation and Counter-reformation; edited by Dr. G. Swope, 2014-01-23 This book examines the military collapse of China's Ming Dynasty to a combination of foreign and domestic foes The Ming's defeat was a highly surprising development not least because as recently as in the 1590s the Ming had managed to defeat a Japanese force considered to be perhaps the most formidable of its day when the latter attempted to subjugate Korea en route to a planned invasion of China In contrast to conventional explanations for the Ming's collapse which focus upon political and socio economic factors this book shows how the military collapse of the Ming state was intimately connected to the deterioration of the personal

relationship between the Ming throne and the military establishment that had served as the cornerstone of the Ming military renaissance of the previous decades Moreover it examines the broader process of the militarization of late Ming society as a whole to arrive at an understanding of how a state with such tremendous military resources and potential could be defeated by numerically and technologically inferior foes It concludes with a consideration of the fall of the Ming in light of contemporary conflicts and regime changes around the globe drawing attention to climatological factors and developments outside state control Utilizing recently released archival materials this book adds a much needed piece to the puzzle of the collapse of the Ming Dynasty in China
