Peer Tutoring Sinclair Goodlad, Beverley Hirst, 1989 *Peer Tutoring* Edward E. Gordon, 2005 In this era of high stakes testing teachers across America are struggling with the demands of raising student achievement Tutoring programs can become important learning strategies that will assist students in learning to solve problems collaborate with others and think creatively All these are part of the creative thinking process important for students to master since a greater percentage of high school graduates enroll in some form of post secondary education This guide gives teachers specific instructional methods to help students raise their skills and critical thinking abilities It provides step by step guidance on Designing a tutoring program Training tutors Conducting meaningful assessment and evaluation Peer Tutoring offers a wide variety of success stories drawn from published research that describes how ordinary teachers have successfully used peer and cross age tutoring in a wide variety of elementary high school and college applications Sample forms are also included that teachers can adapt for their needs The Internet opens a whole new world of information ideas and experiences to students What most teachers lack are successful ways of framing the art of teaching to take advantage of this new resource rich environment This book will help teachers co construct knowledge with students to help classroom learning become more student centered

Peer-assisted Learning Keith Topping, Stewart Ehly, 1998-07-01 Peer Assisted Learning PAL involves children in school consciously assisting others to learn and in so doing learning more effectively themselves It encompasses peer tutoring peer modeling peer education peer counseling peer monitoring and peer assessment which are differentiated from other more general cooperative learning methods PAL is not diluted or surrogate teaching it complements and supplements but never replaces professional teaching capitalizing on the unique qualities and richness of peer interaction and helping students become empowered democratically to take more responsibility for their own learning In this book PAL is presented as a set of dynamic robust effective and flexible approaches to teaching and learning which can be used in a range of different settings The chapters provide descriptions of good practice blended with research findings on effectiveness They describe procedures that can be applied to all areas of the school curriculum and can be used with learners of all levels of ability including gifted students students with disabilities and second language learners Among the distinguished contributors many are from North America while others are from Europe and Australia The applicability of the methods they present is worldwide Peer Assisted Learning is designed to be accessible and useful to teachers and to those who employ train support consult with and evaluate them Many chapters will be helpful to teachers aiming to replicate in their own school environments the cost effective procedures described A practical resources guide is included This volume will also be of interest to faculty and researchers in the fields of education and psychology to community educators who want to learn about the implications of Peer Assisted Learning beyond school contexts and to employers and others involved in post school training

Teacher's Guide to Peer Tutoring Candice Styer Ph D, Suzanne Fitzgerald M Ed, 2016-01-10 A successful peer

tutoring program in special education classrooms depends on teachers recruiting dedicated and dependable students who have positive attitudes and the desire to help others. Once peer tutors are selected, teachers must then provide training, monitor progress, manage schedules, address challenges, and evaluate the peer tutors' efforts. This guide, together with the Peer Tutor Student Handbook, purchased separately, are designed to help teachers develop and maintain a successful and mutually rewarding peer tutor program. I had the pleasure of observing the Peer Tutoring program developed by Dr. Styer and Suzanne Fitzgerald. This is an amazing program that promotes awareness of individuals with disabilities as well as provides peers the skills needed to support and develop friendships. The way this program is structured allows for these skills to generalize across the school environment and models friendships and the acceptance of others. Dr. Nicole Bain, Psychologist and Autism Expert, Together, Candice and Suzanne have over 40 years of teaching experience in special education and have developed peer tutor programs in every classroom they've worked in. Their peer tutoring model of reverse inclusion maximizes peer interaction in natural and appropriate ways. They were inspired to share their experiences recruiting and training peer tutors, knowing the positive effects that these programs have on both special education students and the general education students who work as peer tutors. I became a peer tutor because I want to be a special education teacher when I grow up. My favorite part of the job was getting to know the kids. Having this experience made me grow as a person.
