Managing Conflict with Peers Talula Cartwright, 2003-09-01 A great many peer conflicts arise from incompatible goals or from different views on how a task should be accomplished. With honest dialogue these kinds of conflicts can usually be resolved. But other peer conflicts are more troublesome because they involve personal values, office politics and power and emotional reactions. To resolve these more difficult peer conflicts, managers should examine three key issues that can cause such clashes and also influence their outcome. One, they should assess their emotional hot buttons that trigger ineffective behaviors and make conflict difficult to manage. Two, they should examine their personal values and how those might conflict with what their peers find important. Finally, they should assess their power in the organization which can be related to position, influence, expertise or some other factor and learn how to use it to manage conflicts. Navigating these issues won't rid an organization of conflict among peers. But by paying attention to them, managers can build effective relationships that will survive these inevitable conflicts and bolster their ability to achieve organizational goals.

Political Governance and the African Peer Review Mechanism Omololu Fagbadebo, Isioma U. Ile, 2025-04-15 This book presents a comparative analysis of political governance and includes case studies from various African countries. It further sheds light on the paradox of poverty despite Africa's plentiful resources and traces its roots in historical legacies of colonialism and leadership failures. The book examines the African Peer Review Mechanism (APRM) initiated by the African Union (AU) in 2003 and explores the APRM's role in promoting sustainable development, political stability and integration. Against this background, the book dissects the four thematic areas of the APRM with a focal point on democratic and political governance, illuminating challenges and proposing solutions. In case studies on selected African countries, contributors present governance structures highlighting the struggle for accountability, representation and public participation. The book highlights alarming indicators of weak governance, including corruption and declining public engagement, and reflects Africa's journey toward effective governance. By doing so, the book scrutinizes African governing systems' responses to crises and offers valuable insights into the continent's quest for progress and transformation.

Political Dictionary, 1846 **Hansard's Parliamentary Debates** Great Britain. Parliament, 1876 From African Peer Review Mechanisms to African Queer Review Mechanisms? Nhemachena, Artwell, Warikandwa, Tapiwa Victor, 2019-04-22 Tracing recent bouts of globalised Mugabephobia to Robert Mugabe s refusal to be neoimperialy penetrated this book juxtaposes economic liberalisation with the mounting liberalisation of African orifices Reading land repossession and economic structural adjustment programmes together with what they call neoimperial structural adjustment of African orifices the authors argue that there has been liberalisation of African orifices in a context where Africans are ironically prevented from repossessing their material resources Juxtaposing recent bouts of Mugabephobia with discourses on homophobia the book asks why empire prefers liberalising African orifices rather than attending to African demands for restitution restoration and reparations Noting that empire opposes African sovereignty autonomy and centralisation of power while paradoxically promoting transnational corporations centralisation of power over African economies the book challenges contemporary discourses about shared sovereignty distributed governance heterarchy heteronomy and onticology Arguing that colonialists similarly denied Africans of their human essence the tome problematises queer sexualities homosexuality ecosexuality cybersexuality and humanoid robotic sexuality all of which complicate

supposedly fundamental distinctions between human beings and animals and machines Provocatively questioning queer sexuality and liberalised orifices that serve to divert African attention from the more serious unfinished business of repossessing material resources the book insightfully compares Robert Gabriel Mugabe Thomas Sankara and Julius Kambarage Nyerere who emphasised the imperatives of African autonomy ownership control and sovereignty over natural resources Observing Africans interest in repossessing ownership and control over their resources the book wonders why so much queer international attention is focused on foisting queer sexuality while downplaying more burning issues of resource repossession human dignity equality and equity craved by Africans for whom life is not confined to sexuality With insights for scholars in sociology development studies law politics African studies anthropology transformation decolonisation and decoloniality the book argues that liberal democracy is a fa ade in a world that is actually ruled through criminocracy
