Entangled Lives Marla R Miller examines the lives of Anglo African and Native American women in one rural New England community Hadley Massachusetts during the town s slow transformation following the Revolutionary War Peering into the homes taverns and farmyards of Hadley Miller offers readers an intimate history of the working lives of these women and their vital role in the local economy Miller a longtime resident of Hadley follows a handful of eighteenth century women working in a variety of occupations domestic service cloth making health and healing and hospitality She asks about the social openings and opportunities this work created and the limitations it placed on ordinary lives Her compelling stories about women s everyday work grounded in the material culture built environment and landscapes of rural western Massachusetts reveal the larger economic networks in which Hadley operated and the subtle shifts that accompanied the emergence of the middle class in that rural community Ultimately this book shows how work differentiated not only men and woman but also race and class as Miller follows young mostly white women working in domestic service African American women negotiating labor in enslavement and freedom and women of the rural gentry acting as both producers and employers Engagingly written and featuring fascinating characters the book deftly takes us inside a society and shows us how it functions Offering an intervention into larger conversations about local history microhistory and historical scholarship Entangled Lives is a revealing journey through early America      **The Publications of the Harleian Society** ,1917

ADHD The study investigates the extent to which individuals with undiagnosed ADHD in childhood fare differently compared to otherwise similar individuals without ADHD A long list of important parameters in an individual s life e g educational attainment occupational status income family situation criminal record health is examined The results of the study provide not just cost estimates of ADHD per se but also create a point of reference which will be highly relevant for the evaluation of any future treatment for ADHD The clear picture emerging from this study is that ADHD is associated with considerable private and social costs reflecting that Adults with ADHD exhibit weak performance across all applied measures These findings remain even when adults with ADHD are compared to a control group of their own siblings Even though the study is performed for Denmark it is argued that generalizability of the established results beyond Denmark is valid     *An Alphabetical Catalogue of the Subscription Library, York, Instituted 1794* York Subscription Library,1842     *Dictionary of American Biography* ,1996     **Provincial and State Papers** New Hampshire,1896     *Catalogue of the Library of the Young Men's Christian Association of Louisville, Kentucky ...* Young Men's Christian Associations.
