the Radical Eccentrics gives name and shape to a neglected movement within interwar and wartime English writing. It focuses on the lives and texts of Smith, Anand, and Holden in order to argue that these three writers throw into question limiting assumptions about art and politics about standard relations between literary form and sex, gender, race, class, and empire in ways that their group's most influential radical, Orwell, cannot. Embarking upon a kind of biographical, political, cultural, literary criticism, this book brings the radical eccentrics' vital, potentially transformative conversation to the attention of scholars of English literature for the first time, suggesting fascinating new approaches to the study of literary London during the thirties and forties.

Art in California (World of Art) Jenni Sorkin, 2021-10-05 A fully illustrated history of modern and contemporary art in California from the early twentieth century to the present day. This introduction to the art of California focuses on the distinctive role the state played in the history of American art from early twentieth century photography and Chicano mural painting to the fiber art movement and beyond. Shaped by a compelling network of geopolitical influences including waves of migration and exchange from the Pacific Rim and Mexico, the influx of African Americans immediately after World War II and global immigration after quotas were lifted in the 1960s, California is a center of artistic activity whose influence extends far beyond its physical boundaries. Including work by artists Yun Gee, Helen Lundberg, Henry Taylor, Richard Diebenkorn, Albert Bierstadt, Chiura Obata, and Judith Baca among many others, art historian Jenni Sorkin tells California's story as a place at the forefront of radical developments in artistic culture. Organized chronologically and thematically with full color illustrations throughout, this attractive study stands as an important chronicle of California's contribution to modern and contemporary art in the United States and globally. In one stunning volume, **Art in California** addresses the vast appetite for knowledge on contemporary art in California.

These Vivid American Documents Joseph R. Millichap, 2024-10-18 The story behind the most iconic American photobooks of the twentieth century. In the late 1930s and early 1940s, the Farm Security Administration (FSA) funded a now famous photography project to document and highlight American rural life and its economic challenges. In time, the project launched a genre of works that incorporated photographic evidence and artistic documentation of rural poverty, highlighting the struggles and resilience of the American people during this period. Nearly a century later, these photographs have become largely synonymous with the Great Depression. In **These Vivid American Documents**, Joseph R. Millichap presents an illuminating examination of four photobooks born of this FSA project: Archibald MacLeish and Dorothea Lange's *Land of the Free*, Walker Evans and Lincoln Kirstein's *American Photographs*, Dorothea Lange and Paul Taylor's *An American Exodus*, and James Agee and Walker Evans's *Let Us Now Praise Famous Men*. Millichap includes in his analysis a curated selection of thirty-two photographs from these four photobooks, showcasing the realities of the social, individual, political, artistic, and economic aspects of that time. Through Millichap's thorough and insightful study, readers will gain a deeper understanding of the significant cultural and historical impact of this photographic project. Examining what are now historical American icons like Walker Evans's portrait of Allie

Mae Burroughs and Dorothea Lange's *Migrant Mother* Millichap leans into the intersections tensions and meanings that this particular era and medium encapsulate His close comparison of the documentary and artistic purposes of the photobooks both analyzes how they balance text and imagery and offers a thoughtful study of the photographers and writers who produced them These Vivid American Documents is an illuminating volume for scholars and general readers alike
