Portraits From Memory Other:

Portraits from Memory Bertrand Russell, 2020-11-29 I have come to think that one of the main causes of trouble in the world is dogmatic and fanatical belief in some doctrine for which there is no adequate evidence Bertrand Russell Portraits from Memory Portraits from Memory is one of Bertrand Russell's most self-reflective and engaging books Whilst not intended as an autobiography it is a vivid recollection of some of his celebrated contemporaries such as George Bernard Shaw Sidney and Beatrice Webb and D H Lawrence Russell provides some arresting and sometimes amusing insights into writers with whom he corresponded He was fascinated by Joseph Conrad with whom he formed a strong emotional bond writing that his Heart of Darkness was not just a story but an expression of Conrad's philosophy of life There are also some typically pithy Russellian observations H G Wells derived his importance from quantity rather than quality whilst after a brief and fraught friendship Russell thought D H Lawrence had no real wish to make the world better but only to indulge in eloquent soliloquy about how bad it was This engaging book also includes some of Russell's customary razor sharp essays on a rich array of subjects from his ardent pacifism liberal politics and morality to the ethics of education the skills of good writing and how he came to philosophy as a young man These include A Plea for Clear Thinking A Philosophy for Our Time and How I Write Portraits from Memory is Russell at his best and will enthrall those new to Russell as well as those already well acquainted with his work This Routledge Classics edition includes a new foreword by the Russell scholar Nicholas Griffin editor of The Selected Letters of Bertrand Russell

Portraits from Life Jerome Boyd Maunsell, 2018-01-05 What happens when novelists write about their own lives directly in memoirs and autobiographies rather than in novels How do they present themselves and what do their self-portraits reveal In a series of biographical case studies Portraits from Life examines how seven canonical Modernist writers Joseph Conrad Ford Madox Ford Henry James Wyndham Lewis Gertrude Stein H G Wells and Edith Wharton depicted themselves in their memoirs and autobiographies during the first half of the twentieth century Drawing on a range of life writing sources in this innovative group portrait Jerome Boyd Maunsell reconstructs the periods during which these authors worked on their

memoirs often towards the end of their lives and shows how memoirs and autobiographies are just as artful as novels The seven portraits in the book also create a rich network of encounters as many of these writers knew each other and wrote about each other in their reminiscences Portraits from Life investigates the difficulties and possibilities of autobiography the relation of fact and fiction biography and autobiography the ethical issues of dealing with real people the thin generic lines between novels and autobiographies and the deceptive workings of memory and how all these writers dealt with these concerns as they looked back on their lives An act of portraiture and biography as well as an act of criticism moving from London to Paris and through two world wars it also pieces together a fresh and constantly inter connecting narrative of the Modernist era in England and France

The Gallery of Memory Lina Bolzoni, 2001-01-01 This book takes as its starting point a striking paradox that the antique tradition of the art of memory created by an oral culture reached its moment of greatest diffusion during an age that saw the birth of the printed book

A Bibliography of Bertrand Russell Kenneth Blackwell, Harry Ruja, Sheila Turcon, 2003-09-02 From 1895 the year he published his first signed article to four days before his death in 1970 when he wrote his last Bertrand Russell was a powerful force in the world of mathematics philosophy human rights and the struggle for peace During those years he published 70 books almost as many pamphlets and over 2 000 articles he also contributed pieces to some 200 books The availability of the Bertrand Russell Archives at McMaster University since 1968 has made it possible for the first time to compile a full descriptive bibliography of his writings The Collected Papers are based on it Fully annotated the Bibliography is textually oriented and will guide the scholar collector and general reader to the authoritative editions of Russell s works It includes references to the locations of all known speeches and interviews and reproductions of the dust jackets of Russell s books Blackwell Ruja and Turcon have cooperated for nearly 20 years on the new Bibliography Lord Russell saw the extensive additions for it near the end of his life and declared I am impressed

Women and Portraits in Early Modern Europe Andrea Pearson, 2016-12-05 As one of the first books to treat portraits of early modern women as a discrete subject this volume considers the possibilities and limits of agency and identity for women in history and with particular attention to gender as categories of analysis for women s images Its nine original essays on Italy the Low Countries Germany France and England deepen the usefulness of these analytical tools for portraiture Among the book s broad contributions it dispels false assumptions about agency s possibilities and limits showing how agency can be located outside of conventional understanding and conversely how it can be stretched too far It demonstrates that agency is compatible with relational gender analysis especially when alternative agencies such as spectatorship are taken into account It also makes evident the importance of aesthetics for the study of identity and agency The individual essays reveal among other things how portraits

broadened the traditional parameters of portraiture explored transvestism and same sex eroticism appropriated aspects of male portraiture to claim those values for their sitters and as sites for gender negotiation resistance and debate invoked considerable relational anxiety Richly layered in method the book offers an array of provocative insights into its subject

international scholars on the interlocking themes of attitudes and discourses on death commemorative practices and inheritance testamentary strategies in the Balkans and East Central Europe These and other related themes are addressed comparatively and cover areas including Albania Bulgaria Romania Greece and areas of the former Yugoslavia Hungary and Austria from the perspective of imperial Ottoman and Habsburg legacies *Pro refrigerio animae* Death and Memory in East Central Europe contributes to this subject by linking anthropological religious cultural approaches to death to the legal economic aspects of inheritance commemoration adding a still absent East Central European and Habsburg Balkan and Ottoman dimension to the study of death memorialization and testaments and presenting an abundant primary and secondary material in English translation and thus placing research on death and testaments by East Central and Greek scholars within the international scholarly circuit
