God in His Own Image Syd Brestel,2019-05-07 Someone once noted that God made us in His image and ever since we have tried to do God a favor by making Him in our image It s easy to speak to others about the Jesus who cared for the poor healed the sick and preached love and justice for the least of these But what about the God who tells the Israelites to wage war and kill entire people groups Or threatens exile and then delivers Or sends people to hell Can these really be the same God The simple answer is yes God in His Own Image takes you on a journey through the Bible exploring God s true nature You ll study instances of great mercy and great severity and by the end you ll begin to see why both God s compassion and his wrath are necessary important and even beautiful Get to know the God who is both Lion and Lamb both Judge and Father both kind and severe and perfect in every way **The Regional Travel Guide for Central Anatolia (Ankara,**

KOHL,2025 **THE BASIS OF DIVINE CREATION: RECONCILING SCIENCE WITH SCRIPTURE** Ismail,2025-09-02 This book sets out to explore a profound and timely connection between intelligent design and Quranic creationism In recent years scientific discoveries in fields like cosmology biology and information theory have increasingly challenged the materialistic view that life and the universe arose by blind chance and undirected processes Instead these discoveries point toward order purpose and design features that suggest the involvement of a higher intelligence At the same time the Quran offers a view of creation that is purposeful structured and deeply compatible with the core ideas behind intelligent design This book does not aim to promote religion through faith alone nor does it abandon science for scripture Rather it builds a thoughtful and reasoned bridge between what modern science is uncovering and what the Quran has long proclaimed that life and the universe are the result of deliberate creation Through this exploration we invite both believers and skeptics to

reconsider the assumptions of materialism and to see how intelligence purpose and design provide a richer and more coherent explanation of reality
