## **Revolutions 1789 1917:**

**Revolutions 1789-1917** Allan Todd, 1998-03-19 Allan Todd provides a lucid exploration of the main features of revolutions the economic social political and ideological developments prior to the revolution and the roles and actions of crowds parties women and counter revolutionaries Particular attention is paid to the French Revolution of 1789 and the 1848 Revolutions the 1871 Paris Commune and the Russian Revolution of 1917 Revolutions, 1789 - 1917 Allan Todd, 1998

**Echoes of the Marseillaise** Eric Hobsbawm, 2018-11-12 What was the French Revolution Was it the triumph of Enlightenment humanist principles or a violent reign of terror Did it empower the common man or just the bourgeoisie And was it a turning point in world history or a mere anomaly E J Hobsbawm's classic historiographic study written at the very moment when a new set of revolutions swept through the Eastern Bloc and brought down the Iron Curtain explores how the French Revolution was perceived over the following two centuries He traces how the French Revolution became integral to nineteenth century political discourse when everyone from bourgeois liberals to radical socialists cited these historical events even as they disagreed on what their meaning And he considers why references to the French Revolution continued to inflame passions into the twentieth century as a rhetorical touchstone for communist revolutionaries and as a boogeyman for social conservatives Echoes of the Marseillaise is a stimulating examination of how the same events have been reimagined by different generations and factions to serve various political agendas It will give readers a new appreciation for how the French Revolution not only made history but also shaped our fundamental notions about history itself Coups and Revolutions Amy Austin Holmes, 2019 In 2011 Egypt witnessed more protests than any other country in the world the beginning of a revolutionary process that would unfold in three waves of revolution followed by two waves of counterrevolution In addition to providing new and unprecedented empirical data the book makes two theoretical contributions First a new framework is presented for analyzing the state apparatus in Egypt that is based on four pillars of regime support which can either prop up or press upon whoever is in power the Egyptian military the business elite the United States and the multi headed opposition Secondly the book brings together the literature on bottom up revolutionary movements and top down military coups and introduces the concept of a coup from below in contrast to the revolution from above that took place under Gamal Abdel Nasser Revolution in the Making of the Modern World John Foran, David Lane, Andreja Zivkovic, 2007-11-05 Featuring contributions from leading thinkers on revolution it combines theoretical concerns with case studies of individual revolutions to question whether ideas of revolution are still relevant in the postmodern and globalized world of the twenty first century **Reinterpreting Revolution in Twentieth-Century Europe** Moira Donald, Tim Rees, 2017-03-14 Until the dramatic fall of Communist regimes in the East placed the possibility of revolution on the agenda once again sudden and decisive political change had appeared a largely anachronistic phenomenon in Europe Looking back over the twentieth century it is plausible to argue that the twentieth rather than the nineteenth has

been the most revolutionary of centuries In this volume leading specialists from a variety of disciplines examine the changing and conflicting meanings of revolution in modern and contemporary Europe Contributions include both broad essays on the global and historical context of European revolution and specific case studies reinterpreting a variety of revolutionary experiences

*Repeating Revolutions* Timothy Scott Johnson, 2025-01-16 *Repeating Revolutions* examines how activists intellectuals social scientists and historians looked to France s Revolutionary past to negotiate Algeria s struggle for decolonization from the 1930s to the 1960s The French Empire justified their claims over Algeria in part through messages of universal progress marked by the political visions tied to the French Revolution Supporters of Algerian independence confronted those historical claims by identifying the Algerian cause with the French Revolution and by highlighting the apparent contradictions between the history of 1789 and imperial rule Far right activists meanwhile saw the movement to decolonize Algeria as another manifestation of the revolutionary disorder stemming from the French Revolution Behind these analogies lay broader changes in the study of North African society and contemporary political relevance of the French Revolution The focus on analogies to the French Revolution puts different sets of actors in conversation with one another and offers a fresh take on how people s experiences and expectations changed throughout the Algerian War This book will appeal to readers interested in the intellectual history of decolonization the historiography of the French Revolution the historiography of North African studies and questions of historical comparison and conceptual change The introduction of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

*The European Revolutions, 1848-1851* Jonathan Sperber, 2005-07-07 Reaching from the Atlantic to Ukraine from the Baltic to the Mediterranean the revolutions of 1848 brought millions of people across the European continent into political life Nationalist aspirations social issues and feminist demands coming to the fore in the mid century revolutions would reverberate in continental Europe until 1914 and beyond Yet the new regimes established then proved ephemeral succumbing to counter revolution In this second edition Jonathan Sperber has updated and expanded his study of the European Revolutions between 1848 1851 Emphasizing the socioeconomic background to the revolutions and the diversity of political opinions and experiences of participants the book offers an inclusive narrative of the revolutionary events and a structural analysis of the reasons for the revolutions ultimate failure A wide reaching conclusion and a detailed bibliography make the book ideal both for classroom use and for a general reader wishing a better knowledge of this major historical event

**Religion in Rebellions, Revolutions, and Social Movements** Warren S. Goldstein, Jean-Pierre Reed, 2022-05-19 *Religion in Rebellions Revolutions and Social Movements* demonstrates that while religion is often a social force that maintains if not legitimates the sociopolitical order it is also a decisive factor in economic social and political conflict The book explores how and under what conditions religion functions as a progressive and or reactionary force that compels people to challenge or protect social orders The authors focus on the

role that religion has played in peasant slave and plebeian rebellions revolutions including the Chinese English French Russian and Iranian and modern social movements In addition to these case studies the book also contains theoretical chapters that explore the relationship religious thought has with the politics of liberation and oppression It examines the institutional organizational ritualistic discursive ideological and or framing mechanisms that give religion its oppressive and liberating structures Many scholars of religion continue very conventional modes of thinking ignoring how religion has been and continues to be both a hegemonic and counterhegemonic force in conflict This book looks at both sides of the equation This international and interdisciplinary volume will be of interest to students and scholars in the fields of politics of religion sociology of religion religious studies gender studies and history

**Potential History** Ariella Aïsha Azoulay, 2019-11-19 A passionately urgent call for all of us to unlearn imperialism and repair the violent world we share from one of our most compelling political theorists In this theoretical tour de force renowned scholar Ariella Aïsha Azoulay calls on us to recognize the imperial foundations of knowledge and to refuse its

strictures and its many violences Azoulay argues that the institutions that make our world from archives and museums to ideas of sovereignty and human rights to history itself are all dependent on imperial modes of thinking Imperialism has segmented populations into differentially governed groups continually emphasized the possibility of progress while it tries to destroy what came before and voraciously seeks out the new by sealing the past away in dusty archival boxes and the glass vitrines of museums By practicing what she calls potential history Azoulay argues that we can still refuse the original imperial violence that shattered communities lives and worlds from native peoples in the Americas at the moment of conquest to the Congo ruled by Belgium's brutal King Leopold II from dispossessed Palestinians in 1948 to displaced refugees in our own day In Potential History Azoulay travels alongside historical companions an old Palestinian man who refused to leave his village in 1948 an anonymous woman in war ravaged Berlin looted objects and documents torn from their worlds and now housed in archives and museums to chart the ways imperialism has sought to order time space and politics Rather than looking for a new future Azoulay calls upon us to rewind history and unlearn our imperial rights to continue to refuse imperial violence by making present what was invented as past and making the repair of torn worlds the substance of politics

Media And Revolution Jeremy D. Popkin, 2014-10-17 As television screens across America showed Chinese students blocking government tanks in Tiananmen Square the fall of the Berlin Wall and missiles searching their targets in Baghdad the connection between media and revolution seemed more significant than ever In this book thirteen prominent scholars examine the role of the communication media in revolutionary crises from the Puritan Revolution of the 1640s to the upheaval in the former Czechoslovakia Their central question Do the media in fact have a real influence on the unfolding of revolutionary crises On this question the contributors diverge some arguing that the press does not bring about revolution but is part of the revolutionary process others downplaying the role of the media Essays focus on areas as diverse as pamphlet literature newspapers political cartoons and the modern electronic media The authors wide ranging views form a balanced and perceptive examination of the impact of the media on the making of history

**Ethiopia in Theory: Revolution and Knowledge Production, 1964-2016** Ellen Centime Zeleke, 2019-10-14 Between the years 1964 and 1974 Ethiopian post secondary students studying at home in Europe and in North America produced a number of journals In these they explored the relationship between social theory and social change within the project of building a socialist Ethiopia Ethiopia in Theory examines the literature of this student movement together with the movement's afterlife in Ethiopian politics and society in order to ask what does it mean to write today about the appropriation and indigenisation of Marxist and mainstream social science ideas in an Ethiopian and African context and importantly what does the archive of

revolutionary thought in Africa teach us about the practice of critical theory more generally      **How to Achieve the Common Core with Tech** Ask a Tech Teacher,2013-06-05 257 pages 28 projects over 200 Common Core standards for 9 grades K 8 How to Achieve Common Core with Tech the Writing Strand is part of a five volume series that focuses on using technology to meet Common Core standards in Language Writing Reading Speaking Listening and Math      *Sociological Theory (RLE Social Theory)* Keith Dixon,2020-07-26 Most professional sociologists claim that sociology is or ought to be a theoretical science Keith Dixon argues here that this claim is formulated in such a way that a proper evaluation of its status is extremely difficult and that the contingent objections to the possibility of sociological theorizing are sufficiently strong for such activity to be labelled as pretence He believes that pretence to the theoretical is a hindrance to the development of sociology proper It devalues significant empirical work by giving status to research findings only in so far as they relate to often arbitrarily conceived theoretical concerns it leads to a systematic neglect of the historical dimension in the explanation of human behaviour and it sets up ideals of explanation whose pursuit leads to sterility frustration and even intellectual corruption Keith Dixon emphasizes however that in attacking the contingent possibility of theory he does not mean to devalue empirical expertise analytic skill or the exercise of disciplined speculative intelligence The argument of his book is that intelligence can only flourish when released from the constraints of attempting to justify the unjustifiable
