Morality within the Life- and Social World Anna-Teresa Tymieniecka, 2012-12-06 *Social Ethics in the Making* Gary Dorrien, 2011-04-06 In the early 1880s proponents of what came to be called the social gospel founded what is now known as social ethics This ambitious and magisterial book describes the tradition of social ethics one that began with the distinctly modern idea that Christianity has a social ethical mission to transform the structures of society in the direction of social justice Charts the story of social ethics the idea that Christianity has a social ethical mission to transform society from its roots in the nineteenth century through to the present day Discusses and analyzes how different traditions of social ethics evolved in the realms of the academy church and general public Looks at the wide variety of individuals who have been prominent exponents of social ethics from academics and self styled public intellectuals through to pastors and activists Set to become the definitive reference guide to the history and development of social ethics Recipient of a CHOICE Outstanding Academic Title for 2009 award [IIT HSEE PDF-IIT Madras Humanities and Social Sciences Entrance Examination -HSEE eBook-PDF](#) Dr Chandresh Agrawal, nandini books, 2024-05-15 SGN The Ebook PDF IIT Madras Humanities and Social Sciences Entrance Examination HSEE Covers All Sections Of The Exam **Man's Quest for Social Guidance** Howard Washington Odum, 1927 *Ethics and Social Responsibility in Science Education* M. J. Frazer, A. Kornhauser, 2014-05-17 Ethics and Social Responsibility in Science Education discusses the principles and approaches to the problems of ethics and social responsibility in science education The book is divided into three parts The first part Principles and Approach explores the nature of moral education and the ethics social responsibility of science and the roles of scientists and engineers in societal issues The second part Problems and Prospects covers different social and cultural issues in relation to ethics in science such as international stability food production human experimentation medical ethics chemical pollution and energy production The third part Teaching Methodology talks about the importance and styles of teaching ethics and social responsibility in science education The text is recommended for practitioners researchers and educators in the different fields of science Those who wish to know the importance of ethics in the socio cultural aspect of sciences will also find this book helpful **Non-humans in Social Science** Petr Gibas, Karolína Pauknerová, Marco Stella, 2012-04-01 Ideas of dead inert space non living machinelike reflexive controlled bodies and passive meaningless things are very modern At the very heart of the program of modernity resource exploitation and consumption is the idea that non humans have no agency they are simply resources to be manipulated and exploited at our will Mostly leaving aside the more and more evident ethical concerns of this worldview and this setting of the human non human boundary this volume attempts to explore what social sciences have to say about the relationship between the human and non human The intention of this book is to offer a non human perspective We realize that it is sometimes difficult to say whether the outcome of such a perspective would be just a shallow tendency to anthropomorphize or whether we could reach some of the previously unseen properties of non humans

Being aware of the dangers this volume puts together different case studies that are more or less inspired by this non human perspective The aim is to explore what has been for a long time put aside and to provide new insights new revelations that can lead social science to undiscovered or hidden realms The outcome of this thrilling adventure can in the end be a discovery that the role of natural and social sciences or even more the character of the nature culture dichotomy would have to be re evaluated Ethics in Theory and Application Horatio Willis Dresser,1925 **The Creed of Science. Wilbur,2014-08-13 The annual Conferences on Value Inquiry bring together philosophers scientists and humanists to discuss the many facets of the problem of value in the experience of the individual and in contemporary society One of the criteria in choosing papers for the Conference is the ability to stimulate discussion and clarification The papers in the present volumes show deep concern with the problems and responsibilities in making choices of value
