Abstract: *There are two types of matter in the universe: inanimate and animate. Inanimate matter comprises small objects ranging from atoms and molecules to quarks and quanta, while animate matter refers to the soul with excitement, feelings, mind, and consciousness, as in animals and humans, which forms the basis of life. Science best studies inanimate matter. However, animate matter has not yet been properly studied. In this article, we discuss the causal condition or scientific study of the origin, development, and movement of the soul by studying the scientific evidence of Buddhist views, such as the law of karma and reincarnation or the afterlife.*

Keywords: Buddha, Body, Mind, Soul, Karma, Rebirth, Consciousness, Evolution, Reincarnation

One-Sentence Summary:

“Buddhism is the science of knowing the truth of life” - Albert Einstein

1. Introduction

What is soul? In many religions and philosophical traditions, the soul is the spiritual essence of creators, which includes one's identity, personality, memories, and immaterial aspects, or the essence of a living being that is believed to be able to survive the physical body (1, 2).

Throughout history and across cultures, people have believed in some sort of soul and afterlife.

The current scientific paradigms doesn't recognize this spiritual dimension of life.

Scientists have conducted extensive research on the soul. For instance, Dr. Robert Lanza, a stem cell researcher, has proposed a theory called “biocentrism” that suggests that the soul exists, and that consciousness is fundamental to the universe (3). He said “Biocentrism will shatter the reader's ideas of lifetime and space, and even death. At the same time, it will release us from the dull worldview of life being merely the activity of an admixture of carbon and a few other elements; it suggests the exhilarating possibility that life is fundamentally immortal”.

Robert T. Bigelow, a space entrepreneur from the United States, has conducted sign the soul. To this end, he established the Bigelow Institute for Consciousness Studies (BICS), and in 2020 he organized worldwide an essay contest on the topic “Is there life after death?” to raise awareness and stimulate research on the survival of human consciousness after physical death, with a global prize of \$2 million, and approximately 1000 people participated (4). One of the essay contest winners, parapsychologist, PhD Jeffrey Mishlove, adduced nine factors, such as near-death experiences, after-death communication, reincarnation, and mental and physical medium ship, that show the possibility of life after death, and concluded that there is life after death (5). This essay can be considered practical proof of the existence of life after death.

In this article we aim to prove the existence of the soul.

2. Scientific evidence for the existence of the soul

Here we will argue that from the point of view of reason and logic, it is reasonable to believe that spirit and matter is a bundle of energy, and that the soul is created from energy through animal under the of appropriate causal conditions. And man arose of the evolution of animal. After death the animal and human the soul separated from body and the soul has found its reincarnation in one of the six types of animals, and one after another is reborn cyclically in the form of a wheel in samsara. Samsara is a place where animals and people are reborn after death according to Buddhist concepts.

In (6) we have proved that afterlife exists after death using set theory (7), a branch of mathematics. In other words, it has been theoretically proven that life exists after death.

The following theorem describes the afterlife or reincarnation:

Theorem (Afterlife or reincarnation)

If firstly, the objects and phenomena of the non-eternal universe exist in three forms: matter, spirit, and an imperfect cluster of elements—animals and humans. Secondly, when these animals and humans die, their bodies and minds/souls are separated, then after death the animals and humans their body and mind separated, and their soul/mind is reborn in one of the six animals of samsara depending on their consciousness. If people develop their consciousness, they will be able to improve their next rebirth in the three higher realms of beings, as a human, an animal of Asura Heaven, or an animal of Heaven, and may even become a Buddha. In contrast, if humans do not develop their consciousness, the soul can be reborn as one of the three lower beings, as beasts, ordinary animals, or animal of hell, or even may
