Scientific Research in Zoological Parks

Volume 14

**Moscow
2002**

The present issue of Scientific Research in Zoological Parks covers different aspects of the Zoo management. A number of articles are dedicated to the keeping and breeding of reptiles, including revue on Boiga genus in captivity. New veterinary methods for snakes and the results of the field studies of reptiles are also provided. The sequel series of articles on marine aquariumistics are included in the current issue. Ethological papers describe the effects of visitors' presents on the behaviour of zoo animals, discuss the issues of the ontogenesis of behaviour, assess the methods of environment enrichment of primates. One of the papers presents unique experience of the social adaptation of the hand-reared orangutan. Various aspects of the management of mixed-animal exhibits are discussed in two papers. "Information" section provides a comprehensive report on the International Workshop on Biology and Conservation of Canids.

The issue can be of useful for the zoo experts and keepers, as well as for the students of biological universities.

Records of the Zoological Survey of India Zoological Survey of India,1923 Zoo Studies Tracy McDonald,Daniel Vandersommers,2019-06-19 Do both the zoo and the mental hospital induce psychosis as humans are treated as animals and animals are treated as humans How have we looked at animals in the past and how do we look at them today How have zoos presented themselves and their purpose over time In response to the emergence of environmental and animal studies anthropologists sociologists philosophers theorists literature scholars and historians around the world have begun to explore the significance of zoological parks past and present Zoo Studies considers the modern zoo from a range of approaches and disciplines united in a desire to blur the boundaries between human and nonhuman animals The volume begins with an account of the first modern mental hospital La Salpêtrière established in 1656 and the first panoptical zoo the menagerie at Versailles created in 1662 by the same royal architect the final chapter presents a choreographic performance that imagines the Toronto Zoo as a place where the human body can be inspired by animal bodies From beginning to end through interdisciplinary collaboration this volume decentres the human subject and offers alternative ways of thinking about zoos and their inhabitants This collection immerses readers in the lives of animals and their experiences of captivity and asks us to reflect on our own assumptions about both humans and animals An original and groundbreaking work Zoo Studies will change the way readers see nonhuman animals and themselves **Scientific and Technical Aerospace Reports** ,1982 Lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the NASA Scientific and Technical Information Database *Zoo Conservation Biology* John E. Fa,Stephan M. Funk,Donnamarie O'Connell,2011-08-18 In the face of ever declining biodiversity zoos have a major role to play in species conservation Written by professionals involved in in situ conservation and restoration projects internationally this is a critical assessment of the contribution of zoos to species conservation through evidence amassed from a wide range of sources The first part outlines the biodiversity context within which zoos should operate introducing the origins and global spread of zoos and exploring animal collection composition The second part focuses on the basic elements of keeping viable captive animal populations It considers the consequences of captivity on animals the genetics of captive populations and the performance of zoos in captive breeding The final part examines ways in which zoos can make a significant difference to conservation now and in the future Bridging the gap between pure science and applied conservation this is an ideal resource for both conservation biologists and zoo professionals *Navigating the Factor Zoo* Michael Zhang,Tao Lu,Chuan

Shi,2024-12-09 Bridging the gap between theoretical asset pricing and industry practices in factors and factor investing Zhang et al provides a comprehensive treatment of factors along with industry insights on practical factor development Chapters cover a wide array of topics including the foundations of quantamentals the intricacies of market beta the significance of statistical moments the principles of technical analysis and the impact of market microstructure and liquidity on trading Furthermore it delves into the complexities of tail risk and behavioral finance revealing how psychological factors affect market dynamics The discussion extends to the sophisticated use of option trading data for predictive insights and the critical differentiation between outcome uncertainty and distribution uncertainty in financial decision making A standout feature of the book is its examination of machine learning s role in factor investing detailing how it transforms data preprocessing factor discovery and model construction Overall this book provides a holistic view of contemporary financial markets highlighting the challenges and opportunities in harnessing alternative data and machine learning to develop robust investment strategies This book would appeal to investment management professionals and trainees It will also be of use to graduate and upper undergraduate students in quantitative finance factor investing asset management and or trading
