**The Scientific Study of Religion** J. Milton Yinger,1970 Conversations and Controversies in the Scientific Study of Religion ,2016-02-15 Luther H Martin and Donald Wiebe together have spent the better part of a century exploring possibilities for a scientific study of religion The following essays are a record of their conversations together and of their conversations and controversies with a number of leading scholars in religious studies that address that possibility As with any scientific endeavor knowledge advances when research assumptions and experimental designs are collegially discussed and critically assessed It is hoped that these essays might provide the occasion for scholars in the field to discuss the theoretical and methodological issues they have raised to debate and expand upon them or in the spirit of forthright scientific inquiry to refute the arguments they have made The Scientific Study of Religion John Milton Yinger,1973 *Research in the Social Scientific Study of Religion, Volume 17* Ralph L. Piedmont,2006-10 Research in the Social Scientific Study of Religion RSSSR publishes reports of innovative studies that pertain empirically or theoretically to the scientific study of religion including spirituality regardless of their academic discipline or professional orientation This volume of RSSSR contains articles on conversion narratives of Jehovah s witnesses belief in an active Satan afterlife beliefs religiosity and parenting and spirituality as coping resource **Journal for the Scientific Study of Religion** ,2003 Official journal of the Society for the Scientific Study of Religion JSSR was founded in 1949 by students of religion and of social science in order to stimulate and communicate significant scientific research on religious institutions and experience **The Scientific Study of Religion** John Milton Yinger,1978 *Research in the Social Scientific Study of Religion, Volume 12* ,2021-10-01 The purpose of this

book is to provide an outlet for original research articles examining the role and value of religious and spiritual constructs across the social sciences The aim of the series is to include an international and interfaith voice to this research dialogue An effort is made to be interdisciplinary and academically eclectic The articles in the current volume represent a wide array of perspectives and research projects Most of the articles report the findings of quantitative or qualitative investigations but some deal with methodology theory or applications of social science studies in the field of religion and some are applied demonstrating the relevance of the social sciences to religious organizations and their clergy The value of the volume is that it gives to researchers in this area a broad perspective on the issues and methods of religious research across a spectrum of academic disciplines The aim of the book is to stimulate a creative integrative dialogue that will enhance interdisciplinary research

Scientific Models for Religious Knowledge Andrew Ralls Woodward, 2018-08-14 Most comparisons of science and religion are really comparisons of science and Christianity or science and Islam and so forth In Scientific Models for Religious Knowledge the author aims to get outside typical polarized debates between traditional a priori theism and radical scientific naturalism Instead a new science and religion compatibility system between a scientific study of religion and a religious epistemology is our new elusive problem Moreover we shall look at a comparison and contrast of modern science with the simple deference of the human mind to the actions of culturally postulated superhuman agents This book pays critical attention to the contributions of scholars in the philosophy of religion the philosophy of science and the scientific study of religion Scientific Models for Religious Knowledge is useful for readers looking to expand their learning in the philosophies of science and religion as these subjects are taught and analyzed in modern research universities
