Transfusion Medicine: Fact and Fiction C.Th. Smit Sibinga, P.C. Das, J.D. Cash, 2012-12-06 In summary the technical scientific and medical aspects of transfusion medicine continue to be critical We all must find ways to provide a safer unit of blood and blood components However there must be a realization by all involved in the profession that the management and administration aspects of transfusion medicine deserve equal attention respect and support Why It is very simple Without all aspects of transfusion medicine working together for the common good care of the patient we will all fail
