Scientific Case For Creation:

The Scientific Case Against Scientific Creationism Jon P. Alston, 2003-09 Sociologist Jon P Alston offers a unique and clear analysis of the weaknesses of scientific creationism and intelligent design by identifying what creationists say when they reject evidence for evolution He demonstrates how scientific creationists accept non scientific statements that contradict established scientific knowledge Acceptance of anti evolutionary knowledge also demands acceptance of a literal six day creation and other statements contradicting scientific findings Few persons have read so closely the writings of scientific creationists to illustrate how anti scientific anti evolutionists become when they criticize the fact of evolution Creationists are forced to develop just so stories to defend their literal interpretations of Biblical scripture Alston finds creationists cannot defend their religious beliefs using established scientific methodologies and principles **The Case for a Creator** Lee Strobel, 2004 My road to atheism was paved by science But ironically so was my later journey to God Lee Strobel During his academic years Lee Strobel became convinced that God was outmoded a belief that colored his ensuing career as an award winning journalist at the Chicago Tribune Science had made the idea of a Creator irrelevant or so Strobel thought But today science is pointing in a different direction In recent years a diverse and impressive body of research has increasingly supported the conclusion that the universe was intelligently designed At the same time Darwinism has faltered in the face of concrete facts and hard reason Has science discovered God At the very least it s giving faith an immense boost as new findings emerge about the incredible complexity of our universe Join Strobel as he reexamines the theories that once led him away from God Through his compelling and highly readable account you ll encounter the mind stretching discoveries from cosmology cellular biology DNA research astronomy physics and human consciousness that present astonishing evidence in *The Case for a Creator* Also available in mass market and audio CD editions *The Scientific Case for Creation* Bert Thompson, 2000-12-31 This book discusses in a clear yet compelling manner the scientific evidence that supports the biblical account of creation *The Scientific Case for Creation* Henry Madison Morris, 1977 This book is a brief introduction to the broad field of scientific creationism The subject is treated solely from a scientific point of view leaving the theological and Biblical implications of both evolution and creation to other studies Although a minimal level of scientific background on the part of the reader is helpful even the general reader can follow the arguments and appreciate the conclusions In contrast to other books dealing with the inadequacies of evolution this book concentrates on examining the scientific evidences for creation Publisher **The Case for a Creator Student Edition** Lee Strobel, 2010-12-21 In *The Case for a Creator* Student Edition best selling author and former atheist Lee Strobel and popular writer Jane Vogel take younger readers on a remarkable investigation into the origin of the universe interviewing many of the world s most renown scientists and following the evidence wherever it leads Their findings presented in the third blockbuster Case book student edition offer the most compelling scientific proof ever for intelligent design Perfect for youth groups and young people eager to rebut the

The Scientific Case for Creation Walter Tarleton Brown, 1980* Scientific Creationism Henry Morris, 2022-03-01

EVOLUTIONISM VS CREATIONISM WHAT DOES THE EVIDENCE REVEAL Explore scientific law as it connects to evolution creation Extract the truth of these two conflicting worldviews Examine the evidence for the origin of earth and man Evolutionism is often taught blindly in schools without regard to what the evidence truly says A powerful tool for teachers and other individuals Scientific Creationism provides one of the most comprehensive analyses of the evidence for evolution and creation What can we learn from fossils How does catastrophism play a part in origins Why are many evolutionary discoveries so surprising A careful study of these questions shows that evolution is impossible and creation is quite predictable Includes a special section that places the scientific evidence in its proper biblical and theological context

The Case for a Creator Lee Strobel, 2009-05-18 Discover the astonishing evidence for intelligent design in this New York Times bestselling book by award winning journalist Lee Strobel My road to atheism was paved by science but ironically so was my later journey to God Strobel says During his academic years Lee Strobel became convinced that God was obsolete a belief that colored his journalism career Science had made the idea of a Creator irrelevant or so Strobel thought But today science points in a different direction A diverse and impressive body of research has increasingly supported the conclusion that the universe was intelligently designed At the same time Darwinism has faltered in the face of concrete facts and hard reason Has science discovered God At the very least it's giving faith an immense boost as new findings emerge about the incredible complexity of our universe Join Strobel as he reexamines the theories that once led him away from God Through his compelling and highly readable account you'll encounter the mind stretching discoveries from cosmology cellular biology DNA research astronomy physics and human consciousness that present compelling evidence in *The Case for a Creator* Also available *The Case for a Creator* small group video study and study guide Spanish edition kids edition student edition and more

Revelation Through Science James G. Martin, 2020-11-26 *Revelation through Science* is written for the educated non scientist who may be troubled by apparent conflicts between science and religion Are science and faith incompatible Astronomers physicists and biologists have now shown that the more deeply science probes nature the more it reveals evidence pointing us to God After reviewing concepts from those fields *Revelation through Science* adds new material from chemistry It describes organic structures that are profoundly vital for life yet too complex for self assembly without some guiding principle It should lift the burden from believers and seekers to realize that science is not the enemy of faith
