International Handbook of Higher Education James J.F. Forest, Philip G. Altbach, 2008-01-18 This book provides a central authoritative source of reference on the most essential topics of higher education The International Handbook of Higher Education combines a rich diversity of scholarly perspectives with a wide range of internationally derived descriptions and analyses Chapters in the first volume cover central themes in the study of higher

education while contributors to the second volume focuses on contemporary higher education issues within specific countries or regions Together these volumes provide a centralized easily accessible yet scholarly source of information *Remapping Africa in the Global Space* Edward Shizha,2014-11-26 What are the benefits and risks for Africa s participation in the globalisation nexus *Remapping Africa in the Global Space* is a visionary and interdisciplinary volume that restores Africa s image using a multidisciplinary lens It incorporates disciplines such as sociology education global studies economics development studies political science and philosophy to explore and theorise Africa s reality in the global space and to deconstruct the misperceptions and narratives that often infantilise Africa s internal and international relations The contributions to this volume are a hybrid of both outsider and insider perspectives that create a balanced critical discourse that can provide standard paradigms that can adequately explain predict or prevent Africa s current misperceptions and myths about the African crisis and failure status The authors provide a holistic and perhaps anticolonial and anti hegemonic perspective that can benefit a wide spectrum of academics scholars students development agents policy makers in both governmental and non governmental organisations and engage some alternative analyses and possibilities for socio politico and economic advancement in Africa The book provides up to date scholarly research on continental trends on various subjects and concerns of paramount importance to globalisation and development in Africa The book is brilliant *Remapping Africa in the Global Space Propositions for Change* explores Africa from the perspective of academics specialised in subject matters pertaining to the continent In this age of globalisation I find this book invaluable It is a good read as it dissects analyses and presents issues affecting the continent in an articulate and cogent way I highly recommend its use in academic institutions Magnus Mfoafo M Carthy Assistant Professor Lyle S Hallman Faculty of Social Work Fellow of Tshepo Institute for the Study of Contemporary Africa Wilfrid Laurier University Kitchener Canada More than anything else *Remapping Africa in the Global Space Propositions for Change* speaks to the complex multifaceted and interfused character of the development challenges and prospects of Africa Indeed few books have examined contemporary Africa as comprehensively and insightfully as this edited volume it is widely welcomed in the African academic scholarly and research arena Joseph Mensah Professor of Geography York University Toronto **International Faculty in Higher Education** Maria Yudkevich,Philip G.

Altbach,Laura E. Rumbley,2016-11-25 In an interconnected and globally competitive environment faculty mobility across countries has become widespread yet is little understood Grounded in qualitative methodology this volume offers a cutting edge examination of internationally mobile academics today and explores the approaches and strategies that institutions pursue to recruit and integrate international teachers and scholars into local universities Providing a range of research based insights from case studies in key countries this resource offers higher education scholars and administrators a comparative perspective helping to explain the impact that international faculty have on the local university as well as issues of retention promotion salaries and the challenges faced by these internationally mobile academics *International Organizations and*

Higher Education Policy Roberta Malee Bassett, Alma Maldonado-Maldonado, 2010-04-15 Higher Education operates in an increasingly global context and yet the examination of what drives and moves the field has remained largely focused on domestic campus leaders national governments and institutional actors *International Organizations and Higher Education Policy* expands the analysis to include the global drivers behind higher education policy including a full array of influential organizations such as the World Bank UNESCO OECD WTO bilateral aid agencies and major private foundations The significance of these organizations is especially pronounced in the developing world where the expansion of higher education is happening in conjunction with the broadening influence of globalization *International Organizations and Higher Education Policy* critically analyses the impact that these influential organizations have at different levels of policy development and implementation around the world It examines their role in higher education institutions examines the strength of these relationships and exposes both the positive and negative implications This edited volume is composed of scholars and members of these organizations from around the world They address How international organizations represent the interests of the developed world and subsequently have an impact on the developing world How these organizations drive and shape the global agenda for higher education How higher education as an international industry is subject to a myriad of influences from the international to the regional level What ethical issues emerge when international organizations intervene in national policy making processes
