Proceedings of the EU preparatory meeting of the Third world congress for freedom of scientific research - "From the body to the body politic" (2013) Associazione Luca Coscioni per la libertà di ricerca scientifica, 2014-03-04 For nearly ten years now Luca Coscioni Association through and together with the World Congress has been fighting for freedom of scientific research The World Congress is not a place of mere convention and intellectual debate it is also the seat of political initiative where scientists researchers politicians sick and disabled people and citizens can work together to address complex issues such as patentability Open Access and clinical trials as well as the relationship between science and religion or between science and politics Marco Pannella leader of the Nonviolent Radical Party is to thank for providing the idea for this scheme It was put together in the weeks when we were beginning to organize a referendum in Italy to abolish the law banning scientific research on embryos This was not just an Italian issue but a global one At that moment in history we spoke

of the danger and threat of all types of fundamentalism whether religious or ideological which were opposed to science and to freedom of research The aim of the meeting that was held in November 14 15 2013 in Brussels is to identify the urgent need for freedom of research and freedom in the broader more general sense This is not to insist so much on the importance of science research human well being but also to respond or to find another possible answer to the problem of the crisis of democracy and the rule of law
