The Church of Scientology Hugh B. Urban, 2013-02-24 Scientology's long and complex journey to recognition as a religion Scientology is one of the wealthiest and most powerful new religions to emerge in the past century To its detractors L Ron Hubbard's space age mysticism is a moneymaking scam and sinister brainwashing cult But to its adherents it is humanity's brightest hope Few religious movements have been subject to public scrutiny like Scientology yet much of what is written about the church is sensationalist and inaccurate Here for the first time is the story of Scientology's protracted and turbulent journey to recognition as a religion in the postwar American landscape Hugh Urban tells the real story of Scientology from its cold war era beginnings in the 1950s to its prominence today as the religion of Hollywood's celebrity elite Urban paints a vivid portrait of Hubbard the enigmatic founder who once commanded his own private fleet and an intelligence apparatus rivaling that of the U.S. government One FBI agent described him as a mental case but to his followers he is the man who solved the riddle of the human mind Urban details Scientology's decades long war with the IRS which ended with the church winning tax exempt status as a religion the rancorous cult wars of the 1970s and 1980s as well as the latest challenges confronting Scientology from attacks by the Internet group Anonymous to the church's efforts to suppress the online dissemination of its esoteric teachings The Church

of Scientology demonstrates how Scientology has reflected the broader anxieties and obsessions of postwar America and raises profound questions about how religion is defined and who gets to define it *Handbook of Scientology* James R. Lewis, 2017-01-05 The Handbook of Scientology brings together a collection of fresh studies of the most persistently controversial of all contemporary New Religions In recent years increasing scholarly attention has been directed at the Church of Scientology resulting in a small tsunami of new scholarship We have finally reached a point in time where a book on Scientology need not restrict itself to basics Thus for example the historical chapters in the present volume are not really aimed at providing elementary facts on Scientology's background but rather focus on understanding how the Church of Scientology developed over the years In short the Handbook of Scientology will provide a wealth of new information on a topic that one might otherwise have thought exhausted Contributors are Matthew Charet Dorthe Refslund Christensen Carole M Cusack Bernard Doherty Marco Frenschkowski Liselotte Frisk Kjersti Helles y Don Jolly James R Lewis Renee Lockwood Andr s M t T th G bor D niel Nagy Johanna Petsche Erin Prophet Susan Raine David G Robertson Mikael Rothstein Lisbeth Tuxin Rubin Nicole S Ruskell Shannon Trospen Schorey Michelle Swainson Inga B rdsen T llefsen Hugh G Urban Donald A Westbrook and Benjamin Zeller *Encyclopedia of American Women and Religion* June Melby Benowitz, 2017-08-18 This two volume set examines women's contributions to religious and moral development in America covering individual women their faith related organizations and women's roles and experiences in the broader social and cultural contexts of their times This second edition of Encyclopedia of American Women and Religion provides updated and expanded information from historians and other scholars of religion covering new issues in religion to better describe and document women's roles within religious groups For instance the term evangelical feminism is one newly defined aspect of women's involvement in religious activism Changes are constantly occurring within the many religious faiths and denominations in America particularly as women strive to gain positions within religious hierarchies that previously were exclusive to men and rise within their denominations to become theologians church leaders and bishops The entries examine the roles that American women have played in mainstream religious denominations small religious sects and non traditional practices such as witchcraft as well as in groups that question religious beliefs including agnostics and atheists A section containing primary documents gives readers a firsthand look at matters of concern to religious women and their organizations Many of these documents are the writings of women who merit entries within the encyclopedia Readers will gain an awareness of women's contributions to religious culture in America from the colonial era to the present day and better understand the many challenges that women have faced to achieve success in their religion related endeavors
