Science Fiction David Seed,2011-06-23 Science Fiction has proved notoriously difficult to define It has been explained as a combination of romance science and prophecy as a genre based on an imagined alternative to the reader s environment and as a form of fantastic fiction and historical literature It has also been argued that science fiction narratives are the most engaged socially relevant and responsive to the modern technological environment This Very Short Introduction doesn t offer a history of science fiction but instead ties examples of science fiction to different historical moments in order to demonstrate how science fiction has evolved over time David Seed looks not only at literature but also at drama and poetry as well as film Examining recurrent themes in science fiction he looks at voyages into space the concept of the alien and alternative social identities the role of technology in science fiction and its relation to time in the past present and future ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable **The Martian Affair** Connor Whiteley, Every planet has its mysteries Mars hires Drake for an assignment Drakes needs the work He gathers information But Drake knows this is strange Can Drake find what he needs Or will his conscience get the better of him If you love gripping exciting twisted sci fi private eye short stories you will love this story BUY IT NOW **Dystopia and Dispossession in the Hollywood Science Fiction Film, 1979-2017** Harry Warwick,2023-02-15 Offering a survey of Hollywood science fiction cinema from 1979 to 2017 from Ridley Scott s Alien to Denis Villeneuve s Blade Runner 2049 Dystopia and Dispossessionin the Hollywood Science Fiction Film argues that the trajectory of Hollywood s dystopianism in that period is inextricable from the phenomenon of the new enclosures the new dispossessions and privatisations sweeping across the United States since the 1970s More precisely it contends that the critiques of such dispossessions elaborated before the turn of the century consider the satire of private policing in RoboCop 1987 the portrayal of commodified air in Total Recall 1990 and the nightmarish extrapolations of postmodern urbanism in Blade Runner 1982 and The Truman Show 1998 begin to disappear in films such as The Matrix 1999 The Island 2005 District 9 2009 Repo Men 2010 and The Purge 2013 the further commodification of land forest reservoir ideas even the human genome having diminished the contrast

between capitalist and non capitalist spaces on which the earlier critiques depended Bringing close readings of blockbuster films into dialogue with historical and theoretical scholarship on dispossession Dystopia and Dispossession in the Hollywood Science Fiction Film proposes a new understanding of the politics of science fiction in particular and utopian thought in general
