The Afterlife Book Marie D. Jones, Larry Flaxman, 2023-06-06 A profound and fascinating exploration of death and the afterlife Christian and other religious beliefs rituals from around the world quests for immortality scientists conclusions ghosts and more What happens when we die Many view it as a mystery but there are tantalizing clues to be found in the Bible and other religious scriptures scientific findings historical writings literature reports of near death experiences and in many other recorded sources Facing the contradictions and similarities of beliefs from all over the world and throughout history The Afterlife Book Heaven Hell and Life After Death shows how death and the afterlife is viewed in a variety of different ways This engrossing guide looks at the many competing views of the afterlife and the shared connections between them including Where ideas of Heaven and Hell came from and why they endure What happens during near death experiences and out of body experiences What is known about reincarnation and immortality How death is linked to ghosts and apparitions mediumship and spiritualism How the quest for immortality and transhumanism may play a role in one day ending death How science and spirituality can often say the same thing only in different languages and terminologies How death and the dead have been celebrated memorialized and honored in the past and present What happens to the human body just before during and immediately after physical death What happens to the cells tissues heart and brain as a result of the physical process of dying and decomposition How burial and cremation traditions rites rituals and controversies address consciousness and the existence of a soul What religious leaders philosophers and scientists have to say about consciousness and the soul Whether animals and pets have souls Is death just a mysterious phase in our journey Does it lead to Heaven or Hell Is it reincarnation or simply eternal blackness and unconsciousness Do we continue to exist in some form or other beyond our physical bodies The Afterlife Book tackles these questions and gives us all hope that our lives do not come to an end but change like the natural cycles of birth life death and rebirth It s many photos and illustrations help bring the text to life and its helpful bibliography and extensive

The Immortalization Commission John Gray, 2025-06-25 A Globe and Mail Best Books of the Year 2011 Title At the heart of human experience lies an obsession with the nature of death Religion for most of history has provided an explanation for human life and a vision of what comes after it But in the late nineteenth and early twentieth centuries such beliefs came under relentless pressure as new ideas from psychiatry to evolution to communism seemed to suggest that our fate was now in our own hands humans could cease to be animals defeat death and become immortal In *The Immortalization Commission* the acclaimed political philosopher and critic John Gray takes a brilliant and frightening look at humankind's dangerous striving toward a scientific version of immortality Probing the parallel faiths of Bolshevik God builders who sought to reshape the planet and psychical researchers who believed they had evidence of a nonreligious form of life after death Gray raises fascinating questions about how such beliefs threaten the very nature of what it means to be human He looks to philosophers journalists politicians charlatans and mass murderers who all felt driven by a specifically scientific and modern worldview and whose revolt against death resulted in a series of experiments that ravaged whole countries An urgent examination of Darwin's post religious legacy *The Immortalization Commission* is an important work from one of Britain's leading public intellectuals *The Wall Street Journal*

Immortal Longings Trevor Hamilton, 2015-12-01 *Immortal Longings* FWH Myers and the Victorian search for life after death is the first full length biography of Frederic W H Myers leading figure in the Society for Psychical Research and friend and associate of Browning Gladstone Ruskin Tennyson Swinburne Henry James Prince Leopold and other influential Victorians The book offers a fascinating insight into a key period in the development of Victorian thought Among many things it covers

- 1 Extraordinary Phenomena Myers investigated extraordinary phenomena much of which is still reported today out of body experiences and astral projection near death experiences poltergeists gurus like Madame Blavatsky claiming strange powers mediums both private and public and haunted houses for example the giant warrior haunting a chateau near Heidelberg the Cheltenham Ghost that was seen by a considerable number of people and the odd doings at Ballechin House in Scotland which caused a scandal in the press
- 2 Life After Death Investigations Myers believed he had virtually proved life after death by the link he thought established between hundreds of apparitions and living or dead human beings by the messages that the outstanding mediums Mrs Piper and Mrs Thompson gave him from his first great love Annie and his intimate friend and co worker Edmund Gurney which contained information the medium could not know and was delivered in a way highly characteristic of the personality concerned
- 3 Automatic Writing Some researchers have claimed that he has returned after death and proved his continued existence through the automatic writings of a number of mediums in England America India These writings continued for thirty years
- 4 Romance Suicide There is also love tragedy and jealousy in Myers life His first great love Annie a married woman committed suicide and Myers wife a rather possessive person tried to prevent any detail about this being

made public after his death even though the relationship was platonic This inhibited the work of researchers who were trying to verify the post mortem communications from Myers since for many years they could not check the facts 5 Credibility Myers researches led him to forming a view about human personality and psychology which Aldous Huxley has said is much richer than Freud's *Life, One Big Existential Crisis* Kerry Louise Stalker, 2021-01-25 *Life One Big Existential Crisis* takes the reader on an epic journey It starts by asking What's the point then ventures down the psychological philosophical spiritual cosmological and conspiratorial rabbit hole to answer this great ontological question In short the spirit world is real A spiritual battle is taking place and our souls are the prize for either the kingdom of darkness or kingdom of light There is a dastardly cabal orchestrating our reality using the Bible as its playbook We're living in the last pages of the Bible and this great book will close with a bang The Beast one world system is on our doorstep This book is for those who want to know the Truth and break free from the matrix The focus is on authenticity and choosing your choice
