Scotland 1980 The Economics Of Self Gove

**Keith Robbins, American Historical
Association, Royal Historical Society
(Great Britain)**

Scotland 1980 The Economics Of Self Gove:

Scotland 1980 Donald Iain MacKay,1977 **Scotland 1980** Donald Iain MacKay,1977 **The Case for Scottish Independence** Ben Jackson,2020-07-09 Traces the development of the ideology of modern Scottish nationalism from the 1960s to the independence referendum in 2014 **The Scottish Economy and Nationalism** James Foley,2023-08-18 Scotland s economic capacity to prosper independently of Britain has become a key political issue dominating the independence referendum of 2014 and continuing to influence British politics since But as this book shows the Scottish economy is not merely a statistical object it is also a political sociological and cultural idea which has been imagined and constructed The book explores the history of how Scotland has been framed in statistical and policy terms which are laden with conflicts over meaning ranging from class struggles and struggles against external control to the ongoing debate over national independence Using Scotland as a case study for examining the political meaning of the economy the book also considers the origins of efforts to measure the Scottish economy in the British nationalist terms of regional policy It then considers the influence in turn of North Sea oil globalisation Europeanisation class dealignment and neoliberal enterprise ideology in changing the meanings attached to the Scottish economy These form necessary conditions for the debate on national independence where the nature and the future of the Scottish economy remain the central controversy By examining the economic ideas of a self proclaimed cosmopolitan nationalist movement the study will offer deeper insights into how nationalists are adapting to the crisis of globalisation This book marks a significant contribution to the literature on Scottish independence as well as economic sociology nationalism critical geography and political economy more broadly **The Economics of Secession** NA NA,2016-04-30 *The Renaissance of the Scottish Economy?* Charlotte Lythe,Madhavi Majmudar,2021-10-12 Originally published in 1982 written at a time when Scotland was emerging from a recession it offered a comprehensive appraisal of the Scottish economy The book shows that long term regional problems had not gone away and that the presence of North Sea oil was not a guarantee of future economic health in Scotland A major theme of the work is the key role of government expenditure in the then recent restructuring of the Scottish economy Many of the issues discussed remain pertinent today as Scotland once again discusses the future shape of its economy and political identity

The Battle for Britain David Torrance,2013-11-12 On 18 September 2014 Scots will decide their future should the country quit the United Kingdom and take control of its own destiny or should it remain part of what advocates call the most successful political and economic union of modern times Everyone in the country has a stake in this decision Now in this fascinating and insightful new book David Torrance charts the countdown to the big day weaving his way through a minefield of claim and counterclaim and knocking down fictions and fallacies from both Nationalists and Unionists He plunges into the key questions that have shaped an often fraught argument from the future of the pound to the shape of an independent Scottish army With access to the strategists and opinion makers on both sides of the political divide this book goes straight to

the heart of the great debate providing an incisive authoritative occasionally trenchant guide to the most dramatic constitutional question of our times the battle for Britain *The Crises of the European Regions* Kjell Ostrom, Dudley Seers, 1983-10-06 Research papers on regional development in Finland Portugal Spain Sweden and Yugoslavia presents case studies of government policy to reduce regional disparities in employment income distribution housing infrastructure etc discusses the possible impact of social movements on regional development in Southern Europe comments on development theories related to peripheral areas Maps references statistical tables e **ThirdWay** ,1977-07-14 Monthly current affairs magazine from a Christian perspective with a focus on politics society economics and culture **A Bibliography of British History, 1914-1989** Keith Robbins, American Historical Association, Royal Historical Society (Great Britain), 1996 Containing over 25 000 entries this unique volume will be absolutely indispensable for all those with an interest in Britain in the twentieth century Accessibly arranged by theme with helpful introductions to each chapter a huge range of topics is covered There is a comprehensive index
