Scottish Whalers:

A Maritime History of Scotland, 1650-1790 Eric J. Graham, 2015-04-21 The period 1650 to 1790 was such a turbulent one for Scottish seafarers that much of this fast flowing narrative reads like Treasure Island Colourful characters abound in a story teeming with incident and excitement John Paul Jones descends upon the Scottish coast creating widespread panic press gangs prowl the coastal towns wartime conditions turn merchantmen into privateers fighting the French the Spanish and the American Colonists almost anyone flying a different flag quaintly named vessels like The Provoked Cheesemaker are on the lookout for trouble And the stakes were high Glasgow became wealthy through the tobacco trade Glasgow merchantmen could beat the English ships and sail to Chesapeake Bay in record time Eric Graham traces the development of the Scottish marine and its institutions during a formative period when state intervention and warfare at sea in the pursuit of merchantilist goals largely determined the course of events He charts Scotland's frustrated attempts to join England in the Atlantic economy and so secure her prosperity an often bitter relationship that culminated in the Darien Disaster In the years that followed maritime affairs were central to the move to embrace the full incorporating Act of 1707 After 1707 Scottish maritime aspirations flourished under the protection of the British Navigation Acts and the windfalls of the endemic warfare at sea

Scottish Whalers David Dobson, 1995 **Dundee Whaling Fleet** Malcolm Archibald, 2019-06-01 At the end of the 19th century Dundee was Europe's premier Arctic whaling port From humble beginnings in the 1750s this national industry had survived French and American wars privateers economic slumps storms heart wrenching disasters and some amazing triumphs From 1860 until the 1880s Dundee built the most efficient Arctic vessels in the world Despite being only a small city on the east coast of Scotland as the 19th century closed it was the most important Arctic whaling port in Europe The Dundee Whaling Fleet gives an overview of Dundee's experience in Arctic whaling including a valuable guide to every ship in the fleet with statistics dates and a thumbnail history It also gives sketches of the most prominent of the whaling masters Dundee shipping companies and 350 of the tens of thousands of seamen who took the ships north **The British Whaling Trade** Gordon Jackson, 2017-10-18 This book provides a comprehensive economic history of the British Whaling Trade divided into two eras of significant technological difference The first part concerns the traditional whaling trades that structured the industry for three centuries from 1604 1914 The second part concerns the modern whaling trade between the years 1904 1963 characterised by technological advance and tremendous international competition Gordon Jackson approaches the enormous subject of British Whaling from the perspectives of both the national economy of Britain and the international whaling industry as a whole The book consults official statistical material to determine the size and performance of various whaling fleets eye witness accounts and state papers for the early history of the trade log books and trade and customs records for the eighteenth century and the documents of the Southern Whaling Company Salvesen and Unilever for insights into the modern whaling period The book concludes with appendices containing statistical data

concerning whale oil whale stocks and the price of goods two bibliographies of further reading and a conclusion that free competition and market demand simply exhausted whale stocks beyond any possibility of restoration **Apostle to the Inuit** Edmund James Peck,2006-01-01 Apostle to the Inuit presents the journals and ethnographical notes of Reverend Edmund James Peck an Anglican missionary who opened the first mission among the Inuit of Baffin Island in 1894 He stayed until 1905 and by that time had firmly established Christianity in the North He became known to the Inuit as Uqammaq the one who talks well His colleagues knew him as Apostle among the Eskimo Peck s diaries of the period focus on his missionary work and the adoption of Christianity by the Inuit and provide an impressive account of the daily life and work of the early missionaries in Baffin Island His ethnographic data was collected at the request of famed anthropologist Franz Boas in 1897 Peck conducted extensive research on Inuit oral traditions and presents several detailed verbatim accounts of shamanic traditions and practises This work continues to be of great value for a better understanding of Inuit culture and history but was never before published Apostle to the Inuit demonstrates how a Christian missionary who was bitterly opposed to shamanism became a devoted researcher of this complex tradition Editors Fr d ric Laugrand Jarich Oosten and Fran ois Trudel highlight the relationships between Europeans and Inuit and discuss central issues facing native peoples and missionaries in the North They also present a selection of fascinating drawings made by Inuit at the request of Peck which illustrate Inuit life on Baffin Island at the turn of the twentieth century The book offers important new data on the history of the missions among the Inuit as well as on the history of Inuit religion and the anthropological study of Inuit oral traditions

We Are All Whalers Michael J. Moore,2024-05-31 Relating his experiences caring for endangered whales a veterinarian and marine scientist shows we can all share in the salvation of these imperiled animals The image most of us have of whalers includes harpoons and intentional trauma Yet eating commercially caught seafood leads to whales entanglement and slow death in rope and nets and the global shipping routes that bring us readily available goods often lead to death by collision We all of us are whalers marine scientist and veterinarian Michael J Moore contends But we do not have to be Drawing on over forty years of fieldwork with humpback pilot fin and in particular North Atlantic right whales a species whose population has declined more than 20 percent since 2017 Moore takes us with him as he performs whale necropsies on animals stranded on beaches in his independent research alongside whalers using explosive harpoons and as he tracks injured whales to deliver sedatives The whales plight is a complex confounding and disturbing one We learn of existing but poorly enforced conservation laws and of perennial and often failed efforts to balance the push for fisheries profit versus the protection of endangered species caught by accident But despite these challenges Moore s tale is an optimistic one He shows us how technologies for ropeless fishing and the acoustic tracking of whale migrations make a dramatic difference And he looks ahead with hope as our growing understanding of these extraordinary creatures fuels an ever stronger drive for change For more information on Moore s book and research please visit his webpage at the Woods Hole Oceanographic Institution

The Dundee Whalers 1750-1914 Norman Watson, 2003-11-24 This is a study of what was Britain's leading whaling port. Today Dundee captains and the city's whaling fleet have a permanent place in the geography of the world. Cape Adams, Cape Milne, Arctic Bay and Eclipse Sound recall an era when the city's stoutly built ships, manned by heroic adventurers, discovered new routes, made new friends but seldom sailed far from danger. In Dundee itself, streets such as Whale Lane and Baffin Street serve as reminders of an era in which Dundee dominated the whaling grounds. Moreover, the Dundee fleet has excelled as polar exploration ships, providing vessels for Captain Scott, Ernest Shackleton and Admiral Byrd, leaving a permanent reminder of the city's historic role at Dundee Island, Antarctica. An appendix lists all the ships and their captains. A Zoologist on Baffin Island 1953 Adam Watson, 2011 The author spent four months in Baffin Island during 1953 as zoologist on a big expedition by the Arctic Institute of North America where he concentrated on studying birds and mammals. With Inuit hunter Samo, he travelled by dog sledge on the sea ice of coast and fjord. Afterwards, he crossed the mountains alone in deep snow to reach the site of his summer camp in a valley among some of the most spectacular peaks in the world. There he worked for most of the summer, usually alone. The valley and others nearby were and still are uninhabited and expedition members trod many places which had not been under human foot in recent centuries. His book is of special interest because of the many changes since, with the Inuit now mostly in towns with modern facilities and airports and using motor sledges for hunting. The author writes of many exciting days studying arctic animals, sometimes working with Swiss botanist Fritz Schwarzenbach and others and walking with heavy loads, sometimes in risky conditions. The beauty of the Arctic inspired and energised him. He writes vividly about the magnificent landscape, the 24-hour daylight, the endless variety of weather, snow and ice, the wonderful plants and animals in the brief summer of the far north. The Scottish Bankers Magazine, 1913
