radical newspapers and utopian novels it provides the first group portrait of Scotland's hitherto neglected sexual rebels. They include Bella and Charles Pearce prominent Glasgow socialists and disciples of an American based mystic who taught that religion needed resexed Jane Hume Clapperton a feminist freethinker with advanced views on birth control and women's right to sexual pleasure and Patrick Geddes founder of an avant garde Edinburgh subculture and co author of an influential scientific book on sex. A consideration of their lives and work forces a reappraisal of our understanding of British sexual progressivism during this period and will therefore be of interest to all historians of modern gender and sexuality.

Professional Women Painters in Nineteenth-Century Scotland Janice Helland, 2019-06-11. This title was first published in 2000. Women in the 19th century have long been presented as the angel in the house. The author rewrites this history by investigating the life and working conditions of a number of middle class women who sought to establish themselves as professional artists in Scotland. Contrary to the orthodox view preoccupied with oppression and difficulty the author demonstrates that women artists of the period were independent producers, teachers and travellers alert to changes in taste and fashion. They derived great pleasure from their work and enjoyed the benefits of women working together forming their own and joining existing professional associations. The book is not biographical but elaborates on the life and working conditions of middle class artists by discussing their work in terms of economic and social history.
