Scottish Literature An Anthology Scottish Literature:

Scottish Literature David McCordick, 1996 McCordick's Anthology presents in one place and for the first time so many English language Scottish works that it asks us to reconsider the very nature and achievement of Scottish literature. No other collection includes the quantity or depth of material that this anthology provides; these editions are destined to become the definitive anthology of the genre. Volume I includes 117 Scottish writers from the early Middle Ages to about 1775. Among its 432 works are the complete texts of *The King's Quair*, *The Testament of Cresseid*, *Squire William Meldrum*, *The Cherry and the Slae*, *A Cypress Grove*, *The Grave*, *The Castle of Indolence*, *Douglas and The Minstrel*. Intended for both the general reader and the student of literature, it contains introductions, notes, and marginal glosses. SCOTTISH Literature [Vol 1] David

McCordick, 1996 *Scottish Literature* Alan Riach, 2022-05-30 What do we mean by Scottish literature? Why does it matter? How do we engage with it? Bringing infectious enthusiasm and a lifetime's experience to bear on this multi-faceted literary nation, Alan Riach, Professor of Scottish Literature at the University of Glasgow, sets out to guide you through the varied and ever-evolving landscape of Scottish literature. A comprehensive and extensive work designed not only for scholars but also for the generally curious, *Scottish Literature* an introduction tells the tale of Scotland's many voices across the ages, from Celtic pre-history to modern mass media. Forsaking critical jargon, Riach journeys chronologically through individual works and writers, both the famed and the forgotten, alongside broad overviews of cultural contexts which connect texts to their own times. Expanding the restrictive canon of days gone by, Riach also sets down a new core body of Scottish Literature: key writers and works in English, Scots, and Gaelic. Ranging across time and genre, *Scottish Literature* an introduction invites you to hear Scotland through her own words. **The Mercat Anthology of Early Scottish Literature 1375-1707** R.D.S.

Jack, P.A.T. Rozendaal, 2008-10-30 This large-scale anthology of early Scottish Literature, now revised, has been designed as a teaching text for use by school and university students. Longer works are either presented complete (e.g. James I King's Quair) as long extracts with explanatory linking passages (e.g. Urquhart's *The Jewel*) or by sections which sum up the main themes and concerns of the text (e.g. Barbour's *Bruce*, Book I). There are full critical and linguistic introductions, brief biographical and bibliographical introductions for each author or sub-section. The texts have all been re-edited; every difficult word is glossed, and full explanatory notes appear at the foot of each page. A substantial Appendix presents texts in Latin, Scots, English, and Gaelic from the seventeenth century, demonstrating the vitality and interaction of these voices within the Scottish tradition. A noteworthy feature of the book is Professor Jack's Critical Introduction, *Where Stands Scottish Literature Now?* This challenges many widely held assumptions about Scottish literature. In particular, it seeks to explore the reasons behind the strange neglect of the writers of the seventeenth century. Basing its argument on the texts of the Anthology as a whole, it seeks to re-define the accepted canon and suggests an alternative way of approaching Scottish literary history. **The Edinburgh Anthology of Scottish Literature** Robert P. Irvine, 2009 This volume includes a selection of Scottish writing

from one of its most innovative periods the late eighteenth and early nineteenth centuries It ranges across literary genres from the controversial translations of James Macpherson's Ossian poems to the prose polemic of Thomas Carlyle It includes a wide selection from the poetry of Robert Burns and the short fiction of James Hogg and the complete texts of Joanna Baillie's play *De Monfort* Walter Scott's narrative poem *The Lay of the Last Minstrel* and John Galt's novel *Annals of the Parish* Footnotes elucidate historical and other references and Scots words are fully glossed The introduction places these texts in the dynamic historical context in which this extraordinary literary flourishing occurred Robert Irvine is Senior Lecturer in the Department of English Literature at the University of Edinburgh He is the author of books on Tobias Smollett Walter Scott and Jane Austen *The Mercat Anthology of Early Scottish Literature, 1375-1707* R.D.S. Jack, 2000 **The Edinburgh Anthology of Scottish Literature Concise Edition** Robert Irvine, 2009 Includes writings by James Macpherson Hugh Blair Robert Burns Joanna Baillie and Thomas Carlyle **The Kennedy & Boyd Anthology of Nineteenth-century Scottish Literature** Caroline McCracken-Flesher, 2010 Scottish literature was so pervasive the phenomenon sparked parodies like Sarah Greene's *Scotch Novel Reading 1824* This anthology invites readers to experience the liveliness of those times with all their innovations opportunities and raging debates General readers will be able to enjoy the sudden changes of a burgeoning literature They will also be guided toward a sense of the ongoing conceptual and literary struggles in a society that is challenged yet stimulated by conflicting forces Traffic between country town and city the tension between elites founded in class education or gender the idea of home set against the industry and empire that supported it and the new and adjusted genres allowed by manufacture e.g. the steam press kept Scottish authors in constant movement Students can develop an interest of their own then use the book's structural hints to track it Instructors can use the framework to connect easily to their own pedagogical focus in Scottish and other literatures **The Edinburgh Anthology of Scottish Literature Volume 2 Second Edition** Robert Irvine, 2011-01 This volume includes a selection of Scottish writing from the renaissance of Scottish writing at the end of the nineteenth and beginning of the twentieth centuries From the Highland and Lowland idylls of Fiona Macleod Ian Maclaren and J.M. Barrie to James Thomson's nightmare city and John Davidson's proto-Modernist portrayals of disillusioned consciousness and the urban scene from the sophisticated short fiction of Helen Findlater Violet Jacob and Willa Muir to the politically committed theatre of Joe Corrie these texts represent a cross section of the ways in which Scottish writers responded to the challenges of advanced industrial and imperial society Footnotes elucidate historical and other references and Scots words are fully glossed The introduction describes the literary and historical background against which these texts can be understood Robert Irvine is Senior Lecturer in the Department of English Literature at the University of Edinburgh He is the author of books on Tobias Smollett Walter Scott and Jane Austen **Pipers and Poets** Henrik Ploug, 1995
