Scottish Steam In The 1950s And 60s:

Scottish Steam in the 1950s and '60s David Anderson,1997 **Steam in Scotland** Kevin McCormack,2018-07-30 Kevin McCormack has written a large number of transport books mainly using previously unpublished material much of it sourced from the Online Transport Archive This his latest colour album covers the railways of Scotland in steam days and concentrates as much as possible on depicting older types of locomotives Consequently this volume contains a large amount of rare 1950s colour images often depicting areas of the Scottish railway system that were later closed or cut back during the Beeching era The pictures in this book were taken by enthusiasts who had the good fortune to be able to afford colour film at a time when such luxuries were very expensive to the average enthusiast All the photographers concerned travelled far and wide in Scotland with their cameras at a time just before most of the lines closed between 1953 1967 The result of all this effort is a fine collection of very rare images depicting a lost period of railway operation in a beautiful and picturesque part of Britain *British Diesel Locomotives of the 1950s and '60s* Greg Morse,2016-07-28 After the Second World War the drive for the modernisation of Britain s railways ushered in a new breed of locomotive the Diesel Diesel powered trains had been around for some time but faced with a coal crisis and the Clean Air Act in the 1950s it was seen as a part of the solution for British Rail This beautifully illustrated book written by an expert on rail history charts the rise and decline of Britain s diesel powered locomotives It covers a period of great change and experimentation where the iconic steam engines that had dominated for a century were replaced by a series of modern diesels including the ill fated Westerns and the more successful Deltics British Railways in the 1950s and '60s Greg Morse,2012-09-20 As Britain moved from austerity to prosperity in the 1950s and 1960s it became clear that British Railways needed to modernise its equipment and rationalise its network if it was to hold its own in the face of growing competition from road and air transport After attempting to maintain pre war networks and technology in the 1950s a reversal of policy in the 1960s brought line closures new liveries and the last breath of steam as Dr Beeching and his successors strove to break even and build a new business from the old From Britannia to the Blue Pullman Evening Star to Inter City Greg Morse takes us through this turbulent twenty year period which started with drab prospects and ended with BR poised to launch the fastest diesel powered train in the world The Rough Guide to Scottish Highlands & Islands Rob Humphreys,Darren (Norm) Longley,Helena Smith,James Stewart,Steve Vickers,2014-05-01 The new full colour Rough Guide to the Scottish Highlands Islands is the definitive travel guide to this untamed region with detailed stylish maps and stunning photography to bring it all to life From the deserted white strands of South Harris to moody Glen Coe this is the perfect place to drop off the radar whether you re camping wild or staying in a boutique bolthole The Munro summits are as much of a challenge as ever and the Highlands are also stuffed with myriad other opportunities for adventure from world class sea kayaking and mountain biking to near empty surf breaks Whether you re travelling by car bike or public transport the guide s comprehensive travel advice will help you navigate your way around easily and point you

Birds in North-East Scotland Then and Now Adam Watson,Ian Francis,2012 Field observations mainly in the 1940s and comparison with recent records Adam Watson as a schoolboy made field observations on birds in north east Scotland during the 1940s and early 1950s These are of special interest because hardly any local ornithologists lived there and his main set of observations is published here for the first time As well as accounts for all species seen there is detailed information on several species whose status has changed greatly since declines of breeding greenshanks and ring ouzels and rapid increases in the proportions of feral doves and carrion crows These and other observations form a useful baseline for comparison with what is now being seen and recorded by hundreds of ornithologists living in and visiting the area Ian Francis came to north east Scotland in the early 1990s and has taken part in many aspects of local ornithology He was first editor of a major book *The Breeding Birds of North East Scotland* published in 2011 which documents the current breeding distributions of birds and assesses changes over 40 years allowing a modern perspective on Adam Watson s observations from the mid 1900s The current book by Adam Watson and Ian Francis *Birds in north east Scotland then and now* also includes a previously unpublished account of long term research by Adam Watson Rik Smith and Mick Marquiss on summering snow buntings one of the UK s rarest regularly breeding birds
