Scott's Last Expedition in Two Volumes Robert Falcon Scott, 1914 Scott's Last Expedition, Vol. 1 of 2 R. F. Scott, 2015-07-21

Excerpt from Scott's Last Expedition Vol 1 of 2: Being the Journals of Captain R F Scott R N C V O Being the Reports of the Journeys and the Scientific Work Undertaken by Dr E A Wilson and the Surviving Members of the Expedition. Fourteen years ago Robert Falcon Scott was a rising naval officer, able, accomplished, popular, highly thought of by his superiors and devoted to his noble profession. It was a serious responsibility to induce him to take up the work of an explorer yet no man living could be found who was so well fitted to command a great Antarctic Expedition. The undertaking was new and unprecedented. The object was to explore the unknown Antarctic Continent by land. Captain Scott entered upon the enterprise with enthusiasm tempered by prudence and sound sense. All had to be learnt by a thorough study of the history of Arctic travelling combined with experience of different conditions in the Antarctic Regions. Scott was the initiator and founder of Antarctic sledge travelling. His discoveries were of great importance. The survey and soundings along the barrier cliffs, the discovery of King Edward Land, the discovery of Ross Island and the other volcanic islets, the examination of the Barrier surface, the discovery of the Victoria Mountains, a range of great height and many hundreds of miles in length which had only before been seen from a distance out at sea and above all the discovery of the great ice cap on which the South Pole is situated by one of the most remarkable polar journeys on record. His small but excellent scientific staff worked hard and with trained intelligence, their results being recorded in twelve large quarto volumes. The great discoverer had no intention of losing touch with his beloved profession though resolved to complete his Antarctic work. The exigencies of the naval service called him to the command of battleships and to confidential work of the Admiralty so that five years elapsed before he could resume his Antarctic labours. The object of Captain Scott's second expedition was mainly scientific to complete and extend his former work in all branches of science.
