Robert Falcon Scott

Scott's Last Biscuit:

Scott's Last Biscuit Sarah Moss, 2006 Thematically arranged Scott's Last Biscuit considers the morbid fascination of expeditions that go horribly wrong and the even greater interest attached to those that are rescued at the last minute paying particular attention to the impulse to find and even exhume long lost travellers Looking at risks ranging from frostbite and polar bears to starvation cannibalism and insanity it also analyses the enduring appeal of romanticized polar landscapes the relationship between nationhood and exploration and literary approaches to polar travel from Winnie the Pooh to Frankenstein Sarah Moss considers the representation of indigenous communities as well as women's writing about the far north She discusses Jenny Darlington's unjustly neglected American 1950s autobiography *My Antarctic Honeymoon* for protection against the polar winds I applied lipstick Letitia Hargraves moving and likeable journal of life as the wife of a Hudson's Bay Company factor in the early nineteenth century and Isobel Hutchinson's solitary travels around Greenland in the 1930s as a botanist for Kew Gardens BOOK JACKET

Brand Antarctica Hanne Elliot Fønss Nielsen, 2023-12 Antarctica is and has always been very much for sale Whales seals and ice have all been marketed as valuable commodities but so have the stories of explorers The modern media industry developed in parallel with land based Antarctic exploration and early expedition leaders needed publicity to generate support for their endeavors Their lectures narratives photographs and films were essentially advertisements for their adventures At the same time popular media began to use the newly encountered continent to draw attention to commercial products These advertisements both trace the commercialization of Antarctica and reveal how commercial settings have shaped the dominant imaginaries of the place By contextualizing and analyzing Antarctic advertisements from the late nineteenth century to the present Brand Antarctica identifies five key framings of the South Polar continent a place for heroes a place of extremity a place of purity a place to protect and a place that transforms Demonstrating how these conceptual framings of Antarctica in turn circulate through our culture Hanne Elliot Fønss Nielsen challenges common assumptions about Antarctica's past and present encouraging readers to rethink their own relationship with the Far South

Scott's Last Expedition Robert Falcon Scott, 1923 **Scott's Last Expedition** Robert Falcon Scott, 1913 *Scott's Last Expedition: Being the reports of the journeys and the scientific work undertaken by Dr. E.A. Wilson and the surviving members of the expedition* Robert Falcon Scott, 1913 *Science, Fiction, and the Fin-de-Siècle Periodical Press* Will Tattersdill, 2016-03-29 Explores the first appearance of science fiction in the pages of late nineteenth century general interest periodicals

Second Sight in the Nineteenth Century Elsa Richardson, 2017-06-02 This book explores the phenomenon of second sight in nineteenth century literature and culture Second sight is a form of prophetic vision associated with the folklore of the Scottish Highlands and Islands Described in Gaelic as the An da shealladh or the two sights those in possession of this extraordinary power are said to foresee future events like the death of neighbour the arrival of strangers into the community the success or failure of a fishing trip From the late seventeenth century onwards

rumours of this strange faculty attracted the attention of numerous scientists travel writers antiquarians poets and artists Focusing on the nineteenth century this book examines second sight in relation to mesmerism and phrenology modern spiritualism and anthropology romance literature and folklorism and finally psychical research and Celtic mysticism Tracing the migration of a supposedly Scottish tradition through various sites of nineteenth century popular culture it explores questions of nationhood and identity alongside those posed by supernatural phenomena **Writing Arctic Disaster**

Adriana Craciun,2016-03-10 This fascinating study examines how Victorian fixation on disastrous Northwest Passage expeditions has conditioned our understanding of the Arctic and Polar exploration The Routledge Handbook of the Polar Regions

Mark Nuttall,Torben R Christensen,Martin Siegert,2018-07-18 The Routledge Handbook of the Polar Regions is an authoritative guide to the Arctic and the Antarctic through an exploration of key areas of research in the physical and natural sciences and the social sciences and humanities It presents 38 new and original contributions from leading figures and voices in polar research policy and practice as well as work from emerging scholars This handbook aims to approach and understand the Polar Regions as places that are at the forefront of global conversations about some of the most pressing contemporary issues and research questions of our age The volume provides a discussion of the similarities and differences between the two regions to help deepen understanding and knowledge Major themes and issues are integrated in the comprehensive introduction chapter by the editors who are top researchers in their respective fields The contributions show how polar researchers engage with contemporary debates and use interdisciplinary and multidisciplinary approaches to address new developments as well as map out exciting trajectories for future work in the Arctic and the Antarctic The handbook provides an easy access to key items of scholarly literature and material otherwise inaccessible or scattered throughout a variety of specialist journals and books A unique one stop research resource for researchers and policymakers with an interest in the Arctic and Antarctic it is also a comprehensive reference work for graduate and advanced undergraduate students Critical Norths

Sarah Jaquette Ray,Kevin Maier,2017-05-15 For millennia the North has held a powerful sway in Western culture Long seen through contradictions empty of life yet full of promise populated by indigenous communities yet ripe for conquest pristine yet marked by a long human history it has moved to the foreground of contemporary life as the most dramatic stage for the reality of climate change This book brings together scholars from a range of disciplines to ask key questions about the North and how we've conceived it and how conceiving of it in those terms has caused us to fail the region's human and nonhuman life Engaging questions of space place indigeneity identity nature the environment justice narrative history and more it offers a crucial starting point for an essential rethinking of both the idea and the reality of the North
