Wilson,2001 **Surfaces** Avrum Stroll, Provides novel answers to two age old philosophical problems the epistemological problem of how perception is able to generate knowledge and the metaphysical problem of what it is that we perceive **Claude Cahun** Gen Doy,2020-08-13 This is the first single authored book in English on the photographer Claude Cahun whose work was rediscovered in the 1980s Doy moves beyond standard postmodern approaches instead repositioning the artist born Lucy Schwob in the context of the turbulent times in which she lived and seeing the photographs as part of Cahun s wider life as an artist and writer a woman and lesbian and as a political activist in the early twentieth century Doy rethinks Cahun s approach to dress and masquerade looking at the images in light of the situation of women at the time and within the prevailing beauty culture Addressing Cahun s ambivalent relationship with Symbolism and later relationship with Surrealism this highly readable book also looks at Cahun s unusual approach to the domestic object **Galileo's Visions** Marco Piccolino,Nicholas J. Wade,2014 In a fascinating and accessible style Marco Piccolino and Nick Wade analyse the scientific and philosophical work of Galileo Galilei from the particular viewpoint of his approach to the senses and especially vision as a means of acquiring trustworthy knowledge about the constitution of the world *Perspective* Peter Kerestur,2014-12-22 An ordinary man leaves his house for a routine drive to work in order to earn his daily bread Ten minutes into his drive he is stopped by the utility workers working on a piece of road damaged by the last night s torrential flood storm and his trip is inadvertently delayed Pressed by time to be still on time for work the legal system shows its true teeth and catches up on him Wrapping its claws around him the system arbitrarily turns his normally innocent trip into an unexpected nightmarish show of bureaucratic power on loose *Perspective* A driver s tale is an inexorable product of the modern democracy in its present decline and metamorphosis into yet another monstrous police state with some of its subliminal and chameleonic workings exposed The pen that catches only a fraction of the highly diversified destructive forces responsible for its decline is

sometimes vitriolic never apologetic always striving for objectivity and reason and its language at times effusive at others laconic all in service of clarity Its vocabulary ranges from simple homebound to complex technical in support of the moods that shift from funny hilarious sarcastic and ironic to iconoclastic expository satirical and heretical the dichotomy presupposed The panoply of expression is however and above all direct and unceremonious

Experimentalisms in Practice Ana R. Alonso-Minutti, Eduardo Herrera, Alejandro L. Madrid, 2018-01-02 Experimentalisms in Practice explores the multiple sites in which experimentalism emerges and becomes meaningful beyond Eurocentric interpretative frameworks Challenging the notion of experimentalism as defined in conventional narratives contributors take a broad approach to a wide variety of Latin and Latin American music traditions conceived or perceived as experimental The conversation takes as starting point the 1960s a decade that marks a crucial political and epistemological moment for Latin America militant and committed aesthetic practices resonated with this moment resulting in a multiplicity of artistic and musical experimental expressions Experimentalisms in Practice responds to recent efforts to reframe and reconceptualize the study of experimental music in terms of epistemological perspective and geographic scope while also engaging traditional scholarship This book contributes to the current conversations about music experimentalism while providing new points of entry to further reevaluate the field
