Looking-Glass Wars: Spies on British Screens since 1960 Alan Burton, 2018-01-31 *Looking Glass Wars Spies on British Screens since 1960* is a detailed historical and critical overview of espionage in British film and television in the important period since 1960. From that date the British spy screen was transformed under the influence of the tremendous success of James Bond in the cinema, the spy thriller, and of the new style spy writing of John le Carr and Len Deighton. The espionage story in the 1960s there developed a popular cycle of spy thrillers in the cinema and on television. The new study looks in detail at the cycle which in previous work has been largely neglected in favour of the James Bond films. The study also brings new attention to espionage on British television and popular secret agent series such as *Spy Trap*, *Quiller* and *The Sandbaggers*. It also gives attention to the more realistic representation of spying in the film and television adaptations of le Carr and Deighton and other dramas with a more serious intent. In addition there is wholly original attention given to nostalgic spy fictions on screen, adaptations of classic stories of espionage which were popular in the late 1970s and through the 1980s, and to historical spy fiction dramas which treated real cases of espionage and their characters, most notably the notorious Cambridge Spies. Detailed attention is also given to the secret state thriller, a cycle of paranoid screen dramas in the 1980s which portrayed the intelligence services in a conspiratorial light, best understood as a reaction to excessive official secrecy and anxieties about an unregulated security service. The study is brought up to date with an examination of screen espionage in Britain since the end of the Cold War. The approach is empirical and historical. The study examines the production and reception, literary and historical contexts of the films and dramas. It is the first detailed overview of the British spy screen in its crucial period since the 1960s and provides fresh attention to spy films, series and serials never previously considered.

Lee Marvin Robert J. Lentz, 2015-09-15 Lee Marvin did not receive his first starring film role until he was 40, but in three short years following the successes of *Cat Ballou* for which he won the Academy Award as Best Actor, *The Professionals* and especially *The Dirty Dozen* he was the most popular film actor in America. Marvin was a fascinating man, a loving husband and father, and one of the most natural, effective actors of his time. This is a comprehensive reference of the Oscar-winning actor's work. It includes biographical information on Marvin, an analysis of each of his 64 movies, chapters on his two television shows, *M Squad* and *Lawbreaker*, a listing of his television appearances, and a complete filmography which includes video availability. The work is supplemented with dozens of photographs and film stills.

Presenting Persis Khambatta Sherilyn Connelly, 2021-04-12 In 1965, 18-year-old Persis Khambatta became the third woman to be crowned Miss India. After moving to England and then to the United

States she found worldwide fame in the first Star Trek movie in 1979 and in 1980 she became the first Indian presenter at the Academy Awards. The American film industry seemed never to forgive Khambatta for being a non white woman who refused to do nude scenes. After failing to sustain a career as either a producer or a performer she achieved a triumph before her sudden death in 1998 with the publication of her book *Pride of India: A Tribute to Miss India*. Based on contemporary news articles and primary sources this first biography examines Khambatta's Hindi and English language film and television work and demonstrates the many ways she was ahead of her time as a filmmaker, feminist and humanitarian. *Screen World Presents the Encyclopedia of Hollywood Film Actors: From the silent era to 1965* Barry Monush, 2003 Applause Books. For decades Screen World has been the film professional's as well as the film buff's favorite and indispensable annual screen resource full of all the necessary statistics and facts. Now Screen World editor Barry Monush has compiled another comprehensive work for every film lover's library. Each listing includes a brief biography, photos from the famed Screen World archives with many rare shots, vital statistics, a comprehensive filmography and an informed, entertaining assessment of each actor's contributions, good or bad. In addition to every major player Monush includes the legions of unjustly neglected troupers of yesteryear. The result is a rarity, an invaluable reference tool that's as much fun to read as a scandal sheet. It pulsates with all the scandal, glamour, oddity and glory that was the lifeblood of its subjects. Contains over 1,000 photos. *The Risk Assessment Guidelines of 1986* United States. Environmental Protection Agency. Office of Health and Environmental Assessment, 1987. **Risk Analysis** John J. Cochrane, Vincent T. Covello, 1999-05. Designed for consumers of risk information this book offers a balance between the technical and nontechnical literature. The discipline of risk analysis has developed into an organized body of knowledge and methods only within the past 20 years. The passage of federal laws to protect public health and the environment has generated rapid growth in risk analysis in numerous fields. Statements of risk need to be understood to be useful to the public and environmental managers. This guidebook provides a tool for understanding risk analysis. Chapters: overview of risk analysis, hazard identification, risk assessment and risk communication. **Reading Hollywood** Deborah Thomas, 2019-07-25. This book examines the treatment of space and narrative in a selection of classic films including *My Darling Clementine*, *It's a Wonderful Life* and *Vertigo*. Deborah Thomas employs a variety of arguments in exploring the reading of space and its meaning in Hollywood cinema and film generally. Topics covered include the importance of space in defining genre such as the necessity of an urban landscape for a gangster film to be a gangster film, the ambiguity of offscreen space and spectatorship, how an audience reads an unseen but inferred setting and the use of spatially disruptive cinematic techniques such as flashback to construct meaning. [International Encyclopedia of Ergonomics and Human Factors - 3 Volume Set](#) Informa Healthcare, Waldemar Karwowski, 2006-03-15. The previous edition of
