Scripture And Metaphysics Aquinas And The Renewal Of Trinitarian Theology:

Scripture and Metaphysics Matthew Levering, 2008-04-15 This book makes a major contribution to contemporary theological and philosophical debates bridging scriptural and metaphysical approaches to the triune God Bridges the gap between scriptural and metaphysical approaches to biblical narratives Retrieves Aquinas's understanding of theology as contemplative wisdom Structured around Aquinas's treatise on the triune God in his Summa Theologiae Argues that intellectual contemplation is part of a broader spiritual journey towards a better understanding of God Contributes to the current resurgence of Thomistic theology in both Protestant and Catholic circles Remythologizing Theology Kevin J. Vanhoozer, 2010-01-14 Kevin J. Vanhoozer develops a new vision of Christian theism by establishing divine communicative action as the formal and material principle of theology His contribution revisits long standing controversies such as the relations of God's sovereignty to human freedom time to eternity and suffering to love **Spirit Christology and Trinity in the Theology of David Coffey** Declan O'Byrne, 2010 Studies in Theology Society and Culture invites scholarly contributions to themes including patterns of secularisation postmodern challenges to religion and the relation of faith and culture From a theological perspective it seeks constructive re-interpretations of traditional Christian topics including God creation salvation Christology ecclesiology in a way that makes them more credible for today It also welcomes studies on religion and science and on theology and the arts **Muhammad Reconsidered** Anna Bonta Moreland, 2020-03-30 Muhammad Reconsidered rectifies the failures of scholarly attempts to understand Islam in the West and to take Islamic theology seriously Engaging Islam from deep within the Christian tradition by addressing the question of the prophethood of Muhammad Anna Bonta Moreland calls for a retrieval of Thomistic thought on prophecy Without either appropriating the prophet as an unwitting Christian or reducing both Christianity and Islam to a common denominator Moreland studies Muhammad within a Christian theology of revelation This lens leads to a more sophisticated understanding of Islam one that honors the integrity of the Catholic tradition and argues for the possibility in principle of Muhammad as a religious prophet Moreland sets the stage for this inquiry through an intertextual reading of the key Vatican II documents on Islam and on Christian revelation She then uses Aquinas's treatment of prophecy to address the case of whether Muhammad is a prophet in Christian terms Muhammad Reconsidered examines the work of several Christian theologians including W. Montgomery Watt Hans K. ng Kenneth Cragg David Kerr and Jacques Jomier O. P. and then draws upon the practice of analogical reasoning in the theology of religious pluralism to show that a term in one religion in this case prophecy can have purchase in another religious tradition Muhammad Reconsidered not only is a constructive contribution to Catholic theology but also has enormous potential to help scholars reframe and comprehend Christian-Muslim relations **Divine Illumination** Lydia Schumacher, 2011-04-18 In Divine Illumination Schumacher offers an original approach to Augustine's theory of divine illumination the precondition of all human knowledge Written with great originality and clarity she traces the idea through medieval thinkers into early

modernity and reveals its importance in modern theories of knowledge Takes an original approach to reading Augustine s theory of divine illumination and shows how the theory was transformed and reinterpreted in medieval philosophy and theology Presents a groundbreaking way of thinking about the writings of Augustine Anselm Bonaventure Aquinas and John Duns Scotus and relates this to cutting edge questions in contemporary philosophy of religion especially epistemology Is a significant contribution to the history of philosophy but also to contemporary debates on faith and reason Lays the foundation for future efforts to come to terms with the contemporary epistemological situation and its inherent problems In Adam's Fall Ian A. McFarland,2010-10-18 IN ADAM S FALL Few doctrines of Christian teaching are more controversial than original sin For how is it possible to affirm the universality of sin without losing sight of the distinct ways in which individuals are both responsible for and suffer the consequences of sinful behavior In considering the Christian doctrine of original sin McFarland challenges many prevailing views about it He shows us that traditional Christian convictions regarding humanity s congenital sinfulness neither undermine the moral accountability of sin s perpetrators nor dampen concern for its victims Responding to both historic and contemporary criticism of the doctrine In Adam s Fall reveals how the concept of original sin is not only theologically defensible but stimulating and productive for a life of faith Drawing on both the classical formulations of Augustine and the Christology of Maximus the Confessor McFarland proposes a radical reconstruction of the doctrine of original sin one that not only challenges contemporary Western visions of human autonomy but emphasizes the integrity of each individual called by God to a unique and irreplaceable destiny Engagingly written and infused with scholarly sophistication In Adam s Fall offers refreshingly original insights into the contemporary relevance of a doctrine of Christian teaching that has inspired fierce debate for over 1 500 years Principles of Catholic Theology Thomas Joseph White,2023

Divine Simplicity Steven J. Duby,2015-12-17 Steven J Duby examines the doctrine of divine simplicity This discussion is centered around the three distinguishing features grounding in biblical exegesis use of Thomas Aquinas and the Reformed Orthodox and the writings of modern systematic and philosophical theologians Duby outlines the general history of the Christian doctrine of divine simplicity and discusses the methodological traits and essential contents of the dogmatic account He substantiates the claims of the doctrine of divine simplicity by demonstrating that they are implied and required by the scriptural account of God Duby considers how simplicity is inferred from God s singularity and aseity as well as how it is inferred from God s immutability and infinity and the Christian doctrine of creation The discussion ends with the response to major objections to simplicity namely that the doctrine does not pay heed to the plurality of the divine attributes that it eradicates God s freedom in creating the world and acting toward us and that it does not cohere with the personal distinctions to be made in the doctrine of the Trinity **Identity and Coherence in Christology** Paul S. Scott,2023-09-29 This book explores a number of closely related logical and metaphysical questions relating to the identity of Jesus Christ In particular it considers What does Jesus Christ name and How may Jesus Christ be the subject of both divine and human

attributes given their apparent incompatibility The author draws on analytic and scholastic influences and integrates them into a rehabilitation of the neglected habitus theory of the hypostatic union The theory maintains a real identity between Christ and the Word and emphasises the instrumental or possessory dimension of Christ's relationship to his human nature This approach allows for an account of the hypostatic union that is true to the indispensable articles of classical Christology and which satisfies the demands of logical coherence Yet at no point is the mystery of the Incarnational event reduced to the strictures of creaturely comprehension The book will be of particular interest to scholars of Christology analytic theology and the philosophy of religion

Christian Theologies of Scripture Justin S. Holcomb, 2006-04 All religious traditions that ground themselves in texts must grapple with certain questions concerning the texts authority Yet there has been much debate within Christianity concerning the nature of scripture and how it should be understood a debate that has gone on for centuries *Christian Theologies of Scripture* traces what the theological giants have said about scripture from the early days of Christianity until today It incorporates diverse discussions about the nature of scripture its authority and its interpretation providing a guide to the variety of views about the Bible throughout the Christian tradition Preeminent scholars including Michael S Horton Graham Ward and Pamela Bright offer chapters on major figures in the pre modern reformation and early modern eras from Origen and Aquinas to Luther and Calvin to Barth and Balthasar They illuminate each thinker's understanding of the Christian scriptures and their views on interpreting the Bible The book also includes overview chapters to orient readers to the key questions regarding scripture in each era as well as chapters on scripture and feminism scripture in the African American Christian tradition and scripture and postmodernism This volume will be indispensable reading for students and all those interested in the nature and authority of Christian scripture
