Scripture Of The Lotus Blossom Of The Fine Dharma The Lotus Sutra:

Scripture of the Lotus Blossom of the Fine Dharma ,1976 *Scripture of the Lotus Blossom of the Fine Dharma (the Lotus Sūtra)* ,2009 Originally published in 1976 Leon Hurvitz s monumental translation of the Lotus Sutra is the work scholars have preferred for decades Hailed by critics as an extraordinary and magnificent achievement Hurvitz s translation is based on the best known Chinese version of the text and includes passages of the original Sanskrit that were omitted from the Chinese Beloved for its mythology and literary artistry the Lotus Sutra is one of the most popular and influential texts of Mahayana Buddhism asserting that there is only one path to enlightenment the bodhisattva path and that all followers without exception can achieve supreme awakening The text argues that the Buddha cannot be delimited by time and space and that a common intent underlies the diversity of Buddhist teachings Through parables of the burning house the wayward son and other tales that have come to be known throughout East Asia the sutra skillfully concretizes abstract religious concepts and clarifies bold claims about the Buddhist tradition Urging devotees to revivify doctrine through recitation and interpretation the sutra powered an organic process of remaking that not only kept its content alive in the poetry and art of premodern Asia but also introduced new forms of practice and scriptural study into contemporary Buddhism Stephen F Teiser s foreword addresses this vital quality of the sutra discusses its background and reflects on the enduring relevance of Hurvitz s critical work **Sadharmapundarika: The Lotus Sutra** M. G. Chitkara,1999 **The Lotus Sutra** ,2019-12-21 This poetic adaptation of the Lotus Sutra is faithful to the English translation by Dutch scholar Hendrik Kern Oxford 1909 from a Sanskrit manuscript written on palm leaves found in Nepal in 1039 This poem is not based on the Chinese version of Kumarajiva The poem is presented in two column format in easily readable lines of verse for daily sutra reading and recitation The stanza numbers were unembedded from the text The original introduction and footnotes were omitted Comments and notes were incorporated when they were applicable Sanskrit names and terms are set with modern diacritical marks An index with expanded entries is included The Lotus Sutra is also known as the Saddharma Pundar ka Sutra or the Lotus of the True Law It is one of the most important and influential scriptures and literary works in Mahayana Buddhism This religious classic is adored revered and subject to intense veneration by millions who use it as a manual for prayer chanting and meditation This major treatise in Mahayana Buddhism places greater emphasis on devotion and worship than meditation or other practices This sutra has an extensive cast of characters including the Buddha and other innumerable Buddhas Bodhisattvas gods and humans in vast cosmic and fantastic settings for the telling of parables stories and sermons The One Vehicle concept of Mahayana Buddhism is explained In the manuscript it is stated that a person derives great merit from reading writing and the propagation of the Lotus Sutra **The Built Surface: v. 1: Architecture and the Visual Arts from Antiquity to the Enlightenment** Christy Anderson,Karen Koehler,2017-11-22 This title was first published in 2002 Since antiquity through to the present architecture and the pictorial arts paintings photography graphic arts have not

been rigidly separated but interrelated the one informing the other and establishing patterns of creation and reception In the Classical tradition the education of the architect and artist has always stressed this relationship between the arts although modern scholarship has too often treated them as separate disciplines These volumes explore the history of this exchange between the arts as it emerged from classical theory into artistic and architectural practice Issues of visual representation perspective allegory site specificity ornamentation popular culture memorials urban and utopian planning and the role of treatises manifestos and other theoretical writings are addressed as well as the critical reaction to these products and practices This title represents a variety of methods approaches and dialectical interpretations cases where architecture informs the themes and physical space of pictures or pictorial concerns inform the design and construction of the built environment The exchanges between architecture and pictures explored by these authors are found to be in all cases ideologically potent and therefore significantly expressive of their respective social political and intellectual histories

The Innate Capacity Robert K. C. Forman, 1998 This book is the sequel to Robert Forman's well received collection *The Problem of Pure Consciousness* Oxford 1990 The essays in the earlier volume argued that some mystical experiences do not seem to be formed or shaped by the language system a thesis that stands in sharp contradistinction to deconstruction in general and to the constructivist school of mysticism in particular which holds that all mysticism is the product of a cultural and linguistic process In *The Innate Capacity* Forman and his colleagues put forward a hypothesis about the formative causes of these pure consciousness experiences All of the contributors agree that mysticism is the result of an innate human capacity rather than a learned socially conditioned and constructive process The innate capacity is understood in several different ways Many perceive it as an expression of human consciousness per se awareness itself Some hold that consciousness should be understood as a built in link to some hidden transcendent aspect of the world and that a mystical experience is the experience of that inherent connectedness Another thesis that appears frequently is that mystics realize this innate capacity through a process of releasing the hold of the ego and the conceptual system The contributors here look at mystical experience as it is manifested in a variety of religious and cultural settings including Hindu Yoga Buddhism Sufism and medieval Christianity Taken together the essays constitute an important contribution to the ongoing debate about the nature of human consciousness and mystical experience and its relation to the social and cultural contexts in which it appears
