Guffey, 2019-10-10 The images in the book of Revelation confound even the most seasoned of interpreters In this book Andrew R. Guffey argues that part of the confusion stems from the fact that the book of Revelation was first and foremost a work to be seen but that few interpreters address the visuality of the book The Book of Revelation and the Visual Culture of Asia Minor describes a connection between rhetorical discussions of ekphrasis visual culture and John's images a concurrence of images using theory and thick historical description Guffey's analysis situates the text and its rhetorical performativity in the context of ancient visual and rhetorical culture arguing that Revelation is not merely a work of literary craft but also of visual culture **The Christian Effect on Jewish Life** Michael Hilton, 1994 A Reform rabbi's scholarly

Beyond the Essene Hypothesis Gabriele Boccaccini,1998-03-30 Convincingly argued this work will surely spark fresh debate in the discussion on the Qumran community and the famous Dead Sea Scrolls *The History of the Second Temple Period* Paolo Sacchi,2004-12-13 This book represents the fruit of a long process of study and reflection a powerful but subtle synthesis by one of the most eminent scholars of Second Temple Judaism Far from a conventional narrative history it is organized around themes and seeks to uncover the essence of Hebraic Jewish religious thinking while confronting the phenomenon of its division into several parties and traditions Drawing also on recent studies of Christianity as a Judaism Sacchi provides a stimulating perspective on the nature of ancient Oriental and Occidental thought and the intellectual and spiritual heritage of European civilization *The Invention of Judaism* John J. Collins,2017-02-21 Judaism is often understood as the way of life defined by the Torah of Moses but it was not always so This book identifies key moments in the rise of the Torah beginning with the formation of Deuteronomy advancing through the reform of Ezra the impact of the suppression of the Torah by Antiochus Epiphanes and the consequent Maccabean revolt and the rise of Jewish sectarianism It also discusses variant forms of Judaism some of which are not Torah centered and others which construe the Torah through the lenses of Hellenistic culture or through higher apocalyptic revelation It concludes with the critique of the Torah in the writings of Paul Provided by publisher [The Literature of the Jewish People in the Period of the Second Temple and the Talmud, Volume 2 Jewish Writings of the Second Temple Period](#) Michael Stone,1984-01-01 Series Compendia Rerum Iudaicarum ad Novum Testamentum Section 1 The Jewish people in the first century Historical geography political history social cultural and religious life and institutions Edited by S Safrai and M Stern in cooperation with D Flusser and W C van Unnik Section 2 The Literature of the Jewish People in the Period of the Second Temple and the Talmud Section 3 Jewish Traditions in Early Christian Literature **Life After Death** Alan Segal,2010-06-23 A magisterial work of social history Life

After Death illuminates the many different ways ancient civilizations grappled with the question of what exactly happens to us after we die. In a masterful exploration of how Western civilizations have defined the afterlife, Alan F. Segal weaves together biblical and literary scholarship, sociology, history, and philosophy. A renowned scholar, Segal examines the maps of the afterlife found in Western religious texts and reveals not only what various cultures believed but how their notions reflected their societies' realities and ideals and why those beliefs changed over time. He maintains that the afterlife is the mirror in which a society arranges its concept of the self. The composition process for Judaism, Christianity, and Islam begins in grief and ends in the victory of the self over death. Arguing that in every religious tradition the afterlife represents the ultimate reward for the good, Segal combines historical and anthropological data with insights gleaned from religious and philosophical writings to explain the following mysteries: why the Egyptians insisted on an afterlife in heaven while the body was embalmed in a tomb on earth; why the Babylonians viewed the dead as living in underground prisons; why the Hebrews remained silent about life after death during the period of the First Temple yet embraced it in the Second Temple period (534 B.C.E. to 70 C.E.) and why Christianity placed the afterlife in the center of its belief system. He discusses the inner dialogues and arguments within Judaism and Christianity, showing the underlying dynamic behind them as well as the ideas that mark the differences between the two religions. In a thoughtful examination of the influence of biblical views of heaven and martyrdom on Islamic beliefs, he offers a fascinating perspective on the current troubling rise of Islamic fundamentalism. In tracing the organic historical relationships between sacred texts and communities of belief and comparing the visions of life after death that have emerged throughout history, Segal sheds a bright, revealing light on the intimate connections between notions of the afterlife, the societies that produced them, and the individual's search for the ultimate meaning of life on earth.
