Afghanistan Morton examines our centuries old relationship to war and its consequences This updated edition also includes a new chapter on Canada s place in the war on terrorism A Military History of Canada is an engaging and informative chronicle of Canada at war from one of the country s finest historians "Our Gallant Doctor" James Goodwin,2007-04-30 During the Battle of the Atlantic Dr George Hendry had just finished performing two major surgical operations on board the destroyer HMCS Ottawa when his ship was ambushed by 13 German U boats Canadian warships like Ottawa had inadequate radar sets that were incapable of detecting submarines approaching in the dark On September 13 1942 U 91 stole in and torpedoed Ottawa sinking her in 20 minutes utterly exhausted Dr Hendry was lost along with 113 of his shipmates George Hendry was a much loved man a great university athlete and a very good doctor Unfortunately he was also naive and too trusting One night in January 1941 he committed a very foolish indiscretion He would spend the rest of his tragically short life making amends for this mistake **Left, Right** Engler Yves Engler,2019-10-15 The left is supposed to be opposed to colonialism and at least skeptical of nationalism However Left Right shows that for decades now this hasn t been the case in Canada Yves Engler marshals damning detail on the long surprising history of support from the New Democratic Party and labor unions for such policies and international interventions as the coup in Haiti the assassination of Patrice Lumumba the Bay of Pigs invasion the Korean War and much more The rhetoric of the mainstream left he shows has also tended to concede major points to the dominant war mongering ideology with prominent commentators such as Linda McQuaig and Stephen Lewis echoing the terminology of right wing politicians and thinkers More than simply diagnosing a problem however Left Right offers a path forward laying out ways to get us working for an ecologically sound peace promoting and non exploitative foreign policy

Canadian Defence Quarterly, 1990 **King George V-Class Battleships** Daniel Knowles, 2022-04-08 Following the First World War the major naval powers entered into an agreement restricting the construction of capital ships and limiting

the numbers that signatories were allowed to maintain so numerous ships were scrapped or disposed of and the majority of planned vessels were either cancelled whilst being built or never laid down. By the late 1920s the Royal Navy's battle force comprised of the two Nelson class ships the battlecruisers Hood, Renown and Repulse and Revenge and Queen Elizabeth class ships all designed before the First World War. In 1928 the Royal Navy began planning a new class of battleships which was put on hold with the signing of the Treaty of London. In 1935 realising its battle fleet was becoming dated as other nations laid down new classes of battleships the Royal Navy recommenced planning capital ships within treaty limitations. The result was the King George V class battleships. Regarded by some as the worst new generation battleships in the Second World War the King George V class were Britain's most modern battleships during the conflict and saw action in some of the most famous engagements from the sinking of the Bismarck in 1941 to the surrender of Japan in 1945. This book charts the story of the King George V class from its conception and design through to the operational history of the ships in the class.

Maritime History at the Crossroads Frank Broeze, 2017-10-18. This volume seeks to critically review the contemporary state of maritime historiography as it stands at the volume's publication date of 1995. The volume is comprised of thirteen essays each focused on the recent research into the maritime concerns of a particular geographical location listed as follows: Australia, Canada, China, Denmark, Germany, Greece, Ibero America, India, the Netherlands, the Ottoman Empire, Spain, the United States and a final chapter concerning historians and maritime labour in Britain, Australia and New Zealand. One concern made evident by the collection is the lack of stable identity and cohesive aims within maritime history; the subject holds many conflicting definitions and concepts. The purpose of this volume is to explore the recent developments in maritime history plus the growth of scholarly interest to provide a beacon and stimulus for future work and to clearly direct and define maritime historiography toward a solid position in the field of history.

The Enduring Crown Commonwealth Michael J. Smith, Stephen Klimczuk-Massion, 2023-05-15. The controversial Netflix series *The Crown* covers the tumultuous period from the Queen's accession in 1952 to the present day and so does this book which explores the rise, decline and to some unexpected rebound of the historic UK, Canada, Australia and New Zealand alliance. While a post-Brexit and post-Elizabethan Britain seeks a new role in today's volatile world its traditional partner countries also recognise the logic of reinvigorating their relationship based on a multitude of still strong cultural, economic, political and military ties including the monarchy as a uniquely shared global and not merely British institution. But this wasn't always the case. Although in the 1950s commentators spoke of a new Elizabethan Age with much postwar hope across the Commonwealth that optimism quickly faded. By the 1970s many thought Britain washed up and that Crown and Commonwealth ties and allegiance were becoming obsolete. Perhaps unsurprisingly the four countries increasingly went their separate ways. So a groggy time traveller from that period appearing in London, Toronto, Sydney or Auckland today would be taken by surprise by the durability of the Crown even as it has passed to King Charles and the growing reconvergence of the four CANZUK realms in terms of trade, defence

foreign policy coordination freedom of movement mutual recognition of professional qualifications and other new or revived links This book evocatively tells the whole story of where we are what is possible for the future and not least how we got here In today's age of global instability and raw power politics this renewed Anglosphere Crown Commonwealth alliance is more important and relevant than ever *Tirpitz* Daniel Knowles,2018-04-17 **Angus L. Macdonald** T. Stephen Henderson,2007-04-21 Perhaps one of the most influential Canadian premiers of the Twentieth Century and one of the leading political intellectuals of his generation Angus L Macdonald dominated politics in Nova Scotia for more than twenty years serving as premier from 1933 to 1940 and again from 1945 until his death in 1954 One rival referred to him as the pope out of respect for his political infallibility From 1940 to 1945 Macdonald guided Canada's war effort at sea as Minister of National Defence for Naval Services under his watch the Royal Canadian Navy expanded faster than any other navy in the world This new work by T Stephen Henderson is the first academic biography of Macdonald whose life provides a framework for the study of Canada's pre and post war transformation and a rare opportunity to compare the political history of the two periods Generally Macdonald's political thinking reflected a progressive interwar liberalism that found its clearest expression in the 1940 Rowell Sirois report on federal provincial relations The report proposed a redistribution of responsibilities and resources that would allow poorer provinces greater autonomy and reduce overlapping jurisdictions in the federal system Ottawa abandoned Rowell Sirois in the postwar period and Macdonald fell out of step with the national Liberal party that he had once seemed destined to lead Within Nova Scotia however his ardent defence of provincial powers and his commitment to building a modern infrastructure enabled him to win election after election and transform the face and identity of his province
