[Sea Kayaking](#) Philip Woodhouse, 2013-12-16 *In Sea Kayaking* comprehensive guide for those who travel the open waters in the Southern Hemisphere. Philip Woodhouse, Australian paddler and Royal Australian Air Force veteran shares his years of experience, technical training and military teaching skills. What began as a personal reference was soon developed as a training manual recommended by the Victorian Sea Kayak Club to its members and East Coast Kayaking to their patrons and Australian Canoeing students. *Sea Kayaking* covers boat design, kit requirements, paddling skills, health and well-being, meteorology, the ocean environment, navigation, communications, conservation and minimal impact camping, conservation, seamanship, electrical, bilge pumps, solar panels, light sources, boat repairs, leadership, risk management, basic safety and survival strategies as well as a brief overview about the history and various types of canoeing. There is also a comprehensive glossary to assist the reader in understanding the terms and concepts discussed in the main text. Woodhouse's work differs from most manuals about sea kayaking in that it is written from the perspective of someone who paddles the Southern Hemisphere. As such, the major differences between the two hemispheres, weather patterns, navigation laws and terminology are discussed as well as compared to their Northern Hemisphere counterparts. In the end, paddling skills are paddling skills, hypothermia is hypothermia and twenty-five knot winds are twenty-five knot winds. A three-metre tidal range can still produce a long haul across mud flats when the tide is out and landing through two-metre surf is still scary, though a lot of fun no matter where you paddle. [Sailing: A Woman's Guide](#) Doris Colgate, 1999-01-22 Doris Colgate knows what women want.
