RSPB Seabirds Marianne Taylor, 2016-07-28 A lavish celebration of the seabirds of the British Isles Seabirds are the living links between land air and sea They enjoy a freedom that even humans with all our technological assistance can barely imagine Many species travel mind boggling distances across the length and breadth of our planet before returning to land to breed in large deafening and confusingly crowded colonies Yet within this commotion each mated pair forms a bond of extreme closeness and tenderness that survives separation each winter and may persist for decades The long and geologically varied coastline of the British Isles provides homes for internationally important numbers of breeding seabirds Visiting their colonies is always unforgettable whether they are cliff faces packed with Guillemots islands white capped by clustered Gannets on their nests flat beaches crowded with screaming Arctic Terns or seaside rooftops overlaid with a second townscape of nesting gulls The changing fortunes of these seabird cities reveal to us the health of the vast unseen but incredibly rich marine world that surrounds us RSPB Seabirds showcases some of our most exciting and enigmatic bird species as vital and living components of one of our greatest natural assets our coastline The author presents detailed biographies of all the seabird species that breed in and around the British Isles and also looks at the many species that breed

elsewhere but which regularly or occasionally visit British waters Every page of this sumptuous book features beautiful photographs of wild seabirds engaged in their daily work of hunting travelling protecting themselves and their territories courting and raising a family

Burnout Hannah Proctor, 2024-04-09 In the struggle for a better world setbacks are inevitable Defeat can feel overwhelming at times but it has to be endured How then do the people on the front line keep going To answer that question Hannah Proctor draws on historical resources to find out how revolutionaries and activists of the past kept a grip on hope Burnout considers despairing former Communards exiled to a penal colony in the South Pacific exhausted Bolsheviks recuperating in sanatoria in the aftermath of the October Revolution an ex militant on the analyst's couch relating dreams of ruined landscapes Chinese peasants engaging in self criticism sessions a political organiser seeking advice from a spiritual healer civil rights movement activists battling weariness and a group of feminists padding a room with mattresses to scream about the patriarchy Jettisoning self help narratives and individualizing therapy talk Proctor offers a different way forward neither denial nor despair Her cogent exploration of the ways militants have made sense of their own burnout demonstrates that it is possible to mourn and organise at once and to do both without compromise

American Tantalus Andrew Warnes, 2014-10-23 American Tantalus argues that modern US fictions often grow preoccupied by tantalisation This keyword might seem commonplace thesauruses certainly often lump it in with tease and torment in their general inventories of desire Such lists however mislead Just as most US dictionaries have in fact long recognised tantalise's origins in The Odyssey so they have defined it as the unique desire we feel for objects that like the fruit and water once cruelly placed before Tantalus lie within our reach yet withdraw from our attempts to touch them On these terms American Tantalus shows tantalise not only describes a particular kind of thwarted desire but also one that dominates modern US fiction to a remarkable extent For this term specifically evokes the yearning to touch alienated or virginal objects that we find examined by F Scott Fitzgerald Toni Cade Bambara Richard Wright and Toni Morrison and it also indicates the insatiable pursuit of the horizon so important to Willa Cather and Edith Wharton among others This eclectic canon indeed prefers the dictionary to the thesaurus unreachable destinations and untouched commodities here indeed tantalise inviting gestures of inquiry from which they then recoil This focus while lodging cycles of tantalisation at the very heart of American myth holds profound implications for our understanding of modernity and in particular of the cultural genesis of the commodity as a form

Black Women Writers at Work Claudia Tate, 2023-01-10 Black women writers and critics are acting on the old adage that one must speak for oneself if one wishes to be heard Claudia Tate from the introduction Long out of print Black Women Writers At Work is a vital contribution to Black literature in the 20th century Through candid interviews with Maya Angelou Toni Cade Bambara Gwendolyn Brooks Alexis Deveaux Nikki Giovanni Kristin Hunter Gayl Jones Audre Lorde Toni Morrison Tillie Olson Sonia Sanchez Ntozake Shange Alice Walker Margret Walker and Shirley Anne Williams the book highlights the practices and

critical linkages between the work and lived experiences of Black women writers whose work laid the foundation for many who have come after Responding to questions about why and for whom they write and how they perceive their responsibility to their work to others and to society the featured playwrights poets novelists and essayists provide a window into the connections between their lives and their art Finally available for a new generation this classic work has an urgent message for readers and writers today

"Black People Are My Business" Thabiti Lewis, 2020-09-08 Exploration of Bambara's practices of liberation that encourage resistance to oppression and solidarity Black People Are My Business Toni Cade Bambara's Practices of Liberation studies the works of Bambara 1939-1995 an author documentary filmmaker social activist and professor Thabiti Lewis's analysis serves as a cultural biography examining the liberation impulses in Bambara's writing which is concerned with practices that advance the material value of the African American experience and exploring the introspection between artist production and social justice This is the first monograph that focuses on Bambara's unique approach and important literary contribution to 1970s and 1980s African American literature It explores her unique nationalist feminist Marxist and spiritualist ethos which cleared space for many innovations found in black women's fiction Divided into five chapters Lewis's study relies on Bambara's voice from interviews and essays to craft a spiritual wholeness aesthetic a set of principles that comes out of her practices of liberation and entail family faith feeling and freedom that reveals her ability to interweave ethnic identity politics and community engagement and responsibility with the impetus of balancing black male and female identity influences and interactions within and outside the community One key feature of Bambara's work is the concentration on women as cultural workers whereby her notion of spiritual wholeness upends what has become a scholarly distinction between feminism and black nationalism Bambara's fiction situates her as a pivotal voice within the Black Arts Movement and contemporary African American literature Bambara is an understudied and important artistic voice whose aversion to playing it safe both personified and challenged the boundaries of black nationalism and feminism Black People Are My Business is a wonderful addition to any reader's list especially those interested in African American literary and cultural studies

Culliney, 2005-11-30 First published in 1988 *Islands in a Far Sea* offers a comprehensive environmental history of Hawai i This thoroughly revised edition begins with an up to date account of the geological formation and shaping of the Islands their colonization by plants and animals and the patterns of ecology and evolution that unfolded in nurturing seas and on breath taking landscapes This book tells the story of human interaction with Hawai i s native landscapes and rich biological heritage The author s accessible language allows readers to grasp basic geological and biological principles and to understand the perhaps surprising vulnerability of Hawaiian ecosystems which have coevolved with volcanoes to human impact *Islands in a Far Sea* includes many well documented historical examples of such impacts featuring growth and greed fears and foibles as humans confronted endemic nature in Hawai i Citing a large array of sources the author makes it possible for interested readers to probe more deeply the changes in natural systems that have ensued on all of the Hawaiian Islands To date the result has been the tragic reduction of a unique and benign biota However the book holds out hope that current efforts to protect what is left of Hawai i s flora and fauna in their remaining wild settings may yet succeed Bird-life, tr. by H.M.
