My Life with Sea Turtles Christine Figgenger, 2024-05-21 A WONDERFUL READ Christine's deep love for turtles comes through on each page CRAIG FOSTER MY OCTOPUS TEACHER Will appeal to anyone interested in the world around us DR JANE GOODALL Filled with reverence and wonder for the natural world this captivating book reveals the secret life of sea turtles one of the oldest living creatures on Earth and the story of one female scientist's fight to save their future In 2015 a

team of researchers carefully removed a plastic straw from a sea turtle's nostril off the coast of Costa Rica. The disturbing incident which was captured on video went viral leading to corporate straw bans around the world. In this evocative book reminiscent of Jane Goodall's memoir *In the Shadow of Man*, the marine biologist behind the camera Christine Figgenger recounts her own life spent studying and protecting sea turtles. From the time she was a young girl Figgenger was determined to become a biologist and study the marvels of the marine world. In *My Life With Sea Turtles* she shares how she went from a small gray town on the edge of industry to the lush coastline of Costa Rica where she fell in love with the local environment and its famous residents the sea turtles. Figgenger describes patrolling the beach at night swimming with turtles in the open ocean watching tiny turtles emerge from sandy nests and risking her life during tropical storms. We learn about her experience as a woman in conservation a male dominated space where she struggles to be taken seriously. Through discovering the fascinating science of sea turtles and the threats they face today readers will be inspired to live their own lives differently to ensure the survival of these magnificent creatures.
