Strange Parallels: Volume 2, Mainland Mirrors: Europe, Japan, China, South Asia, and the Islands Victor Lieberman, 2009-10-30 Blending fine grained case studies with overarching theory this book seeks both to integrate Southeast Asia into world history and to rethink much of Eurasia's premodern past It argues that Southeast Asia Europe Japan China and South Asia all embodied idiosyncratic versions of a Eurasian wide pattern whereby local isolates cohered to form ever larger more stable more

complex political and cultural systems With accelerating force climatic commercial and military stimuli joined to produce patterns of linear cum cyclic construction that became remarkably synchronized even between regions that had no contact with one another Yet this study also distinguishes between two zones of integration one where indigenous groups remained in control and a second where agency gravitated to external conquest elites Here then is a fundamentally original view of Eurasia during a 1 000 year period that speaks to both historians of individual regions and those interested in global trends

Review of the Trade of India in ... ,1917 *China's Seaborne Trade with South and Southeast Asia (1200-1750)* Roderich Ptak,2024-12-11 This second selection of studies by Professor Ptak focuses on Chinese maritime trade in the medieval and early modern periods The first section deals with contacts between China and individual places in particular Timor the Sulu Islands southern India and the islands of the Indian Ocean Chinese geographical and other accounts of these areas and the trade routes leading to them are examined and where possible compared with Arabic and Western works from the colonial period The second part looks at trade in specific commodities such as sandalwood coral horses tortoise shell ebony cloves and tea Relevant Chinese terms the uses of each commodity and the production and distribution are analysed Both qualitative and quantitative information is drawn from the sources and it is demonstrated that many trade items were much more significant in international business than has been thought At the same time these studies highlight the importance of Chinese consumption in driving world commodity flows **Parliamentary Papers** Great Britain.
