Train Aerodynamics Chris Baker, Terry Johnson, Dominic Flynn, Hassan Hemida, Andrew Quinn, David Soper, Mark Sterling, 2019-06-12 Train Aerodynamics Fundamentals and Applications is the first reference to provide a comprehensive overview of train aerodynamics with full scale data results With the most up to date information on recent advances and the possibilities of improvement in railway facilities this book will benefit railway engineers train operators train manufacturers infrastructure managers and researchers of train aerodynamics As the subject of train aerodynamics has evolved slowly over the last few decades with train speeds gradually increasing and as a result of increasing interest in new train types and high speed lines this book provides a timely resource on the topic Examines the fundamentals and the state of the art of train aerodynamics beginning with experimental numerical and analytical tools and then thoroughly discussing the specific approaches in other sections Features the latest developments and progress in computational aerodynamics and experimental facilities Addresses problems relating to train aerodynamics from the dimensioning of railway structures and trains to risk analysis related to safety issues and maintenance Discusses basic flow patterns caused by bridges and embankments The Sealed Train Michael Pearson, 1989 Lenin Robert Service, 2000 Lenin s politics still reverberate around the world even after the death of the USSR His name elicits revulsion and reverence Yet Lenin the man remains largely a mystery This biography reveals Lenin in his full complexity as a revolutionary political leader thinker and private person 50 halftones 3 maps **The Social Railway and Its Workers in Europe's Modern Era, 1880-2023** David Welsh, 2025-06-26 This thematically arranged book examines the evolution of rail transport and a number of railway workforces across Europe in the modern era from around 1880 to 2023 Each chapter explores how within the context of a social railway rail workers developed distinct national and international perspectives on the nature of their work and their roles in societies and states David Welsh convincingly argues that workers formed a raft of entirely new and enduring organisations such as trade unions that in turn became ramparts of hope Welsh goes on to consider how the insurgent character of these organisations produced moments of fury during tumultuous periods in the 20th century The Social Railway and its Workers in Europe s Modern Era 1880 2023 explores the national and European contexts in which both characteristics came to the fore including the ecology of fossil fuel technology coal and oil Above all it argues that social economic and political forces are not simply external scene shifting but integral to the history of railway systems The book examines the cultural construction of European railways through literature art and other forms of writing as well as recent oral history It also includes a detailed investigation of the role played by nationalisation and public ownership in Europe In the context of neoliberalism and globalization it proposes a 21st century programme for the social railway **Night Trains** Andrew Martin, 2017-02-09 Night trains have long fascinated us with the possibilities of their private sleeping compartments gilded dining cars champagne bars and wealthy travellers Authors from Agatha Christie to Graham Greene have used night

trains to tell tales of romance intrigue and decadence against a rolling background of dramatic landscapes The reality could often be as thrilling early British travellers on the Orient Express were advised to carry a revolver as well as a teapot In Night Trains Andrew Martin attempts to relive the golden age of the great European sleeper trains by using their modern day equivalents This is no simple matter The night trains have fallen on hard times and the services are disappearing one by one But if the Orient Express experience can only be recreated by taking three separate sleepers the intriguing characters and exotic atmospheres have survived Whether the backdrop is 3am at a Turkish customs post the sun rising over the Riviera or the constant twilight of a Norwegian summer night Martin rediscovers the pleasures of a continent connected by rail By tracing the history of the sleeper trains he reveals much of the recent history of Europe itself The original sleepers helped break down national barriers and unify the continent Martin uncovers modern instances of European unity and otherwise as he traverses the continent during interesting times with Brexit looming Against this tumultuous backdrop he experiences his own smaller dramas as he fails to find crucial connecting stations ponders the mystery of the compartment dog and becomes embroiled in his very own night train whodunit

Discipleship Dietrich Bonhoeffer, 2003-05-01 Cheap grace is the mortal enemy of our church Our struggle today is for costly grace And with that sharp warning to his own church which was engaged in bitter conflict with the official nazified state church Dietrich Bonhoeffer began his book *Discipleship* formerly entitled *The Cost of Discipleship* Originally published in 1937 it soon became a classic exposition of what it means to follow Christ in a modern world beset by a dangerous and criminal government At its center stands an interpretation of the Sermon on the Mount what Jesus demanded of his followers and how the life of discipleship is to be continued in all ages of the post resurrection church Every call of Jesus is a call to death Bonhoeffer wrote His own life ended in martyrdom on April 9 1945 Freshly translated from the German critical edition *Discipleship* provides a more accurate rendering of the text and extensive aids and commentary to clarify the meaning context and reception of this work and its attempt to resist the Nazi ideology then infecting German Christian churches

account of Vladimir I Lenin's years of exile in Europe showing that this often overlooked period shaped the life of one of the 20th century's most important figures. In the years leading up to the Russian Revolution, Lenin traveled between the capital cities of Europe, developing a complex network of collaborators and co-conspirators that would play a significant role in the struggle to come. Rappaport sheds a rare light onto Lenin's early life, describing his relationship with his wife Nadezhda Krupskaya and his extraordinary and unexpected love affair with beautiful activist Inessa Armand. In a riveting narrative, *Conspirator* describes the courage and the comedy, the setbacks, schisms, and disappointments, the extreme persistence, and the ruthless dedication that carried Lenin and his colleagues along the inexorable path to the Russian Revolution. Cigarettes and Soviets Tricia Starks, 2022-11-15 Winner of the Southern Conference on Slavic Studies Book Award Enriched by color reproductions of tobacco advertisements, packs, and anti-smoking propaganda, *Cigarettes and Soviets* provides a comprehensive study of the Soviet tobacco habit. Tricia Starks examines how the Soviets maintained the first mass smoking society in the world while simultaneously fighting it. The book is at once a study of Soviet tobacco, deeply enmeshed in its social, political, and cultural context, and an exploration of the global experience of the tobacco epidemic. Starks examines the Soviet antipathy to tobacco, yet capitulation to market, the development of innovative cessation techniques and clinics, and the late entry into global anti-tobacco work, the seeming lack of cultural stimuli alongside massive use, and the expansion of smoking without the conventional prompts of capitalist markets. She tells the story of Philip Morris's Mission to Moscow campaign for the Soviet market, the triumph of the quintessential capitalist product, the cigarette, in a communist system, and the successes and failures of the world's first national anti-smoking campaign. The interplay of male habits and health against largely female tobacco producers and medical professionals adds a gendered dimension. Smoking developed, continued, and grew in the Soviet Union without mass production, intensive advertising, seductive industrial design, or product ubiquity. The Soviets were early to condemn tobacco, and yet by the end of the twentieth century, Russians smoked more heavily than most other nations in the world. *Cigarettes and Soviets* challenges interpretations of how tobacco use rose in the past and what leads to mass use today.
