The Hidden History of the Korean War, 1950-1951*

I. F. Stone,2014-09-16 A great journalist raises troubling questions about the forgotten war in this courageous controversial book with a new introduction by Bruce Cumings The Baltimore Sun Much about the Korean War is still hidden and much will long remain hidden I believe I have succeeded in throwing new light on its origins From the author s preface In 1945 US troops arrived in Korea for what would become America s longest lasting conflict While history books claim without equivocation that the war lasted from 1950 to 1953 those who have actually served there know better By closely analyzing US intelligence before June 25 1950 the war s official start and the actions of key players like John Foster Dulles General Douglas MacArthur and Chiang Kai shek the great investigative reporter I F Stone demolishes the official story of America s forgotten war by shedding new light on the tangled sequence of events that led to it The Hidden History of the Korean War was first published in 1952 during the Korean War and then republished during the Vietnam War In the 1990s documents from the former Soviet archives became available further illuminating this controversial period in history

Intersectional Incoherence Cindi Textor,2024-11-05 A free ebook version of this title is available through Luminos University of California Press s Open Access publishing program Visit www.luminosoa.org to learn more Intersectional Incoherence stages an encounter between the critical discourse on intersectionality and texts produced by Korean subjects of the Japanese empire and their postwar descendants in Japan known as Zainichi Koreans Arguing for intersectionality as a reading method rather than strictly a tool of social analysis Cindi Textor reads moments of illegibility and incoherent language in these texts as a product of the pressures on Zainichi Koreans and their literature to represent both Korean difference from and affinity with Japan Rejecting linguistic norms and representational imperatives of identity categories Textor instead demands that the reader grapple with the silent absent illegible or unintelligible Engaging with the incoherent she argues allows for a more ethical approach to texts subjects and communities that resist representation within existing paradigms

new directions this volume shows that a serious re turn toward anarchist thought and practice can challenge and inspire geographers to travel beyond their traditional frontiers of geographical praxis

Captured by History John Toland,2017-10-03 *Captured by History* is an autobiography like none other for few historians have interviewed as many men

and women who helped shape the most momentous events of our century than John Toland Here for the first time Toland reveals how he found these key players and how he persuaded them to talk to him From disgraced Japanese generals to the German doctor who nearly succeeded in assassinating Hitler Toland s sources are remarkable for what they reveal about their subjects along with the secrets and stories they would tell no one else Toland s unorthodox approach to history came from his early desire to be a playwright Even before graduating from Williams College during the depths of the Depression Toland spent his summers hitchhiking and riding the rails as a hobo He lived and worked with other bindle stiffs learning their lingo and ways He served five short jail sentences for riding freights and trespassing His experiences and the characters he met encouraged Toland to write plays and early novels unsuccessfully until 1957 when he published his first book *Ships in the Sky* His work in the next four decades was nothing short of extraordinary for Toland found that he saw history as a play with narrative structure and drama not as a dry series of dates and names The result was a series of landmark works such as *Infamy* *The Rising Sun* which won him the Pulitzer Prize for nonfiction in 1970 and reflected his ability with the help of his Japanese wife to open doors normally closed to Westerners in Japan In *Mortal Combat* *The Last 100 Days* and his best selling biography of Adolf Hitler *Captured by History* is not only the summation of a lifetime of groundbreaking works but the story of a man who through his historical investigations became a witness to many of the most catastrophic events of the twentieth century A self effacing man in person Toland nonetheless comes across as having had a life as fascinating as the lives of the many historical figures he has interviewed Written by one of our last witnesses to the terrible and deracinating conflicts that split the world asunder at mid century *Captured by History* is an astonishing personal story of a hugely inquisitive man who became a historian not by accident or design but by fate a man who succeeded in chronicling the most tumultuous events of our century *The Fight to Save American Freedoms* Stanley Duncan, 2022-01-28

The Fight to Save American Freedom must be led by American patriots so that legal voting citizens can preserve our birthright freedoms in the elections of 2022 and 2024 The November 3 2020 election was a five alarm fire Thomas Jefferson said the Missouri Compromise of 1820 awakened him like a fire bell in the night The November 3 2020 election was a power grab by the radical left to fundamentally change America in ways that spell doom for the greatest nation on earth This book is an easy read that will evoke many thoughts of pride about the United States as well as an alarming fear for our nation s survival Read historical facts that will serve as a counterargument to the actions of radical leftists and the untrue propaganda that threatens individual freedoms economic stability and the existence of our country This book provides history and common sense as a north star for navigation to evaluate the current path that America is traveling Two polar opposites of ideology are struggling for the soul of America The author engages readers via a Socratic questioning methodology that evokes the reader s inductive reasoning capabilities for an analysis of real factual history propaganda and the causes and effects of current events This unique writing style will allow readers to formulate with clarity their position regarding the

turmoil taking place in America today Read this book and you will learn for the first time or experience a reaffirmation of the greatness of the United States of America enjoyed by our citizens and the world at large All Americans are invited to study the story of the greatest nation ever To all patriots fence sitters and those on the other side you are invited to engage in this dialogue with the author What is at stake in 2022 and 2024 everything The facts of this story must be told to all Americans
