A Research Guide to the Ancient World John M. Weeks, Jason de Medeiros, 2014-11-25 The archaeological study of the ancient world has become increasingly popular in recent years A Research Guide to the Ancient World Print and Electronic Sources is a partially annotated bibliography The study of the ancient world is usually although not exclusively considered a branch of the humanities including archaeology art history languages literature philosophy and related cultural disciplines which consider the ancient cultures of the Mediterranean world and adjacent Egypt and southwestern Asia Chronologically the ancient world would extend from the beginning of the Bronze Age of ancient Greece ca 1000 BCE to the fall of the Western Roman Empire ca 500 CE This book will close the traditional subject gap between the humanities Classical World Egyptology and the social sciences anthropological archaeology Near East in the study of the ancient world This book is uniquely the only bibliographic resource available for such holistic coverage The volume consists of 17 chapters and seven appendixes arranged according to the traditional types of library research materials bibliographies dictionaries atlases etc The appendixes are mostly subject specific including graduate programs in ancient studies reports from significant archaeological sites numismatics and paleography and writing systems These extensive author and subject indexes help facilitate ease of use

Pyramid Quest Robert M. Schoch, Robert Aquinas McNally, 2005-06-02 The Egyptologist acclaimed for re dating the Great Sphinx at Giza sets his sights on one of the true mysteries of antiquity the Great Pyramid of Giza What is the Great Pyramid of Giza Ask that basic question of a traditional Egyptologist and you get the basic traditional answer a fancy tombstone for a self important pharaoh of the Old Kingdom This Egyptologists argue is the sole finding based on the data and the only deduction supported by science By implication anyone who dissents from this point of view is unscientific and woolly minded a believer in magic and ghosts Indeed some of the unconventional ideas about the Great Pyramid do have a spectacularly fabulous ring to them Yet from beneath the obvious terms of this controversy a deeper more significant question arises how is it that the Great Pyramid exercises such a gripping hold on the human psyche adding cryptic grace to the back of the one dollar bill and framing myriad claims of New Age pyramid power In Pyramid Quest Robert M Schoch and Robert Aquinas McNally use the rigorous intellectual analysis of scientific inquiry to investigate what we know about the Great Pyramid and develop a stunning hypothesis This ancient monument is the strongest proof yet that civilization began thousands of years earlier than is generally thought extending far back into a little known time In tracing that story we come to understand not only the Great Pyramid but also our own origins as civilized beings

Ancient Egypt and Modern Psychotherapy Todd Hayen, 2016-12-19 In *Ancient Egypt and Modern Psychotherapy* Todd Hayen explores what the spiritual concepts of the enigmatic ancient Egyptians can teach us about our own modern psyches and the pursuit of a meaningful life Hayen examines the ancient Egyptians' possession of a concept contemporary academics have labeled consciousness of the heart an innate knowledge of the entirety of the universe While all human beings possess this consciousness of the heart our modern culture has largely lost the ability to tap into this inborn knowledge By examining the material accomplishments of ancient Egypt and how their seemingly deeper awareness of their inner world created a harmonious outer world we can begin to understand how modern psychotherapy through a Jungian perspective could be instrumental in achieving a more profound and meaningful personal experience of life *Ancient Egypt and Modern Psychotherapy* will be insightful reading for analytical psychologists in practice and in training Jungian psychotherapists and psychologists and academics and students of Jungian and post Jungian studies and ancient spirituality

Marjorie Vernelle, 2023-09-19 Seti I is most frequently known as the father of Ramesses II but in fact he was a great pharaoh himself though with a relatively short reign of just eleven years A great warrior king a strategic thinker and a man who knew the life of the ordinary people he was an extraordinary ruler His brand was excellence and he used that in many forms to win his people to a king who was not born royal A warrior with the soul of an artist his Great Hypostyle Hall at Karnak is a wonder His tomb in the Valley of the Kings is the most beautiful with a burial chamber referred to as the Sistine Chapel of Ancient Egypt His mortuary temple in Abydos venerates the main deities of old Egypt with some of that ancient culture's most beautiful raised relief art It is that temple the Temple of Seti that forms the structure of this novel which attempts to recreate the diary of the pharaoh It is written on the temple walls that the king kept a diary and had it hidden somewhere in the temple As yet it has not been found but one can easily imagine the king in the solitude of the night writing of his life as he realizes his shortness of breath and pressure in the chest may mean it is the last year of that magnificent life *Temple in the Sand* the *Memoirs of a Pharaoh* is a tribute to the mysterious and beautiful sacred structure built by Pharaoh Seti I in Abydos and to the man behind the royal regalia **Channeling Into the New Age** Henry Gordon, 2011-04-29

What exactly is the New Age movement Why has it become the dominant force of the Zeitgeist invading nearly every aspect of American life After years of researching this burgeoning movement columnist author and magician Henry Gordon is one of the world's foremost experts on every aspect of the New Age its derivations and content the people most involved in it the forces that motivate and prolong it and the enormous amount of money changing hands as the new generation takes on astrology crystals runes channeling mysticism yoga acupuncture herbal medicine telepathy precognition clairvoyance biofeedback biorhythms reincarnation and every sort of psychological technique for heightened awareness At the forefront of the brouhaha is high profile actress lecturer and free spirit Shirley MacLaine This book is strictly unauthorized a freewheeling and spirited roast of the New Age including a history of trends leading to the movement rooted in 19th century occultism and observations on

the vast amount of coverage given to the movement and to New Age celebrities by the print and broadcast media Although Gordon delights in skewering the absurdities of the New Age there s a serious emphasis to his research and his message While the gurus are busy channeling into new realities they are becoming phenomenally rich without contributing in any significant way to the alleviation of human unhappiness and very often without making any sense at all Sharp wit and common sense Wise and often hilarious Rocky Mountain News

Seeds of Western Culture: Universal Chronology, the Exoduses and Archilochus' Odyssey Graham Peter Scott,2025-01-01 The book rediscovers two of the main seeds of Western Culture the Exodus and the Odyssey which are entwined within the book by both a common link with Egypt and a review of ancient chronology They were both antecedents to the rise of Christianity which is at the heart of Western Culture It was inspired by a desire to understand the spiritual message of the Odyssey which required both geographical and spiritual interpretations of the poem Linked to this was a desire to understand the political context of the Trojan story which required resolving the false hiatus in the archaeology of Troy This resulted in a new paradigm for understanding ancient chronology which revealed the stories behind the Exodus and the location of the Garden of Eden Writing the book has been a long and eventful journey longer than Odysseus 19 years away from home The book is written in five parts Universal Chronology Based on the identification of Menophres with Thutmose III and of the Bubastite Portal s reference to Shoshenq s participation in the Battle of Qarqar the Egyptian Third Intermediate Period is shortened by 120 years with a pharaoh ruling from Tanis and subordinate kings at Bubastis and Thebes The Exodus Using the Universal Chronology and genealogical

information and dates provided by the Bible it is demonstrated that the story of the Exodus is a combination of two events being the exodus of the Hyksos led by Abraham in 1406 BC following the eruption of Thera and the exodus of the Atenist Levite priests led by Moses in about the first year of Tutankhamun 1204 BC The story of Abraham also reveals the location of the Garden of Eden in the heartland of the Levant Radiocarbon Dating The process that created the dendrochronology based radiocarbon calibration curve is demonstrated to be a flawed non scientific process that relied upon circular arguments The Odyssey By comparing the life and work of Archilochus to both the Odyssey and the Iliad it is shown that Archilochus must have been the author of the Odyssey The allegory within the Odyssey is also discussed to provide both geographical and spiritual interpretations of the poem Western Culture The two main streams of Western Culture Ancient Greece and Christianity are shown to have had their foundations in the stories surrounding the Trojan War the spiritual message of the Odyssey and the influences of Egypt on Greece and Judaism It is shown how Greek and Jewish religions were fused to create the Gospels and contributed towards modern astrology

Contesting Antiquity in Egypt Donald Malcolm

Reid, 2019-09-03 The history of the struggles for control over Egypt's antiquities and their repercussions during a period of intense national ferment The sensational discovery in 1922 of Tutankhamun's tomb close on the heels of Britain's declaration of Egyptian independence accelerated the growth in Egypt of both Egyptology as a formal discipline and of pharaonism popular interest in ancient Egypt as an inspiration in the struggle for full independence Emphasizing the three decades from 1922 until Nasser's revolution in 1952 this compelling follow up to Whose Pharaohs looks at the ways in which Egypt developed its own archaeologies Islamic Coptic and Greco Roman as well as the more dominant ancient Egyptian Each of these four archaeologies had given birth to and grown up around a major antiquities museum in Egypt Later Cairo Alexandria and Ain Shams universities joined in shaping these fields Contesting Antiquity in Egypt brings all four disciplines as well as the closely related history of tourism together in a single engaging framework Throughout this semi colonial era the British fought a prolonged rearguard action to retain control of the country while the French continued to dominate the Antiquities Service as they had since 1858 Traditional accounts highlight the role of European and American archaeologists in discovering and interpreting Egypt's long past Donald Reid redresses the balance by also paying close attention to the lives and careers of often neglected Egyptian specialists He draws attention not only to the contests between westerners and Egyptians over the control of antiquities but also to passionate debates among Egyptians themselves over pharaonism in relation to Islam and Arabism during a critical period of nascent nationalism Drawing on rich archival and published sources extensive interviews and material objects ranging from statues and murals to photographs and postage stamps this comprehensive study by one of the leading scholars in the field will make fascinating reading for scholars and students of Middle East history archaeology politics and museum and heritage studies as well as for the interested lay reader
